Other legends ranged from the great aunt who ran illegal hooch during Prohibition to the wronged Victorian servant girl who bore an illegitimate Hardy, not forgetting the family's rightful claim to a large country estate. Wild stories aside, Jeremy sets out to such diverse locations as the Croydon one-way system and the hostile waters around Malta in order to find traces of recognisable family traits and a sense of how he came to be. With wry humour and a keen eye for the absurd and the frustrating, Jeremy takes us on a by turns funny and moving journey into the world of family ancestry. *My Family and Other Strangers* will be enjoyed by anyone who has tried to decipher the 1901 census records, or simply wishes they too had asked their grandparents more about their lives.

personal exploration of mental health, and an indelible account of the legacy of familial illness and living with a fracturing mind Like many people, Tom Lee remembers the presence - somewhere out of sight, on the outskirts of town - of the local psychiatric hospital. It was a place that inspired jokes, rumours and dread, a place where the strange and deranged were kept away. But among those people were, at different times, Tom's own parents. Afterwards, those times were not much spoken about and before long the hospital closed, as part of the nationwide shutting down of psychiatric institutions. For many years, Tom believed that he had dodged the bullet of the mental illness that had marked the lives of his parents. But then, quite out of the blue, he has a crisis of his own and finds himself returning to the past for clues. *The Bullet* is an attempt to piece together and understand what happened to his parents and what happened to him. It is also a story about how we have tried and spectacularly failed to care for people suffering with mental illness, and about the terrifying fragility and unknowability of the human mind.

Common stress factors such as fear of failure, hyperresponsibility, dealing effectively with a child's non-compliance, and educating non-supportive relatives, friends and peers, are all addressed in heart-to-heart frankness from mothers who have covered the territory personally. The authors include first-person accounts of the successes and trails of other families as well as a rare glimpse of what kids think of the diets, in their own words. The book closes with the KetoCalculator 101, with tips and advice from the Charlie Foundation's Beth Zupec-Kania, RD, CD, the Keto Calculator's creator and a recipe section offering simple, delicious recipes organized by age group, each with Keto Bites, fun food facts or practical advice that correspond to each recipe.
