speaker for the dead pdf: Native Speakerism unter Lehrkräften Stefanie Magdalene Helbert, 2025 Der Unterricht von Deutsch als Zweitsprache (DaZ) in Schule und Erwachsenenbildung ist sowohl durch die sprachliche Heterogenität der Lernenden als auch den Umgang der Lehrkräfte damit geprägt. Während die sprachliche Vielfalt von Lernenden häufig im Fokus steht, wurde die der Lehrkräfte bislang wenig beachtet. Gleichzeitig hält sich die als Native Speakerism bekannte Annahme, dass Erstsprachler*innen die idealen Lehrkräfte im Sprachenunterricht seien. In dieser explorativen Studie wird untersucht, wie sich Native Speakerism bei DaZ-Lehrkräften äußert. Wie kategorisieren Lehrkräfte Erst- und Zweitsprachigkeit und welche Bedeutung messen sie ihr bei? Auf Basis von Fragebögen und Interviews werden Überzeugungen zu Merkmalen erst- und zweitsprachiger Lehrkräfte sowie Erfahrungen sprachbedingter Diskriminierung analysiert. Die Studie zeigt die Fluidität von Lehrkräfteüberzeugungen im Hinblick auf Native Speakerism und bietet wertvolle Impulse zur Reflexion der Lehrkräfteausbildung. Stefanie Magdalene Helbert studierte Interkulturelle Kommunikation und Bildung an der Universität zu Köln. Ihre Forschungsschwerpunkte sind Deutsch als Zweitsprache, interkulturelle Pädagogik und die Ausbildung von Lehrkräften. Seit 2021 ist sie Lektorin für Sprachen und Linguistik an der Universiti Malaya in Kuala Lumpur.

speaker for the dead pdf: The Ethos of History Stefan Helgesson, Jayne Svenungsson, 2018-06-19 At a time when rapidly evolving technologies, political turmoil, and the tensions inherent in multiculturalism and globalization are reshaping historical consciousness, what is the proper role for historians and their work? By way of an answer, the contributors to this volume offer up an illuminating collective meditation on the idea of ethos and its relevance for historical practice. These intellectually adventurous essays demonstrate how ethos—a term evoking a society’s “fundamental character” as well as an ethical appeal to knowledge and commitment—can serve as a conceptual lodestar for history today, not only as a narrative, but as a form of consciousness and an ethical-political orientation.

speaker for the dead pdf: Handbook of Descriptive Linguistic Fieldwork Shobhana L. Chelliah, Willem J. de Reuse, 2010-10-06 The Handbook of Descriptive Linguistic Fieldwork is the most comprehensive reference on linguistic fieldwork on the market bringing together all the reader needs to carry out successful linguistic fieldwork. Based on the experiences of two veteran linguistic fieldworkers and advice from more than a twenty active fieldwork researchers, this handbook provides an encyclopedic review of current publications on linguistic fieldwork and surveys past and present approaches and solutions to problems in the field, and the historical, political, and social variables correlating with fieldwork in different areas of the world. The discussion of the ethical dimensions of fieldwork, as well as what constitutes the “typical” linguistic fieldwork setting or consultant is explored from multiple perspectives relevant to fieldwork on every continent. Included is information omitted in most other texts on the subject such as the collection, representation, management, and methods of extracting grammatical information from discourse and conversational data as well as the relationship between questionnaire-based elicitation, text-based elicitation, and philology, and the need for combinations of these methods. The book is useful before, during and after linguistic field trips since it provides extensive practical macro and micro organization and planning fieldwork tips as well as a handy sketch of major typological features for use in linguistic analysis. Comprehensive references are provided at the end of each chapter as resources relevant to the reader's particular interests.

speaker for the dead pdf: Imprisoned by the Past Jeffrey L. Kirchmeier, 2015 In 1987, the United States Supreme Court decided a case that could have ended the death penalty in the United States. *Imprisoned by the Past: Warren McCleskey and the American Death Penalty* examines the long history of the American death penalty and its connection to the case of Warren McCleskey, revealing how that case marked a turning point for the history of the death penalty. In this book, Jeffrey L. Kirchmeier explores one of the most important Supreme Court cases in history, a case that raised important questions about race and punishment, and ultimately changed the way we understand the death penalty today. McCleskey's case resulted in one of the most important Supreme Court decisions in U.S. history, where the Court confronted evidence of racial discrimination in the administration of capital punishment. The case currently marks the last time that the Supreme Court had a realistic chance of completely striking down capital punishment. As such, the case also marked a turning point in the death penalty debate in the country. Going back nearly four centuries, this book connects McCleskey's life and crime to the issues that have haunted the American death penalty debate since the first executions by early settlers through the modern twenty-first century death penalty. *Imprisoned by the Past* ties together three unique American stories. First, the book considers the changing American death penalty across centuries where drastic changes have occurred in the last fifty years. Second, the book discusses the role that race played in that history. And third, the book tells the story of Warren McCleskey and how his life and legal case brought together the other two narratives.

