saint thomas academic intercession: *The Virtual Liturgy and Ritual Artifacts in Medieval and Early Modern Studies* Katharine Scherff, 2023-03-03 Examining the history of altar decorations, this study of the visual liturgy grapples with many of the previous theoretical frameworks to reveal the evolution and function of these ritual objects. Using an interdisciplinary approach, this book uses traditional art-historical methodologies and media technology theory to reexamine ritual objects. Previous analysis has not considered the in-between nature of these objects as deliberate and virtual conduits to the divine. The liturgy, the altarpiece, the altar environment, relics, and their reliquaries are media. In a series of case studies, several objects tell a different story about culture and society in medieval Europe. In essence, they reveal that media and media technologies generate and modulate the individual and collective structure of feelings of sacredness among assemblages of humans and nonhumans. The book will be of interest to scholars working in art history, medieval studies, early modern studies, and architectural history.

saint thomas academic intercession: *The Historians of Angevin England* Michael Staunton, 2017-06-16 *The Historians of Angevin England* is a study of the explosion of creativity in historical writing in England in the late twelfth and early thirteenth centuries, and what this tells us about the writing of history in the middle ages. Many of those who wrote history under the Angevin kings of England chose as their subject the events of their own time, and explained that they did so

simply because their own times were so interesting and eventful. This was the age of Henry II and Thomas Becket, Eleanor of Aquitaine and Richard the Lionheart, the invasion of Ireland and the Third Crusade, and our knowledge and impression of the period is to a great extent based on these contemporary histories. The writers in question - Roger of Howden, Ralph of Diceto, William of Newburgh, Gerald of Wales, and Gervase of Canterbury, to name a few - wrote history that is not quite like anything written in England before. Remarkable for its variety, its historical and literary quality, its use of evidence and its narrative power, this has been called a 'golden age' of historical writing in England. The *Historians of Angevin England*, the first volume to address the subject, sets out to illustrate the historiographical achievements of this period, and to provide a sense of how these writers wrote, and their idea of history. But it is also about how medieval intellectuals thought and wrote about a range of topics: the rise and fall of kings, victory and defeat in battle, church and government, and attitudes to women, heretics, and foreigners.
