

sowell redneck culture critique

sowell redneck culture critique represents a nuanced examination of the cultural, social, and economic factors that Thomas Sowell addresses in his discussions of "redneck" identity and values. This critique explores how Sowell's analysis intersects with broader themes of American culture, class dynamics, and racial discourse. By delving into Sowell's perspectives, the article unpacks the complexities surrounding stereotypes, cultural pride, and socioeconomic challenges often associated with redneck communities. The discussion highlights Sowell's emphasis on individual responsibility, cultural self-perception, and the implications for policy and social understanding. Readers will gain insight into how Sowell's critique fits within larger debates on culture and identity in the United States. The article also contextualizes Sowell's arguments within contemporary cultural studies and sociopolitical commentary, providing a comprehensive overview of this important topic.

- Reception and Criticism of Sowell's Views

Understanding Thomas Sowell's Perspective on Redneck

Culture

Thomas Sowell, a renowned economist and social theorist, offers a distinctive viewpoint on redneck culture that diverges from mainstream narratives. His analysis often centers on the values, behaviors, and historical context of rural white working-class communities in America. Sowell emphasizes the importance of self-reliance, family cohesion, and cultural traditions that have shaped these groups over generations. In his works, Sowell argues that redneck culture embodies a complex blend of pride and resilience, often misunderstood or dismissed in popular discourse.

Contrary to simplistic portrayals, Sowell's perspective acknowledges both the strengths and challenges inherent in redneck culture. He situates these communities within a broader framework of socioeconomic change, exploring how shifts in the economy and social policy affect cultural identity. This approach allows for a more nuanced understanding of redneck culture beyond stereotypes, emphasizing the role of cultural values in shaping individual and collective outcomes.

Historical Context and Cultural Evolution

Sowell traces the roots of redneck culture to historical patterns of settlement, labor, and social organization in rural America. He highlights how these communities developed distinct customs, dialects, and social norms as adaptations to geographic and economic conditions. The cultural evolution of redneck identity reflects resilience amid adversity and a strong emphasis on community ties.

- Origins in rural Southern and Appalachian regions
- Influence of agrarian lifestyles and manual labor
- Impact of economic transitions on cultural preservation

Cultural Identity and Socioeconomic Factors

In the Sowell redneck culture critique, socioeconomic factors play a crucial role in understanding cultural identity. Sowell highlights that economic hardships, educational disparities, and limited opportunities significantly influence the social dynamics within redneck communities. These factors contribute to the persistence of certain cultural traits and values, including skepticism toward government intervention and a preference for localism.

The intersection of culture and economics also reveals how redneck identity serves as both a source of pride and a mechanism for social cohesion. Sowell's analysis points to the importance of acknowledging these underlying socioeconomic realities when discussing cultural behaviors and attitudes.

Economic Challenges and Cultural Resilience

Rural economies often face structural challenges such as declining industries, limited access to higher education, and fewer job prospects. Sowell argues that redneck culture's emphasis on hard work and self-sufficiency emerges as a response to these conditions. This cultural resilience helps sustain community bonds and fosters a sense of identity despite economic adversity.

Education and Social Mobility

Education is a pivotal factor in the critique, as Sowell discusses the impact of educational attainment on social mobility within redneck communities. He notes that cultural attitudes toward education can vary, sometimes reflecting skepticism of formal schooling but also a desire for practical skills. These attitudes influence economic outcomes and the potential for upward mobility.

Sowell's Critique of Stereotypes and Misconceptions

A significant element of the Sowell redneck culture critique is the challenge to pervasive stereotypes

and misconceptions. Sowell contends that redneck culture is often caricatured in media and popular culture, reducing a complex social group to simplistic and derogatory tropes. His critique emphasizes the need to understand the cultural values and historical context that inform behaviors and attitudes. By confronting these stereotypes, Sowell advocates for a more respectful and accurate representation of redneck communities. This includes recognizing their contributions to American culture and the legitimacy of their social norms.

Common Stereotypes Addressed

Sowell identifies several stereotypes that distort public perception of redneck culture:

- Portrayal as uneducated or backward
- Association with racism or intolerance
- Depiction as politically reactionary or anti-intellectual
- Assumptions of cultural homogeneity

He argues that these stereotypes ignore the diversity and complexity within redneck communities and overlook the economic and historical factors that shape their experiences.

Implications for Social Policy and Cultural Discourse

The Sowell redneck culture critique extends to implications for social policy and cultural discourse. Sowell's analysis suggests that policies aimed at addressing socioeconomic disparities must consider cultural values and community dynamics. Ignoring these aspects can lead to ineffective or counterproductive outcomes.

