shemar moore movies: Tyler Perry Janice D. Hamlet, 2019-09-25 A career-spanning volume, Tyler Perry: Interviews collects sixteen interviews, ranging from the early 2000s to 2018. Once a destitute and struggling playwright, Tyler Perry (b. 1969) is now a multimedia phenomenon and one of the most lucrative auteurs in Hollywood. Known for his unwavering and audacious rhetorical style, Perry has produced an impressive body of work by rejecting Hollywood's procedures and following his personal template. Featuring mostly African American actors and centering primarily on women, Perry's films lace drama and comedy with Christianity. Despite the skepticism of Hollywood executives who claimed that church-going black people do not go to the movies, Perry achieved critical success with the release of his first film, Diary of a Mad Black Woman, which became the US's highest-grossing movie of 2005. With his movies, Perry has discovered an untapped audience for the stories he has to offer—stories about adversity, faith, family, and redemption. Critics, including African American filmmaker Spike Lee, have censured Perry's work for being repetitive and reinforcing negative stereotypes that have long plagued the African American community. Supporters, however, praise Perry for creating films that allow his audience to see themselves onscreen. Regardless of how his films are received, Perry's accomplishments—establishing the Tyler Perry brand, building one of the largest movie studios in the country, employing more African Americans in front of and behind the camera than any other studio, and creating cinematic content for audiences other filmmakers have ignored—undeniably establish him as one of the most powerful multimedia moguls in the country.

shemar moore movies: A Critical History of Soul Train on Television Christopher P. Lehman, 2014-11-26 As a wildly popular local dance show, Soul Train provided a venue for Chicago's soul singers and political activists and gave African American teenagers their first significant chance to see and identify with their peers on television. The subsequent national series garnered even more popularity, establishing producer and host Don Cornelius as one of the most successful pioneers of African American television production. This work discusses Cornelius's role in the evolution of his groundbreaking series from a small, all-black 1970s television show to a lucrative brand name applying not only to the program, but also to awards and various merchandise in the present day. The first two chapters focus on Cornelius's years in Chicago and the initial launching of Soul Train in 1970. The next two chapters explore how the nationally televised, California-based version of the show rose steadily in both popularity and cultural influence among primarily African American viewers, and how Cornelius himself became a rising celebrity during that time. The final chapters illustrate Cornelius's efforts in branching out beyond the dance show through various music-related business ventures, including the Soul Train Music Awards. The work includes interviews with several former cast members and guests, along with a complete chronology of the series and Cornelius's other professional ventures.
