rochelle aytes: Home Is Where the Hurt Is Sara Hosey, 2019-11-08 Despite years of propaganda attempting to convince us otherwise, popular media is beginning to catch on to the idea that the home is one of the most dangerous and difficult places for a woman to be. This book examines emergent trends in popular media, which increasingly takes on the realities of domestic violence, toxic home lives and the impossibility of having it all. While many narratives still fall back on outmoded and limiting narratives about gender--the pursuit of romance, children, and a life dedicated to the domestic--this book makes the case that some texts introduce complexity and a

challenge to the status quo, pointing us toward a feminist future in which women's voices and concerns are amplified and respected.

rochelle aytes: *The Comic Event* Judith Roof, 2018-01-11 The Comic Event approaches comedy as dynamic phenomenon that involves the gathering of elements of performance, signifiers, timings, tones, gestures, previous comic bits, and other self-conscious structures into an “event” that triggers, by virtue of a “cut,” an expected/unexpected resolution. Using examples from mainstream comedy, The Comic Event progresses from the smallest comic moment-jokes, bits-to the more complex-caricatures, sketches, sit-coms, parody films, and stand-up routines. Judith Roof builds on side comments from Henri Bergson's short treatise “Laughter,” Sigmund Freud's Jokes and Their Relation to the Unconscious, and various observations from Aristotle to establish comedy as a complex, multifaceted practice. In seeing comedy as a gathering event that resolves with a “cut,” Roof characterizes comedy not only by a predictable unpredictability occasioned by a sudden expected/unexpected insight, but also by repetition, seriality, self-consciousness, self-referentiality, and an ourobouric return to a previous cut. This theory of comedy offers a way to understand the operation of a broad array of distinct comic occasions and aspects of performance in multiple contexts.

rochelle aytes: Tyler Perry Janice D. Hamlet, 2019-09-25 A career-spanning volume, *Tyler Perry: Interviews* collects sixteen interviews, ranging from the early 2000s to 2018. Once a destitute and struggling playwright, Tyler Perry (b. 1969) is now a multimedia phenomenon and one of the most lucrative auteurs in Hollywood. Known for his unwavering and audacious rhetorical style, Perry has produced an impressive body of work by rejecting Hollywood's procedures and following his personal template. Featuring mostly African American actors and centering primarily on women, Perry's films lace drama and comedy with Christianity. Despite the skepticism of Hollywood executives who claimed that church-going black people do not go to the movies, Perry achieved critical success with the release of his first film, *Diary of a Mad Black Woman*, which became the US's highest-grossing movie of 2005. With his movies, Perry has discovered an untapped audience

for the stories he has to offer—stories about adversity, faith, family, and redemption. Critics, including African American filmmaker Spike Lee, have censured Perry's work for being repetitive and reinforcing negative stereotypes that have long plagued the African American community. Supporters, however, praise Perry for creating films that allow his audience to see themselves onscreen. Regardless of how his films are received, Perry's accomplishments—establishing the Tyler Perry brand, building one of the largest movie studios in the country, employing more African Americans in front of and behind the camera than any other studio, and creating cinematic content for audiences other filmmakers have ignored—undeniably establish him as one of the most powerful multimedia moguls in the country.

rochelle aytes: Multiplicity and Cultural Representation in Transmedia Storytelling Natalie Underberg-Goode, 2022-12-02 This book explores the relationship between multiplicity and representation of non-European and European-American cultures, with a focus on comics and superheroes. The author employs a combination of research methodologies, including close reading of transmedia texts and interviews with transmedia storytellers and audiences, to better understand the way in which diverse cultures are employed as agents of multiplicity in transmedia narratives. The book addresses both commercial franchises such as superhero narratives, as well as smaller indie projects, in an attempt to elucidate the way in which key cultural symbols and concepts are utilized by writers, designers, and producers, and how these narrative choices affect audiences – both those who identify as members of the culture being represented and those who do not. Case studies include fan fiction based on Marvel's Black Panther (2018), fan fiction and art created for the Moana (2016) and Mulan (2020) films, and creations by both U.S.-based and international indie comics artists and writers. This book will appeal to scholars and students of new media, narrative theory, cultural studies, sociocultural anthropology, folkloristics, English/literary studies, and popular culture, transmedia storytelling researchers, and both creators and fans of superhero comics.

rochelle aytes: *Historical Dictionary of African American Cinema* S. Torriano Berry, Venise T. Berry, 2007-01-26 On 4 July, 1910, in 100-degree heat at an outdoor boxing ring near Reno, Nevada, film cameras recorded-and thousands of fans witnessed-former heavyweight champion Jim Jeffries' reluctant return from retirement to fight Jack Johnson, a black man. After 14 grueling rounds, Johnson knocked out Jeffries and for the first time in history, there was a black heavyweight champion of the world. At least 10 people lost their lives because of Johnson's victory and hundreds more were injured due to white retaliation and wild celebrations in the streets. Public screenings received instantaneous protests and hundreds of cities barred the film from being shown. Congress even passed a law making it a federal offense to transport moving pictures of prizefights across state lines, and thus the most powerful portrayal of a black man ever recorded on film was made virtually invisible. This is but one of the hundreds of films covered in the *Historical Dictionary of African American Cinema*, which includes everything from *The Birth of a Nation* to *Crash*. In addition to the films, brief biographies of African American actors and actresses such as Sidney Poitier, James Earl Jones, Halle Berry, Eddie Murphy, Whoopi Goldberg, Denzel Washington, and Jamie Foxx can be found in this reference. Through a chronology, a list of acronyms and abbreviations, an introductory essay, a bibliography, appendixes, black-&-white photos, and hundreds of cross-referenced dictionary entries on actors, actresses, movies, producers, organizations, awards, film credits, and terminology, this book provides a better understanding of the role African Americans played in film history.