Additionally, Sowell's critique encourages a reevaluation of cultural discourse in America, advocating

for inclusivity and nuance. This perspective fosters greater understanding and reduces cultural polarization.

Policy Considerations

Effective social policies should:

- Respect cultural traditions while promoting opportunity
- Address educational and economic barriers realistically
- Encourage community-based solutions and local empowerment
- Avoid stigmatization or cultural imposition

Enhancing Cultural Dialogue

In cultural discourse, Sowell's critique calls for:

- Recognition of cultural diversity within working-class communities
- Reduction of stereotypes and prejudicial narratives
- Promotion of mutual respect across cultural divides
- Inclusion of redneck voices in national conversations

Reception and Criticism of Sowell's Views

The Sowell redneck culture critique has sparked varied responses from scholars, commentators, and community members. While many appreciate Sowell's challenge to stereotypes and his focus on cultural values, others criticize his emphasis on individual responsibility and cultural explanations for socioeconomic disparities.

Critics argue that Sowell sometimes underestimates structural inequalities and systemic barriers facing redneck and other working-class communities. Nonetheless, his work remains influential in shaping debates on culture, class, and identity in America.

Supportive Perspectives

Supporters highlight:

- Sowell's rigorous economic and cultural analysis
- His critique of victimhood narratives
- Emphasis on cultural pride and resilience
- Promotion of self-reliance and personal responsibility

Critical Perspectives

Critics point out:

- Possible minimization of systemic discrimination
- The risk of blaming culture for economic problems

- Limited engagement with broader social justice concerns
- Potential oversimplification of complex social dynamics

Frequently Asked Questions

Who is Thomas Sowell and what is his critique of redneck culture?

Thomas Sowell is an American economist and social theorist known for his conservative views. His critique of redneck culture often centers on the idea that certain cultural attitudes and behaviors can hinder economic and social progress.

How does Thomas Sowell link redneck culture to economic outcomes?

Sowell argues that aspects of redneck culture, such as resistance to education and certain social norms, may contribute to economic disadvantages and limited upward mobility within those communities.

What are some common themes in Sowell's analysis of redneck culture?

Common themes include the impact of cultural values on individual behavior, the role of personal responsibility, and how cultural patterns influence economic success or failure.

Has Thomas Sowell's critique of redneck culture been controversial?

Yes, Sowell's critiques have sparked debate, with some viewing them as insightful cultural analysis, while others see them as overly critical or dismissive of certain communities.

Where can I find Thomas Sowell's writings on redneck culture critique?

Sowell discusses themes related to culture and economics in several of his books and essays, such as "Black Rednecks and White Liberals," where he explores cultural factors affecting different groups in America.

Additional Resources

1. *Race and Culture: A Critique of Redneck Stereotypes*

This book explores the cultural dynamics behind the stereotype of "redneck" identity in America. It analyzes how economic, social, and racial factors contribute to the formation of cultural narratives. The author critiques oversimplified portrayals and offers a nuanced perspective on class, race, and regional identity.

2. *Economic Realities and Redneck Identity: A Sowell Perspective*

Drawing inspiration from Thomas Sowell's economic theories, this book examines the socioeconomic conditions that shape redneck culture. It highlights how economic opportunities and constraints influence values, behaviors, and social mobility in rural communities. The book challenges common misconceptions by blending economic analysis with cultural critique.

3. *The Social Fabric of Southern Redneck Communities*

This volume delves into the intricate social structures within Southern redneck communities, focusing on family, tradition, and community ties. It critiques mainstream media's often derogatory portrayal and emphasizes the resilience and adaptive strategies of these groups. The work also considers the impact of education and economic change on cultural identity.

4. *Thomas Sowell and the Myth of Cultural Deficiency*

This book presents a critical analysis of Thomas Sowell's arguments against the notion that certain cultures, including redneck culture, are inherently deficient. It discusses Sowell's emphasis on external

factors like policy and economic environment over cultural blame. The author provides a balanced discussion on culture, agency, and systemic barriers.

5. *Redneck Culture in the American Imagination*

Focusing on media and literature, this book critiques how redneck culture has been portrayed and often caricatured in popular culture. It investigates the origins of these images and their social implications. The author argues for a more respectful and accurate representation that acknowledges diversity within the culture.

