sister souljah books online: Reference Librarianship Peter Sprenkle, Charles R Anderson, 2013-04-03 A daily diary of actual interactions between a reference desk librarian and his patrons Reference Librarianship documents a year in the life of a young librarian working in the "trenches"

at a library in the Midwestern United States. This one-of-a-kind book provides a daily diary of every librarian/patron transaction—no matter how mundane or absurd—to demonstrate not only how advances in technology have affected the reference librarian's job, but how the public's expectations have changed, as well. The book also includes observations by a now-retired reference librarian on the current state of the field based on these unedited interactions. Over the past two decades, the job of reference librarian has seen many changes. But in many ways, reference desk work hasn't changed a bit, with its mix of odd, humorous, routine, and ridiculous requests that capture what it's like to deal with patrons day after day. Reference Librarianship paints a clear picture of the field for library school students, provides emotional and philosophical support to practitioners, and reminds library administrators of what life was like on the "front lines." A sampling of the daily transactions documented in *Reference Librarianship: Monday, May 19, 2003*: pencil pencil network down I tell people that I can't sign them up for an Internet terminal because the network is down and they just stand there, staring into space One of them asks for three days worth of newspapers microfiche machine explanation Sorry, Sir, the network is still down (multiply by twenty and insert randomly into the remainder of the day) magic tricks, but he pretty much knew where they were One of our large interior plate glass windows shattered. No one was hurt and it made a fascinating noise, like a crystal waterfall landing on soil. "Books on prostitution, you know—whores?" Someone from the County called to ask if any criminal activity had occurred on a particular street. Someone else referred her to us. She was dubious—with good reason. "Math puzzles." Okay. I show him the books. "Just math." Certainly. I show him the books. "I need them in Spanish." Grrr ... *Reference Librarianship* is an enlightening, educational, and entertaining look at the real world of reference desk work. It's an essential read for reference librarians (both public and academic), library administrators, and library school students, as well as anyone who works with the public.

sister souljah books online: #MeToo and Literary Studies Mary K. Holland, Heather Hewett, 2021-09-23 Literature has always recorded a history of patriarchy, sexual violence, and resistance. Academics have been using literature to expose and critique this violence and domination for half a century. But the continued potency of #MeToo after its 2017 explosion adds new urgency and wider awareness about these issues, while revealing new ways in which rape culture shapes our everyday lives. This intersectional guide helps readers, students, teachers, and scholars face and challenge our culture of sexual violence by confronting it through the study of literature. #MeToo and Literary Studies gathers essays on literature from Ovid to Carmen Maria Machado, by academics working across the United States and around the world, who offer clear ways of using our reading, teaching, and critical practices to address rape culture and sexual violence. It also examines the promise and limitations of the #MeToo movement itself, speaking to the productive use of social media as well as to the voices that the movement has so far muted. In uniting diverse voices to enable the #MeToo movement to reshape literary studies, this book is also committed to the idea that the way we read and write about literature can make real change in the world.

sister souljah books online: Teaching Tainted Lit Janet G. Casey, 2015-11-15 Popular American fiction has now secured a routine position in the higher education classroom despite its historic status as culturally suspect. This newfound respect and inclusion have almost certainly changed the pedagogical landscape, and *Teaching Tainted Lit* explores that altered terrain. If the academy has historically ignored, or even sneered at, the popular, then its new accommodation within the framework of college English is noteworthy: surely the popular introduces both pleasures and problems that did not exist when faculty exclusively taught literature from an established "high" canon. How, then, does the assumption that the popular matters affect teaching strategies, classroom climates, and both personal and institutional notions about what it means to study literature? The essays in this collection presume that the popular is here to stay and that its instructive implications are not merely noteworthy, but richly nuanced and deeply compelling. They address a broad variety of issues concerning canonicity, literature, genre, and the classroom, as its contributors teach everything from Stephen King and Lady Gaga to nineteenth-century dime novels and the 1852 best-seller *Uncle Tom's Cabin*. It is no secret that teaching popular texts fuels controversies about the value of cultural studies, the alleged relaxation of aesthetic standards, and the possible "dumbing down" of Americans. By implicitly and explicitly addressing such contentious issues, these essays invite a broader conversation about the place of the popular not only in higher education but in the reading lives of all Americans.

