SAMPLE EXCERPT: "What was the inspiration behind the creation of this book?" Although many people have expressed how much Bared to You resembles Fifty Shades of Grey, Day said in interviews that her real inspiration for writing this book is her own novel, *Seven Years to Sin*. It is a historical novel also dealing with a couple recovering from difficult, abusive pasts. In *Seven Years to Sin*, the main characters were brought together by their histories. But Day wondered how it would be like if the

past of two people very attracted to each other push them apart. What if their trauma inhibits them from connecting with the person they are in love with? Can an abuse survivor be able to have a functional and healthy romantic relationship with another abuse survivor? Day wanted to explore that. This premise, the desire to answer these questions at least in the context of a story, resulted in the plotline that will encompass the three books in the Crossfire series. - - - - Don't miss out! It's highly recommended. if you're a real literature junkie or a diehard fan of the novel (I am both) it's really a must read. seven years to sin book: *A Forgotten Message* Frederick Guttman, Here I talk a little about why we are here? What is death? What is the meaning of our life? And what does God want from us? Once I deal with existential doubts, I remember the principles of the knowledge of God and the rudiments of the doctrine of Christ and the apostles, that is, God's plan regarding Salvation. At this point I talk about the news of the Kingdom of God, the Born Again, Baptism as an expression of repentance for the forgiveness of sins and as an official commitment to Jesus. This includes the role of John the Baptist and Elijah, as well as the encompassing of what the concept of Salvation represents. Finally, I deal with the problem of the human ego, the lack of love, the disobedience and innate rebellion, and the place that the Holy Spirit takes in one, topics without which one cannot advance in the ways of the Lord.

seven years to sin book: The Gospel of Love and Peace Jörg Berchem, 2016-09-09 These teachings are unique, because they do not refer to a specific culture, they refer to man and his relationship to his co-beings and his relation to God. They do not demand a specific moral life according to exact rules how to live. They just express a spiritual ethics. The Gospel of Peace, unlike other documents or interpretations of biblical texts, explains the expression "Heavenly Father" in a very deep meaning, also because of the fact that it describes "the Earthly Mother" as well. It does not mean that it proclaims a female God next to a male God. We are still dealing with a monotheistic religion. But in its divine dualism it does not exclude female character in God, nor the female and maternal principle of nature. Therefore it reconnects Christianity with obvious and deeply experienced world views that can be found as universal in all cultures and religions except the three Thora-based Jewish, Christian and Muslim religions. Let us just assume for a moment a Christianity that is not denying but also worshipping the maternal aspects, not only in some sick romanticisation of virginity and unearthly "purity", but in its obvious richness, abundance and fertility. A Christianity that regards Earth just as important and divine as it regards Heaven. A Christianity describing the body as a temple for the soul. A Christianity that communicates with Heaven and Earth ... — Well, here it is! For the first time all translations of the Essene scripts in one volume, revised, newly arranged and edited by Dr. Jörg Berchem. With many illustrations by Caspar David Friedrich, Rembrandt, Leonardo da Vinci and Gustav Doré. seven years to sin book: *Spiritual Calculations* Christine Cooper-Rompato, 2021-12-13 Medieval English sermons teem with examples of quantitative reasoning, ranging from the arithmetical to the numerological, and regularly engage with numerical concepts. Examining sermons written in Middle English and Latin, this book reveals that popular English-speaking audiences were encouraged to engage in a wide range of numerate operations in their daily religious practices. Medieval sermonists promoted numeracy as a way for audiences to appreciate divine

truth. Their sermons educated audiences in a hybrid form of numerate practice—one that relied on individuals' pragmatic quantitative reasoning, which, when combined with spiritual interpretations of numbers provided by the preacher, created a deep and rich sense in which number was the best way to approach the sacred mysteries of the world as well as to learn how one could best live as a Christian. Analyzing both published and previously unpublished sermons and sermon cycles, Christine Cooper-Rompato explores the use of numbers, arithmetic, and other mathematical operations to better understand how medieval laypeople used math as a means to connect with God. *Spiritual Calculations* enhances our understanding of medieval sermons and sheds new light on how receptive audiences were to this sophisticated rhetorical form. It will be welcomed by scholars of Middle English literature, medieval sermon studies, religious experience, and the history of mathematics.

seven years to sin book: Three Books of Occult Philosophy Heinrich Cornelius Agrippa von Nettesheim, 1993 The Three Books of Occult Philosophy's vast store of magical lore has been so influential that occultists have been drawing upon it for the past five centuries. This classic work was first published in 1531, and translated into English in 1651, but it has never since been reprinted in its entirety. Now--for the first time in 500 years--editor Donald Tyson presents these writings as Agrippa intended them to appear: wholly complete and free from the hundreds of errors made in the original translation. The Three Books of Occult Philosophy is the most complete repository of pagan and Neo-platonic magic ever compiled. This book is packed with material you will not find elsewhere, including copious extracts on magic from obscure or lost works by Pythagoras, Pliny the Elder, Cicero, Ptolemy, Plato, Aristotle, and many other authorities. Donald Tyson's detailed annotations clarify difficult references and provide origins of quotations, even expanding upon them in many cases in order to make Agrippa's work more accessible to the modern reader. As well as providing extensive insight into the foundations of the Western Esoteric tradition, the Three Books of Occult Philosophy is the ultimate 'how-to' for magical workings. It describes how to work all manner of divinations and natural and ceremonial magic in such clear and useful detail that it is still the guide for modern techniques. And the extensive supplementary material--including biographical and geographical dictionaries and appendices--provides quick reference to many previously obscure matters in classical magic. The Three Books of Occult Philosophy is an essential reference tool for all students of the history of ideas and the occult tradition.--back cover.