6. *Class, Race, and Rednecks: A Critical Examination*

This work investigates the intersections of class and race within the redneck identity framework. It critiques racialized stereotypes and explores how class distinctions complicate the societal understanding of redneck communities. The book draws on Sowell's insights to discuss economic inequality and cultural resilience.

7. *Redneck Resilience: Cultural Critique and Economic Adaptation*

Highlighting stories of economic adaptation and cultural endurance, this book challenges negative stereotypes of redneck communities. It discusses how these groups navigate economic hardships and social change while maintaining cultural pride. The critique is grounded in sociological and economic perspectives.

8. *The Politics of Redneck Identity: A Sowell-Inspired Analysis*

This book examines the political implications of redneck identity through the lens of Thomas Sowell's writings. It analyzes how political narratives shape and are shaped by cultural identities, especially in rural America. The author critiques both left and right political discourses for oversimplifying these communities.

9. *Beyond Stereotypes: Understanding Redneck Culture Through Sowell's Lens*

Offering a comprehensive critique, this book uses Sowell's approach to challenge prevailing stereotypes about redneck culture. It emphasizes empirical evidence and economic context to provide a more accurate understanding. The author advocates for policy and social discourse that respects

cultural complexity and individual agency.

sowell redneck culture critique: *Summary: Black Rednecks and White Liberals* BusinessNews Publishing,, 2017-01-30 The must-read summary of Thomas Sowell's book: Black Rednecks and White Liberals. This complete summary of Black Rednecks and White Liberals by Thomas Sowell, a renowned American social theorist and political philosopher, presents his examination of the mistaken assumptions and beliefs about blacks, Jews, Germans, slavery and education. He illustrates the origin of these wrongful assumptions and how they have progressed. Added-value of this summary: • Save time • Understand racial discrimination and the institution • Expand your knowledge of American politics and racial issues To learn more, read Black Rednecks and White Liberals and discover where misconceptions of certain groups originated from and why.

sowell redneck culture critique: *The Journal of African American History* , 2006

sowell redneck culture critique: *Sucker Punch* Jack Cashill, 2006-01-29 Everything that he has done was against this country. Joe Frazier on Muhammad Ali Part man, part myth, and all American, Muhammad Ali is history's most beloved, most revered athlete. But though he was The Greatest inside the ring, outside he was a hulking mass of contradictions. This book is the first comprehensive, pull-no-punches account of America's least likely icon. Jack Cashill explores the changing mores and racial dynamics of the sixties alongside Ali's epic battles in the ring. What Ali did, great or otherwise, was to channel the spirit of his age. . . . He captured the ethos of that decade all too well. It wasn't pretty. I was there, and I know what I saw. Cashill reveals how Elijah Muhammad seduced Ali--and how that seduction spelled the betrayal of Dr. King's dream, the death of Malcolm X, the humiliation of Joe Frazier, the rise of Don King, and the tragic undoing of Mike Tyson--and proves that: Ali was an unapologetic sexist and unabashed racist, calling for the lynching of interracial couples and an American apartheid as late as 1975. Ali routinely denigrated black heroes who did not share his point of view, including Joe Louis, Jackie Robinson, Thurgood Marshall, and especially Joe Frazier. Ali shamelessly courted some of the most brutal dictators on the planet: Qadaffi, Idi Amin, Papa Doc Duvalier, Nkrumah, Mobutu, and Ferdinand Marcos. With unusual sympathy and unflinching insight, Cashill assesses Ali's boxing conquests and political influence. He shows how the very figure who could have brought America's diverse people together when it mattered, instead tore them apart. Jack Cashill has written and directed *The Holocaust through Our Own Eyes*, *The Soul of the West* and the Emmy-Award winning *The Royal Years* among other documentaries for regional PBS and national cable channels. Cashill has a Ph.D. in American studies from Purdue and has been published in the *Wall Street Journal*, *Washington Post*, *Fortune*, *Weekly Standard*, *WorldNetDaily*, and *Ingram's*, where he serves as executive editor. He is also the author of *First Strike*, *Ron Brown's Body*, and *Hoodwinked: How Intellectual Hucksters Have Hijacked American Culture*.

sowell redneck culture critique: **Kevin Macdonald's Metaphysical Failure: a Philosophical, Historical, and Moral Critique of Evolutionary Psychology, Sociobiology, and**