sister souljah books online: *Teaching Literature to Adolescents* Richard Beach, Deborah Appleman, Bob Fecho, Rob Simon, 2020-12-28 Now in its fourth edition, this popular textbook introduces prospective and practicing English teachers to current methods of teaching literature in middle and high school classrooms. It underscores the value of providing students with a range of different critical approaches and tools for interpreting texts. It also addresses the need to organize literature instruction around topics and issues of interest to today's adolescents. By using authentic dilemmas and contemporary issues, the authors encourage preservice English teachers and their instructors to raise and explore inquiry-based questions that center on the teaching of a variety of literary texts, both classic and contemporary, traditional and digital. New to the Fourth Edition: Expanded attention to digital tools, multimodal learning, and teaching online New examples of teaching contemporary texts Expanded discussion and illustration of formative assessment Revised response activities for incorporating young adult literature into the literature curriculum Real-world examples of student work to illustrate how students respond to the suggested strategies Extended focus on infusing multicultural and diverse literature in the classroom Each chapter is organized around specific questions that preservice teachers consistently raise as they prepare to become English language arts teachers. sister souljah books online: *Feel These Words* Susan Weinstein, 2009-06-04 *Feel These Words* is the story of nine young people from Chicago—Jig, Crazy, TeTe, Mekanism, Robbie, Marta, Patricia, Jose, and Dave—who regularly write poetry and/or song lyrics, but not for school. The Writers, as author Susan Weinstein calls them, are skilled in a variety of literacy-centered discourses through which they develop sophisticated understandings of core rhetorical issues and explore concepts of identity, social positioning, gender roles, and sexuality. Despite a deep engagement with imaginative composition, their work regularly goes unrecognized or is devalued due to the normative trends in standardized curricula and testing. Weinstein argues that this devaluation exists because their writing is informed by discourses that use language, forms, and styles different from—and at times at odds with—the mainstream. She explores the ways in which educators can focus not simply on what they believe kids need to be taught, but also on what makes them want to learn.

Cumming, 2012-05-04 This book presents results from a four-year project addressing the central question: What factors, challenges, and contexts contribute to and constrain literacy achievement among at-risk adolescent learners with culturally diverse backgrounds? Researchers consider the importance of several, interrelated factors that support the development of adolescents' literacies in multilingual contexts: support from educators, community groups, families, and peers; recognition of the multi-faceted complexity of literacy through multiple, complementary methods of research and assessment; approaches to pedagogy that engage learners' zones of proximal development in humanistic and purposeful ways; and promoting students' vocabulary knowledge, strategies for reading, writing, and learning, and orientations to engaging with epistemic purposes of literacy critically, through multiple media, and with self-confidence.

Featuring 60 artists, collaborations, and collectives, the exhibition is comprised of over 70 works across a variety of mediums, including painting, performance, photography, sculpture, video, web-based projects, and virtual reality. The exhibition is divided into five sections that explore themes such as emergent ideas of the body and notions of human enhancement; the internet as a site of both surveillance and resistance; the circulation and control of images and information; the possibilities for exploring identity and community afforded by virtual domains; and new economies of visibility accelerated by social media. Throughout, the work in the exhibition addresses the internet-age democratization of culture that comprises our current moment. The earliest work in the exhibition is from 1989, the year that Tim Berners-Lee invented the World Wide Web. This development, and others that followed in quick succession, modernized the internet, and in the process radically changed our way of life--from how we access and generate information, make friends and share experiences, to how we imagine our future bodies and how nations police national security. 1989 also marked a watershed moment across the globe, with significant shifts in politics, geographies, and economies. Events such as the fall of the Berlin Wall and protests in Tiananmen Square signaled the beginning of our current globalized age, which cannot be imagined without the internet.

Jackson, PhD, 2024-01-23 A reclamation of essential history and a hopeful gesture toward a better political future, this is what listening to Black women looks like—from a professor of political science and columnist for *Teen Vogue*. "Jenn M. Jackson is a beautiful writer and excellent scholar. In this book, they pay tribute to generations of Black women organizers and set forward a bold and courageous blueprint for our collective liberation."—Imani Perry, author of *South to America* FINALIST FOR THE PEN OPEN BOOK AWARD This is my offering. My love letter to them, and to us. Jenn M. Jackson, PhD, has been known to bring historical acuity to some of the most controversial topics in America today. Now, in their first book, Jackson applies their critical analysis to the questions that have long energized their work: Why has Black women's freedom fighting been so overlooked throughout history, and what has our society lost because of our refusal to engage with our forestrugglers' lessons? A love letter to those who have been minimized and forgotten, this collection repositions Black women's intellectual and political work at the center of today's liberation movements. Across eleven original essays that explore the legacy of Black women writers and leaders—from Harriet Jacobs and Ida B. Wells to the Combahee River Collective and Audre Lorde—Jackson sets the record straight about Black women's longtime movement organizing, theorizing, and coalition building in the name of racial, gender, and sexual justice in the United States and abroad. These essays show, in both critical and deeply personal terms, how Black women have been at the center of modern liberation movements despite the erasure and misrecognition of their efforts. Jackson illustrates how Black women have frequently done the work of liberation at great risk to their lives and livelihoods. For a new generation of movement organizers and co-strugglers, *Black Women Taught Us* serves as a reminder that Black women were the first ones to teach us how to fight racism, how to name that fight, and how to imagine a more just world for everyone.
