richard ramirez interview: *Becoming Noise Music* Stephen Graham, 2023-01-12 *Becoming Noise Music* tells the story of noise music in its first 50 years, using a focus on the music's sound and aesthetics to do so. Part One focuses on the emergence and stabilization of noise music across the 1980s and 1990s, whilst Part Two explores noise in the twenty-first century. Each chapter contextualizes – tells the story – of the music under discussion before describing and interpreting its sound and aesthetic. Stephen Graham uses the idea of 'becoming' to capture the unresolved 'dialectical' tension between 'noise' disorder and 'musical' order in the music itself; the experiences listeners often have in response; and the overarching 'story' or 'becoming' of the genre that has taken place in this first fifty or so years. The book therefore doubles up on becoming: it is about both the becoming it identifies in, and the larger, genre-making process of the becoming of, noise music. On the latter count, it is the first scholarly book to focus in such depth and breadth on the sound and story of noise music, as opposed to contextual questions of politics, history or sociology. Relevant to both musicology and noise audiences, *Becoming Noise Music* investigates a vital but analytically underexplored area of avant-garde musical practice.

richard ramirez interview: *Unspeakable Horror* Joseph B. Healy, 2017-08-01 The story of the USS Indianapolis is well-known. After delivering crucial components of the atomic bomb that would level Hiroshima in 1945, the Indianapolis was sunk by a Japanese submarine in the South China Sea. Of the nearly 1,200 men aboard, 900 survived the torpedoing, spilling into the sea. White tip sharks began attacking the next morning and after four days only 300 sailors were alive to rescue. Less famous are the many stories of ships sinking in shark-infested waters with gruesome results. Such as the Cape San Juan, a US troop transport ship that was torpedoed by a Japanese submarine in the Pacific Ocean near the Fiji Islands; nearly 700 of the survivors were killed by sharks. Or the HMS Birkenhead, which sunk off Danger Point, South Africa, in 1852, resulting in 440 shark-related fatalities. In 1927, the luxury Italian cruise liner Principessa Maldafa sank ninety miles off the coast of Albrohos Island while heading to Porto Seguro, Brazil. Nearly 300 who survived the wreck were killed by sharks. In 1909, the French steamer La Seyne collided with British India Steamship Co. liner Onda near Singapore, twenty-six miles from land. One hundred and one people were eventually killed by sharks. In the water, human intelligence is no match for a shark's brutal, destructive instincts. Sharks are born to kill and eat: They detect distress, smell blood—and attack. Marine disasters such as those above result in humans becoming prey, floating in inner space as shadowy

sharks swim below, ready to attack. Helpless to save yourself—floating and waiting, watching the malevolent creatures circle, knowing what will happen . . . a sudden swirl of water, a cloud of blood, the searing pain . . . until there is no more. This is unspeakable horror

richard ramirez interview: Dissent Jackie Calmes, 2021-06-15 Featuring new interviews with his accusers and overlooked evidence of his deceptions, a deeply reported account of the life and confirmation of Brett Kavanaugh, set against the conservative movement's capture of the courts. In *DISSENT*, award-winning investigative journalist Jackie Calmes brings readers closer to the truth of who Supreme Court Justice Brett Kavanaugh is, where he came from, and how he and the Republican party at large managed to secure one of the highest seats of power in the land. Kavanaugh's rise to the justice who solidified conservative control of the supreme court is a story of personal achievement, but also a larger, political tale: of the Republican Party's movement over four decades toward the far right, and its parallel campaign to dominate the government's judicial branch as well as the other two. And Kavanaugh uniquely personifies this history. Fourteen years before reaching the Supreme Court, during a three-year fight for a seat on the D.C. Circuit Court of Appeals, Democratic Senator Dick Durbin would say to Kavanaugh, It seems that you are the Zelig or Forrest Gump of Republican politics. You show up at every scene of the crime. Featuring revelatory new reporting and exclusive interviews, *DISSENT* is a harrowing look into the highest echelons of political power in the United States, and a captivating survey of the people who will do anything to have it.

richard ramirez interview: Killer Fandom: Fan Studies and the Celebrity Serial Killer Judith May Fathallah, 2023-11-05 Killer Fandom is the first long-form treatment of serial killer fandom. Fan studies have mostly ignored this most moralized form of fandom, as a stigmatized Bad Other in implicit tension with the field's successful campaign to recuperate the broader fan category. Yet serial killer fandom, as Judith May Fathallah shows in the book, can be usefully studied with many of the field's leading analytic frameworks. After tracing the pre-digital history of fans, mediated celebrity, and killers, Fathallah examines contemporary fandom through the lens of textual poaching, affective community, subcultural capital, and play. With close readings of fan posts, comments, and mashups on Tumblr, TikTok, and YouTube, alongside documentaries, podcasts, and a thriving "murderabilia" industry, *Killer Fandom* argues that this fan culture is, in many ways, hard to distinguish from more "mainstream" fandoms. Fan creations around Aileen Wuornos, Jeffrey Dahmer, Ted Bundy, and Richard Ramirez, among others, demonstrate a complex and shifting stance toward their objects—marked by parodic humor and irony in many cases. *Killer Fandom* ultimately questions—given our crime-and violence-saturated media culture—whether it makes sense to set Dahmer and Wuornos "fans" apart from the rest of us.
