realidades 2 guide online: Plataformas, consumo mediático y nuevas realidades digitales. Hacia una perspectiva integradora. José María Valero Pastor, 2021-11-15 La industria de la comunicación, en sus numerosas ramificaciones, ha experimentado una gran mutación a lo largo de la última década. La vorágine de cambios que desencadenó Internet, sucedido por las plataformas sociales y por dispositivos que han modificado por completo los hábitos de consumo, como el smartphone, han provocado una tensión constante entre los medios de comunicación y las plataformas por conseguir y retener la atención de los usuarios, a pesar de que se trata de una relación ambivalente porque los primeros se sirven de estos lugares de encuentro digitales para llegar a los usuarios. Existen centenares de publicaciones científicas y divulgativas que han abordado esta realidad desde todo tipo de puntos de vista, tanto teóricos como prácticos, y un análisis por la evolución de este cambio de estudio evidencia que, tras la disrupción de principios de siglo, el sector se encuentra ya en una fase de consolidación que, lejos de ser estable, conlleva la aparición continua de nuevos hábitos de consumo. Existen pocas certezas en el mercado y una de ellas es, precisamente, el cambio.

realidades 2 guide online: A Latin American Guide to the International Court of Justice Case Law Paula Wojcikiewicz Almeida, Júlia Rodrigues Costa de Serpa Brandão, Ananda Menegotto Weingärtner, 2016-12-14 This book provides an up-to-date and comprehensive analysis of Latin American cases brought before the International Court of Justice, demonstrating state practices and litigation at the international level. It does so by providing summaries of all contentious cases submitted by or against Latin American states before the Court in order to illustrate case law, and is organized according to specific subjects to highlight the contribution of Latin American states to the peaceful settlement of disputes and to international law in general. Furthermore, the book is enhanced by informative tables and graphs detailing the participation of Latin American states and judges in cases presented before the International Court of Justice, and includes a general and specific bibliography devoted to all the cases evaluated. The chapters presented here fill existing gaps in the literature and will be of use to an international audience, including academic libraries, the judiciary (both national and international), practitioners of international law, government institutions, academics, and students alike. It will also be of interest to anyone investigating international dispute resolution, particularly Latin American academics and practitioners.

realidades 2 guide online: Leadership Landscapes Christopher Higgins, 2021-12-15 'Leadership Landscapes' provides an invaluable reference point for senior executives or those striving towards a successful cross-border career, to understand how cultural differences impact upon leadership styles and practices. Each semester, we publish a report on our quantitative survey-based global study, alongside our review of extant in-country leadership literature, preferably written by local scholars and professionals in their native language. Moreover, we attempt to empirically validate these findings by conducting expert interviews with native specialists. This new issue of our ongoing leadership series presents country-specific analyses of culturally endorsed leadership practices and styles in the following countries or territories: Channel Islands, Cuba, Ecuador, Egypt, Eritrea, Indonesia, Iran, Ireland, Nepal, Slovakia, Solomon Islands, Ukraine, Uruguay and Venezuela. This publication contains contributions from around 111 researchers from 26 countries who participated in the Cross-Cultural Business Skills elective offered by the Part-time Academy of the Faculty of Business and Economics at the Amsterdam University of Applied Sciences (HvA). realidades 2 guide online: Rethinking the Meaning of Place Lineu Castello, 2016-03-23 The spread of newly 'invented' places, such as theme parks, shopping malls and revamped historic

areas, necessitates a redefinition of the concept of 'place' from an architectural perspective. In this interdisciplinary work, these invented places are categorized according to the different phenomenological experiences they are able to provide. The book explores how such 'cloning spaces' use placemaking and placemarketing in attempt to replicate the characteristics found in urban spaces traditionally viewed as successful, and how these places can affect society's environmental perception. A range of international empirical studies illustrates how such invented places can be perceived as legitimate urban spaces, and contribute towards the quality of life in today's cities.

Digital storytelling offers opportunities for authentic academic and non-academic literacy learning across a multitude of genres. It is easily accessible to most members of society and has the potential to transform the boundaries of traditional education. As concepts around traditional literacy education evolve and become more culturally and linguistically relevant and responsive, the connections between digital storytelling and disciplinary literacy warrant considered exploration. *Connecting Disciplinary Literacy and Digital Storytelling in K-12 Education* develops a conceptual framework around pedagogical connections to digital storytelling within K-12 disciplinary literacy practices. This essential reference book supports student success through the integration of digital storytelling across content areas and grade levels. Covering topics that include immersive storytelling, multiliteracies, social justice, and pedagogical storytelling, it is intended for stakeholders interested in innovative K-12 disciplinary literacy skill development, research, and practices including but not limited to curriculum directors, education faculty, educational researchers, instructional facilitators, literacy professionals, teachers, pre-service teachers, professional development coordinators, teacher preparation programs, and students.

Galiano Garrigós, 2021-12-29 Containing papers presented at the 4th International Conference on Building Information Modelling (BIM) in Design, Construction and Operations, this volume brings together the research of experts from industry, practice and academia. It describes innovative solutions and predictions for future trends across key BIM-related topics. The modern construction industry and built environment disciplines have been transformed through the development of new and innovative BIM tools and techniques. These have fundamentally altered the manner in which construction teams operate; the processes through which designs are evolved; and the relationships between conceptual, detail, construction and life cycle stages. BIM is essentially value-creating collaboration throughout the entire life-cycle of an asset, underpinned by the data attached to them. BIM has far and reaching consequences on both building procurement and infrastructure. This recent emergence constitutes one of the most exciting developments in the field of the Built Environment. These advances have offered project teams multi-sensory collaborative tools and opportunities for new communication structures. The included papers cover such topics as: BIM in design coordination; BIM in construction operations; BIM in building operation and maintenance; BIM and sustainability; BIM and collaborative working and practices; BIM-Facilities management integration; BIM-GIS integration; BIM and automation in construction; BIM and health and safety; BIM standards; BIM and interoperability; BIM and life cycle project management; BIM and cultural heritage; BIM and robotics; BIM in risk analysis and management; BIM in building cost control; BIM and building representation; Virtual design and construction (VDC); BIM in the execution phase; BIM for infrastructure development; Digital twins.