speaker for the dead pdf: The Habitat of Australia's Aboriginal Languages Gerhard Leitner, Ian G. Malcolm, 2008-08-22 The languages of Aboriginal Australians have attracted a considerable amount of interest among scholars from such diverse fields as linguistics, political studies, archaeology or social history. As a result, there is a large number of studies on a variety of issues to do with Aboriginal Australian languages and the social contexts in which they are used. There is, however, no integrative reader that is easily accessible to the non-specialist in any of the areas concerned. The collection edited by Leitner and Malcolm fills this gap. Looking at Aborigines and Torres Strait Islanders and their changing habitats from pre-colonial times to the present, the book covers languages from a structural and functional linguistic perspective, moves on to the issue of cultural maintenance and then turns to language policy, planning and the educational and legal dimensions. Among the many themes discussed are: the social and linguistic history of language contact after 1788 (including the Macassans); the demographic base of indigenous languages; traditional indigenous languages; results of language contact such as the modification of traditional languages and the rise of contact languages (pidgins, creoles, esp. Kriol, Torres Strait Creole, and Aboriginal English); the impact of the Aboriginal languages on mainstream Australian English; maintenance, shift, revival and documentation of indigenous and contact languages; language planning; language in education; language in the media; language in the law courts. The contributors are leading experts in their fields. The book can serve as a reader for university courses but also as a state-of-the-art work and resource for specialists like applied linguists or educational planners.

speaker for the dead pdf: Glocalising Teaching English as an International Language Marcus Callies, Stefanie Hehner, Philipp Meer, Michael Westphal, 2021-12-19 The worldwide spread, diversification, and globalization of the English language in the course of the twentieth and early twenty-first centuries has significant implications for English Language Teaching and teacher education. We are currently witnessing a paradigm shift towards Teaching English as an International Language (TEIL) that aims to promote multilingualism and awareness of the diversity of Englishes, increase exposure to this diversity, embrace multiculturalism, and foster cross-cultural awareness. Numerous initiatives that embrace TEIL can be observed around the world, but ELT and teacher education in Germany (and other European countries) appear to be largely unaffected by this development, with standard British and American English and the monolingual native speaker (including the corresponding cultural norms) still being very much at the center of attention. The present volume addresses this gap and is the first of its kind to showcase recent initiatives that aim at introducing TEIL into ELT and teacher education in Germany, but which have applicability and impact for other countries with comparable education systems and 'traditional' ELT practices in the Expanding Circle. The chapters in this book provide a balanced mix of conceptual, empirical, and practical studies and offer the perspectives of the many stakeholders involved in various settings of English language education whose voices have not often been heard, i.e., students, university lecturers, trainee teachers, teacher educators, and in-service teachers. It therefore adds significantly to the limited amount of previous work on TEIL in Germany and bridges the gap between theory and practice that will not only be relevant for researchers, educators, and practitioners in English language education in Germany but other educational settings that are still unaffected by the shift towards TEIL.

speaker for the dead pdf: New Speakers of Irish in the Global Context Bernadette O'Rourke, John Walsh, 2020-03-03 This volume is the first full-length publication to systematically unpack and analyze the linguistic practices and ideologies of new speakers specifically in an Irish language context. The book introduces the theoretical foundations of the new speaker framework as it manifests itself in the Irish setting, describes its historical precedents, and traces its evolution to today. The book then draws upon a rich set of data and research methods, including participant observation and ethnographic fieldwork to examine the new speaker phenomenon in Irish in greater detail. Areas of analysis include new speakers' language practices and usage and the ways in which they position their linguistic identities both within their respective communities and in juxtaposition with native speakers. While the book's focus is on Irish, the volume will contribute to a greater understanding of new speaker practices and ideologies in minority language contexts more generally, making this key reading for students and scholars in sociolinguistics, applied linguistics, language policy and planning, anthropology, and Irish studies.

speaker for the dead pdf: An Introduction to Multilingualism Florian Coulmas, 2017-12-21

This book offers an introduction to the many facets of multilingualism in a changing world. It begins with an overview of the multiplicity of human languages and their geographic distribution, before moving on to the key question of what multilingualism actually is and what is understood by terms such as 'mother tongue', 'native speaker', and 'speech community'. In the chapters that follow, Florian Coulmas systematically explores multilingualism with respect to the individual, institutions, cities, nations, and cyberspace. In each of these domains, the dynamics of language choice are undergoing changes as a result of economic, political, and cultural forces. Against this background, two chapters discuss the effects of linguistic diversity on the integration and separation of language and society, before a final chapter describes and assesses research methods for investigating multilingualism. Each chapter concludes with problems and questions for discussion, which place the topic in a real-world context. The book explores where, when, and why multilingualism came to be regarded as a problem, and why it presents a serious challenge for linguistic theory today. It provides the basic tools to analyse different kinds of multilingualism at both the individual and society level, and will be of interest to students of linguistics, sociology, education, and communication studies.