Identity Politics Jonas E. Alexis, 2022-04-25 In Kevin MacDonald's *Metaphysical Failure*, Jonas E. Alexis offers a thoroughly researched, nuanced and lucid analysis of Kevin MacDonald's thought, in particular MacDonald's belief in biological and philosophical Darwinism. It is an important book that fills a critical gap in the literature on the history of revolutionary movements and Darwinism both in the West and in Asia. It is also a study that adds many significant strands to the densely interwoven history of ideas such as Malthusianism and Eugenics. Alexis's book engages debates in the history of ideas—going back to Madison Grant and beyond—and the history of Darwinism. It challenges many of the life-long prevailing assumptions about identity politics and produces a powerful critique of how “scientific” theories have been misused to uphold misguided and faulty categorizations. Powerfully reasoned, and backed with a startling array of documented studies, Kevin MacDonald's *Metaphysical Failure* presents an in-depth look at key beliefs behind many mistaken and consequently destructive actions taken by numerous writers and thinkers, particularly Darwin's ardent enthusiasts and devoted disciples. The book presents eye-opening insights into the historical development of Darwin's ideological project and how that project ended up crippling Darwin's intellectual children—from Richard Dawkins, Francis Crick, James Watson, Daniel Dennett, Ernst Mayr, and E. O. Wilson to Kevin MacDonald, Richard Spencer, David Duke, and Jared Taylor.

sowell redneck culture critique: *In Church as It Is in Heaven* Jamaal E. Williams, Timothy Paul Jones, 2023-06-13 Heaven is multiethnic, a vast multitude from every nation, tribe, people, and language. But in this diverse community shouldn't have to wait until eternity to begin! It can be a reality now. Here, the authors give biblical warrant for such a community and show how multiethnic churches provide a unique apologetic for the gospel.

sowell redneck culture critique: *Christian Scholar's Review* , 2007

sowell redneck culture critique: *Cosmic Cowboys and New Hicks* Travis D. Stimeling Ph.D., 2011-05-20 For a generation disillusioned with modernity and the conservatism of post-war suburbia, the unique blend of rock and country music that emerged from Austin, Texas in the early 1970s embodied both a longing for change and a newfound pride in living an unconventional way of life. With extensive archival research and exclusive interviews with key scene figures, *Cosmic Cowboys and New Hicks: The Countercultural Sounds of Austin's Progressive Country Music Scene* explores the connection between a unique community on America's cultural borderlands and the innovative music that helped to shape it.

sowell redneck culture critique: *Homo Redneckus* William Matthew McCarter, 2012 Discussing questions of race and class in America, we often skip those who are white but are treated as a different kind of other. A professor of English and literature, Dr. William Matthew McCarter explores the realities of being Not Qwhite in America from a historical and literary perspective. He interweaves colloquial storytelling with advanced critical strategies in a unique and entertaining fashion. This in-depth analysis is perfect for scholars and laypersons interested in the questions of race and class in the American experience. Starting with his own experience of prejudice and discrimination, and tracing that experience through his own family history, the author provides a framework for others who want to understand the experience of being othered. The breadth of knowledge he relies on reflects his education in cultural studies, literature, and theory. This book is perfect as a text in college courses, supplementary reading for scholars, or people wanting to dip their toes into a topic that has thus far not gotten much attention. Dr. McCarter welcomes readers to learn more about the cultural studies perspective on race and see how it can be applied to examining their own experiences

sowell redneck culture critique: *Dark Ghettos* Tommie Shelby, 2016-11-01 For Tommie Shelby, the persistence of ghettos raises many thorny questions of morality, and he offers practical answers framed in terms of what justice requires of government and its citizens. His social vision and political ethics calls for putting the abolition of ghettos at the center of reform.

sowell redneck culture critique: *The Cultural Matrix* Orlando Patterson, Ethan Fosse, 2015-02-09 *The Cultural Matrix* seeks to unravel an American paradox: the socioeconomic crisis and social isolation of disadvantaged black youth, on the one hand, and their extraordinary integration

and prominence in popular culture on the other. This interdisciplinary work explains how a complex matrix of cultures influences black youth.

sowell redneck culture critique: In the Name of Education Jonas E. Alexis, 2007 Alexis convincingly examines the crisis in education from a Christian perspective. (Social Issues)

sowell redneck culture critique: All-American Redneck Matthew J. Ferrence, 2014-03-30 Examining the icon's foundations in James Fenimore Cooper's Natty Bumppo--'an ideal white man, free of the boundaries of civilization'--and the degraded rural poor of Erskine Caldwell's Tobacco Road, Matthew Ferrence shows how Redneck stereotypes were further extended in Deliverance, both the novel and the film, and in a popular cycle of movies starring Burt Reynolds in the 1970s and '80s, among other manifestations. As a contemporary cultural figure, the author argues, the Redneck represents no one in particular but offers a model of behavior and ideals for many. Most important, it has become a tool--reductive, confining, and (sometimes, almost) liberating--by which elite forces gather and maintain social and economic power. Those defying its boundaries, as the Dixie Chicks did when they criticized President Bush and the Iraq invasion, have done so at their own peril.