To which we have annexed a great variety of notes, wherein we have impartially

examined the probability of the existence of Magic, both of the good and bad species, in the earliest, as well as in the latter, ages of the world. We have exhibited a vast number of rare experiments in the course of this Treatise, many of which, delivered in the beginning, are founded upon the simple application of actives to passives; the others are of a higher speculation.

seven years to sin book: The Eleventh and Twelfth Books of Giovanni Villani's "New Chronicle" Rala I. Diakité, Matthew T. Sneider, 2022-02-07 Giovanni Villani's *New Chronicle* traces the history of Europe, Italy, and Florence over a vast sweep of time - from the Tower of Babel to the great earthquake of 1348. In the eleventh and twelfth books, Villani depicts a particularly eventful period in the history of Florence, whose grandeur is illustrated in several famous chapters describing the city's income, expenses, and magnificence. The dramatic account follows Florence's internal affairs as well as its conflicts with powerful lords like Castruccio Castracani and Mastino della Scala. The chronicler's perspective, however, ranges beyond his city, as he documents such events as the imperial coronation of Louis of Bavaria, the penitential pilgrimage of Venturino da Bergamo, and the first campaigns of the Hundred Year's War.

seven years to sin book: *The Magus* Francis Barrett, It has been a subject of ancient dispute whether or not the stars, as second causes, do so rule and influence man as to ingraft in his nature certain passions, virtues, propensities, &c., and this to take root in him at the very critical moment of his being born into this vale of misery and wretchedness; likewise, if their site and configuration at this time do shew forth his future passions and pursuits; and by their revolutions, transits, and directed aspects, they point out the particular accidents of the body, marriage, sickness, preferments, and such like; the which I have often revolved in my mind for many years past, having been at all times in all places a warm advocate for stellary divination or astrology: therefore in this place it is highly necessary that we examine how far this influence extends to man, seeing that I fully admit that man is endowed with a free-will from God, which the stars can in no wise counteract. And as there is in man the power and apprehension of all divination, and wonderful things, seeing that we have a complete system in ourselves, therefore are we called the microcosm, or little world; for we carry a heaven in ourselves from our beginning, for God hath sealed in us the image of himself; and of all created beings we are the epitome, therefore we must be careful, lest we confound and mix one thing with another. Nevertheless, man, as a pattern of the great world, sympathizes with it according to the stars, which, agreeably to the Holy Scriptures, are set for times and seasons, and not as causes of this or that evil, which may pervade kingdoms or private families, although they do in some measure foreshew them, yet they are in no wise the cause; therefore I conceive in a wide different sense to what is generally understood that Stars rule men, but awise manrules the stars: to which I answer, that the stars do not rule men, according to the vulgar and received opinion; as if the stars should stir up men to murders, seditions, broils, lusts, fornications, adulteries, drunkenness, &c., which the common astrologers hold forth as sound and true doctrine; because, they say, Mars and Saturn, being conjunct, do this and much more, and many other configurations and afflictions of the two great infortunes (as they are termed), when the benevolent planets Jupiter, Venus, and Sol, happen to be detrimented or afflicted; therefore, then, they say men influenced by them are most surely excited to the commission of the vices before named; yet a wise man may, by the liberty of his own free-will, make those affections and inclinations void, and this they call To rule the stars; but let them know, according to the sense here understood, first, it is not in a wise man to resist evil inclinations, but of the grace of God, and we call none wise but such as are endued with grace; for, as we have said before, all natural wisdom from the hands of man is foolishness in the sight of God; which was not before understood to be a wise man fenced with grace; for why should he rule the stars, who has not any occasion to fear conquered inclinations?--therefore a natural wise man is as subject to the slavery of sin as others more ignorant than himself, yet the stars do not incline him to sin. God created the heavens without spot, and pronounced them good, therefore it is the greatest absurdity to suppose the stars, by a continual inclining of us to this or that misdeed,

should be our tempters, which we eventually make them, if we admit they cause inclinations; but know that it is not from without, but within, by sin, that evil inclinations do arise: according to the Scriptures, Out of the heart of man proceed evil cogitations, murmurs, adulteries, thefts, murders, &c. Because, as the heavens and apprehension of all celestial virtues are scaled by God in the soul and spirit of man; so when man becomes depraved by sin and the indulgence of his gross and carnal appetite, he then becomes the scat of the Infernal Powers, which may be justly deemed a hell; for then the bodily and fleshly sense obscures the bright purity and thinness of the spirit, and he becomes the instrument of our spiritual enemy in the exercise of all infernal lusts and passions. Therefore it is most necessary for us to know that we are to beware of granting or believing any effects from the influences of the stars more than they have naturally; because there are many whom I have lately conversed with, and great men, too, in this nation, who readily affirm that the stars are the causes of any kinds of diseases, inclinations, and fortunes; likewise that they blame the stars for all their misconduct and misfortunes.
