regency novels online: The Good Web Guide for Book Lovers Susan Osborne, 2003 The birth of the internet heralded several theories about the demise of the book and of reading in general. Contrary to this, books are thriving on the internet and the author recommends the best websites to cut your searching time. This guide includes information on: the best internet bookshops, both small and large; rare and specialist bookshops; book clubs; literary magazines; reading group resources; author and fan websites and publisher's own websites; websites for budding writers to develop their own talents.

regency novels online: Internet Fictions Ingrid Hotz-Davies, Anton Kirchhofer, Sirpa Leppänen, 2008-12-18 The Internet is nothing less than a medium for the indiscriminate and global dissemination of information if we take information in its cybernetic sense as bits of data – any data. As such, it is also a massive, amorphous, rhizomic collection of substantiated facts, guesswork, fantasy, madness, debate, criminal energy, big business, stupidity, brilliance, all in all a seemingly limitless multiplication of voices, all clamouring to be heard. It is a medium which proliferates stories, narratives, fictions, in ways which are both new and familiar. It is as a generator of fictions that the Internet seems to be just waiting to be explored by the disciplines of literary, cultural and linguistic studies: Fan-fiction, slash and straight; scam baiting; fan sites; 'wild' or 'rogue' interpretive universes; gossip, theories, musings, opinions. As a singularly unstructured – and hence as yet uncanonizable – body of texts, the stories told on the Internet have a distinct element of 'grass-roots' fictionalization and so offer an unprecedented opportunity to access, hear and investigate the stories and fantasies woven by non-professional writers alongside their more formally recognized colleagues. As a medium which is beginning to investigate itself by means of various meta-debates within the vast community of Internet fictionalizers, it is also a location where emergent phenomena may be debated in their process of being generated. This collection seeks to explore this for the most part uncharted territory in creative, innovative, theory-savvy ways using the manifold fictions the Internet generates. It brings together a wide variety of expertise from the fields of linguistic, literary, media and cultural studies. All contributors bring to the collection their individual voices and approaches which speak from various positions of involvedness or critique to provide searching and passionate discussions of the issues involved in Internet Fictions.

regency novels online: Blake and the Failure of Prophecy Lucy Cogan, 2021-05-24 This monograph reorients discussion of Blake's prophetic mode, revealing it to be not a system in any formal sense, but a dynamic, human response to an era of momentous historical change when the future Blake had foreseen and the reality he was faced with could not be reconciled. At every stage, Blake's writing confronts the central problem of all politically minded literature: how texts can become action. Yet he presents us with no single or, indeed, conclusive answer to this question and in this sense it can be said that he fails. Blake, however, never stopped searching for a way that prophecy might be made to live up to its promise in the present. The twentieth-century hermeneuticist Paul Ricoeur shared with Blake a preoccupation with the relationship between time, text and action. Ricoeur's hermeneutics thus provide a fresh theoretical framework through which to analyse Blake's attempts to fulfil his prophetic purpose.