sowell redneck culture critique: Manifestations of Collective Identity in Country Music - Cultural, Regional, National Stephanie Schäfer, 2011-12-01 Inhaltsangabe: Introduction: All American music reflects the landscape from which it springs and as that landscape changes, chewed up by the developments and industry and environmental disasters, as the air we breathe in and out of our lungs is filled with new particles, as the water we drink gets its fluoride levels regulated and mineral content tweaked, it makes perfect sense that American music becomes slicker, more machinated, less like reality. We are all subject to our environs, fashioned and chiseled and sanded into shapes We have highways for arteries and clouds for brains and sticks for bones, The sounds we make are Americana. As one of the first musical expressions of the United States, country music represents the values and ideals on which the nation was founded. Country music can be seen as the epitome of the American Dream. It has its origins in the 19th century, when cowboys were working in the fields and riding through the lonely prairie, an image that has been romanticized by numerous Hollywood movies. This thesis focuses on country music as a genre as well as the identity which it represents and by which audience and performers are linked. Country music can be regarded as the music of Southern working class Americans. Since before the Civil War, the South has always been looked down upon as being primitive, simple-minded, and extremely religious. Having its roots in the South, country music has had to face substantial criticism in terms of unsophistication and over-sentimentalization. Due to a shift in national economic power, the United States have become increasingly Southernized, both culturally and musically. Southern culture and identity have become desirable. This phenomenon allowed country music to shed its dubious reputation and gain popularity across the country. This paper will shine a light on the American South as a cultural region that has more to offer than what meets the eye. Southern working class culture and its core values are going to be described and put in context with country music as a form of cultural expression. Central themes in American country music are family, love, heartbreak, work, friends, religion, and patriotism. Characteristic for the country music genre are its narrative structures, which by telling a story, enhance its ability to form a collective identity as well as a connection between the narrator, the performer, and the audience. However, country musicians are not solely messengers of the [...]

sowell redneck culture critique: The Antidote Jesse Lee Peterson, 2020-11-16 Reverend Jesse Lee Peterson explains that this noxious, blaming mind-set has destroyed the black family, magnified racial tensions, pitted women against men, and quashed a sense of paternal responsibility—which in essence has killed the soul of the black community. For a half-century or more, black people have labored under the spell of what Jesse Lee Peterson calls the alchemists. These are the race hustlers, media hacks, politicians, community organizers, and the like who promise to fundamentally transform America. The transformation they promise, however, produces only fool's gold—unearned benefits like welfare, food stamps, subsidized housing, payouts from lawsuits, and maybe one day even reparations. Worse, to secure these counterfeit goods, recipients

have to sacrifice something of infinite value: the sanctity of the two-parent family. It is a devil's bargain. In *The Antidote: Healing America from The Poison of Hate, Blame, and Victimhood*, Reverend Jesse Lee Peterson explains that this noxious, blaming mind-set has destroyed the black family, magnified racial tensions, pitted women against men, and quashed a sense of paternal responsibility—which in essence has killed the soul of the black community. The antidote to this poison has the power to save America and can be found inside this book. Now is the time to reject the culture of blame and find the antidote—it can save your life, your family, and your future.

sowell redneck culture critique: *Black Rednecks and White Liberals* Thomas Sowell, 2010-09-17 This explosive new book challenges many of the long-prevailing assumptions about blacks, about Jews, about Germans, about slavery, and about education. Plainly written, powerfully reasoned, and backed with a startling array of documented facts, *Black Rednecks and White Liberals* takes on not only the trendy intellectuals of our times but also suc...

sowell redneck culture critique: Barbarians inside the Gates and Other Controversial Essays Thomas Sowell, 2020-06-18 A collection of essays that discusses such issues as the media, immigration, the minimum wage and multiculturalism.

