reba mcentire republican: **The Politics of the President's Wife** MaryAnne Borrelli, 2011-08-15 As the West Wing has grown in power and organizational complexity during the modern presidency, so has the East Wing, office home to the First Lady of the United States. This groundbreaking work by MaryAnne Borrelli offers both theoretical and substantive insight into behind-the-scenes developments from the time of Lou Henry Hoover to the unfolding tenure of

Michelle Robinson Obama. Political scientists and historians have recognized the personal influence the First Lady can exercise with her husband, and they have noted the moral, ethical, and sometimes policy leadership certain presidents' wives have offered. Nonetheless, scholars and commentators alike have treated the personal relationship and the professional relationship as overlapping. Borrelli offers a compelling counter-perspective: that the president's wife exercises power intrinsic to her role within the administration. Like others within the presidency, she has sometimes presented the president's views to constituents and sometimes presented constituents' views to the president, thus taking on a representative function within the system. In mediating president-constituent relationships, she has given a historical and social frame to the presidency that has enhanced its symbolic representation; she has served as a gender role model, enriching descriptive representation in the executive branch; and she has participated in policy initiatives to strengthen an administration's substantive representation. These contributions have been controversial, as might be predicted for a gender outsider, but they have unquestionably made the First Lady a representative of and to the president and, by extension, the president's administration.

Nevertheless, this inveterate political insider has come forward with a no-holds-barred, honest appraisal of the party that owns his heart. In a political book with attitude, Robinson shares his sometimes angry, sometimes befuddled, sometimes downright amused perspective on the most pressing questions facing the party and the voting public. It's My Party promises to be one of the year's most entertaining and perceptive looks at America's political battlefield.

Heller, 2016-09-23 The Selling of 9/11 argues that the marketing and commodification of the terrorist attacks of September 11, 2001, reveal the contradictory processes by which consumers in the United States (and around the world) use, communicate, and construct national identity and their sense of national belonging through cultural and symbolic goods. Contributors illuminate these processes and make important connections between myths of nation, practices of mourning, theories of trauma, and the politics of post-9/11 consumer culture.