sowell redneck culture critique: *Ethical Decision Making in School Administration* Paul A. Wagner, Douglas J. Simpson, 2008-10-22 Pedagogically rich, demographically inclusive, and culturally sensitive, *Ethical Decision Making in School and District Administration* exposes educational leaders to an interdisciplinary array of theories from the fields of education, economics, management, and moral philosophy (past and present). Authors Paul A. Wagner and Douglas J. Simpson demonstrate how understanding key concepts can dramatically improve management styles and protocols. Key Features Contains numerous case studies that apply the book's concepts to relevant ethical issues faced by school administrators Reveals possibilities for thinking outside the box in terms of morally informed and effective leadership strategies aimed at securing organizational commitment and shared vision Presents multiple theories of ethics, demonstrating how they inform decision making and culture building in school districts Incorporates a range of in-text learning aids, including figures that clarify and critique ideas, a complete glossary, and end-of-chapter activities and questions

sowell redneck culture critique: "Cashville" - Dilution of Original Country Music Identity Through Increasing Commercialization Stephanie Sch„fer, 2012-04 Where I come from, it's cornbread and chicken... This line from Alan Jackson's country hit defines the genre as the music of the American South. All its ambiguity set aside, the South stands proudly for its hospitality, politeness, sense of place and community. Family and religion are traditionally more important down there than in the rest of the country. As Southern culture becomes more and more americanized and the music of the small town Southern man (another Jackson song) is adapted for a mainstream audience, the original rustic identity that defines the true American genre loses its charm. Modern country music has become slick and professionalized and sounds more and more like common pop music to make it more profitable. This study focuses on the authentic country music identity and how it is threatened by increasing commercialization. It defines said identity and the working class culture from which it springs. It traces the history of country music and its different genres from the 19th and early 20th century cowboy music over Western Swing and Honky-Tonk of the 1930s and 1940s, the progressive movements of the 1960s and 1970s up to today's mainstream Country Pop, and shows how its target audience has changed over time and how the opposition tries to preserve traditional sounds. Authentic Texas Country is set in contrast to the commercial Nashville recording industry and both are compared in their respective developments over the years. In the face of terrorism, which poses a threat to the American National identity, country music with its representative American values has become increasingly popular and enforces a strong collective identity on a national level. However, in doing so, it also dilutes the original identity that was once restricted to life in a small town community rather than the country as a whole. What sets country music as a genre apart is its narrative structure. Every song has a story to tell: Be it about 'The Cold Hard Facts of Life?', a prayer finally answered, or the first kiss on a Saturday night.

sowell redneck culture critique: Country Boys and Redneck Women Diane Pecknold, Kristine M. McCusker, 2016-02-08 Country music boasts a long tradition of rich, contradictory gender dynamics, creating a world where Kitty Wells could play the demure housewife and the honky-tonk angel simultaneously, Dolly Parton could move from traditionalist girl singer to outspoken trans rights advocate, and current radio playlists can alternate between the reckless masculinity of bro-country and the adolescent girlishness of Taylor Swift. In this follow-up volume to *A Boy Named Sue*, some of the leading authors in the field of country music studies reexamine the place of gender in country music, considering the ways country artists and listeners have negotiated gender and sexuality through their music and how gender has shaped the way that music is made and heard. In addition to shedding new light on such legends as Wells, Parton, Loretta Lynn, and Charley Pride, it traces more recent shifts in gender politics through the performances of such contemporary luminaries as Swift, Gretchen Wilson, and Blake Shelton. The book also explores the intersections of gender, race, class, and nationality in a host of less expected contexts, including the prisons of WWII-era Texas, where the members of the Goree All-Girl String Band became the unlikeliest of radio stars; the studios and offices of Plantation Records, where Jeannie C. Riley and Linda Martell challenged the social hierarchies of a changing South in the 1960s; and the burgeoning cities of present-day Brazil, where college country has become one way of negotiating masculinity in an age of economic and social instability.

sowell redneck culture critique: Wealth, Poverty and Politics Thomas Sowell, 2016-09-06 In *Wealth, Poverty, and Politics*, Thomas Sowell, one of the foremost conservative public intellectuals in this country, argues that political and ideological struggles have led to dangerous confusion about income inequality in America. Pundits and politically motivated economists trumpet ambiguous statistics and sensational theories while ignoring the true determinant of income inequality: the production of wealth. We cannot properly understand inequality if we focus exclusively on the distribution of wealth and ignore wealth production factors such as geography, demography, and culture. Sowell contends that liberals have a particular interest in misreading the data and chastises them for using income inequality as an argument for the welfare state. Refuting Thomas Piketty, Paul Krugman, and others on the left, Sowell draws on accurate empirical data to show that the inequality is not nearly as extreme or sensational as we have been led to believe. Transcending partisanship through a careful examination of data, *Wealth, Poverty, and Politics* reveals the truth about the most explosive political issue of our time.
