ship trap island story pdf: [Fresh Kills](#) Martin V. Melosi, 2020-01-28 Fresh Kills—a monumental 2,200-acre site on Staten Island—was once the world's largest landfill. From 1948 to 2001, it was the main receptacle for New York City's refuse. After the 9/11 attacks, it reopened briefly to receive human remains and rubble from the destroyed Twin Towers, turning a notorious disposal site into a cemetery. Today, a mammoth reclamation project is transforming the landfill site, constructing an expansive park three times the size of Central Park. Martin V. Melosi provides a comprehensive

chronicle of Fresh Kills that offers new insights into the growth and development of New York City and the relationship among consumption, waste, and disposal. He traces the metamorphoses of the landscape, following it from salt marsh to landfill to cemetery and looks ahead to the future park. By centering the problem of solid-waste disposal, Melosi highlights the unwanted consequences of mass consumption. He presents the Fresh Kills space as an embodiment of massive waste, linking consumption to the continuing presence of its discards. Melosi also uses the landfill as a lens for understanding Staten Island's history and its relationship with greater New York City. The first book on the history of the iconic landfill, Fresh Kills unites environmental, political, and cultural history to offer a reflection on material culture, consumer practices, and perceptions of value and worthlessness.

ship trap island story pdf: Down East: An Illustrated History of Maritime Maine (2) Lincoln Paine, 2018-06-19 From the first explorers, to the century of ships, to our modern fisheries and diversification, Maine's maritime story is told in engaging detail. Lincoln Paine has laid down the framework for an understanding of Maine's maritime history by relating the population and landscape of today to their historic foundations. This engaging overview of Maine's maritime history ranges from early Native American travel and fishing to pre-Plymouth European settlements, wars, international trade, shipbuilding, boom-and-bust fisheries, immigrant quarrymen, quick-lime production, yachting, and modern port facilities, all unfolding against one of the most dramatic seascapes on the planet. Down East can be read in an evening but will be referred to again and again. When the first edition was published in 2000, Walter Cronkite—a veteran Maine coastal sailor as well as The Most Trusted Man in America—wrote that “Paine's economy of phrase and clarity of purpose make this book a delight.” Paine went on to write his monumental opus The Sea and Civilization: A Maritime History of the World (PW starred review), but now returns to his first and most abiding love, the coast of Maine, to revise and update this gem of a book. The new edition is printed in a large, full-color format with a stunning complement of historical photos, paintings, charts, and illustrations, making this a truly visual journey along a storied coast.

ship trap island story pdf: Catching Thunder Eskil Engdal, Kjetil Sæter, 2018-03-15 December, 2014: In the forbidding waters off Antarctica, Captain Hammarstedt of the Bob Barker sets off on a voyage unlike any seen before. Across ten thousand miles of hazardous seas, Hammarstedt's crew will relentlessly pursue the Thunder - an infamous illegal fishing ship - for

what will become the longest chase in maritime history. Wanted by Interpol, the Thunder has for years evaded justice: hunting endangered species and accumulating millions in profits. The authors follow this incredible expedition from the beginning. But even as seasoned journalists, they cannot anticipate what the chase will uncover, as the wake of the Thunder leads them on the trail of criminal kingpins, rampant corruption, modern slavery and an international community content to turn a blind eye. Very soon, catching Thunder becomes not only a chase but a pursuit of the truth itself – and a symbolic race to preserve the well-being of our planet. A Scandinavian bestseller, *Catching Thunder* is a remarkable true story of courage and perseverance, and a wake-up call to act against the destruction of our environments.

ship trap island story pdf: *Population Geography* Helen D. Hazen, Heike C. Alberts, Kazimierz J. Zaniewski, 2023-07-06 *Population Geography: Social Justice for a Sustainable World* surveys the ways in which geographic approaches may be applied to population issues, exploring how human populations are embedded in natural and social environments. It encourages students to evaluate population issues critically, given that population topics are at the heart of many of today's most contentious subjects. Through introducing students to different lenses of analysis (ecological, economic, and social equity), the authors ask students to consider how different perspectives can lead to different conclusions on the same issue. Identifying and tackling today's population problems therefore requires an understanding of these diverging, and sometimes conflicting, perspectives. The text covers all the key background information critical to any book on population geography (population size, distribution, and composition; fertility, mortality, and migration; population and resources) but also pushes students to think critically about the materials they have covered using the perspectives of sustainability and social justice. In this way, students move beyond simple fact learning toward higher-level skills such as analysis, synthesis, and evaluation of materials. This textbook will be a valuable resource for students of human geography, population geography, demography, and diaspora studies.

ship trap island story pdf: Sideways Josh O'Kane, 2022-09-13 NATIONAL BESTSELLER FINALIST FOR THE WRITERS' TRUST SHAUGHNESSY COHEN PRIZE FOR POLITICAL WRITING From the Globe and Mail tech reporter who revealed countless controversies while following the Sidewalk Labs fiasco in Toronto, an uncompromising investigation into the bigger story and what the Google sister company's failure there reveals about Big Tech, data privacy and the monetization of everything. When former New York deputy mayor Dan Doctoroff landed in Toronto, promising a revolution in better living through technology, the locals were starstruck. In 2017 a small parcel of land on the city's woefully underdeveloped lakeshore was available for development, and with

Google co-founder Larry Page and his trusted chairman Eric Schmidt leaning into Sidewalk Labs' pitch for the long-forsaken property—with Doctoroff as the urban-planning company's CEO—Sidewalk's bid crushed the competition. But as soon as the bid was won, cracks appeared in the partnership between Doctoroff's team and Waterfront Toronto, the government-sponsored organization behind the contest. There were hundreds more acres of undeveloped former port lands nearby that kept creeping into conversation with Sidewalk, and more questions were emerging than answers about how much the public would actually benefit from the Alphabet-owned company's vision for the high-tech neighbourhood—and the data it could harvest from the people living there. Alarm bells began ringing in the city's corridors of power and activism. To Torontonians accustomed to big promises with little follow-through, the fiasco that unfolded seemed at first like just another city-building sideshow. But the pained battle to reel in the power of Sidewalk Labs became a crucible moment in the worldwide battle for privacy rights and against the extension of Big Tech's digital might into the physical world around us. With extensive contacts on all sides of the debacle, O'Kane tells a story of global consequence fought over a small, forgotten parcel of mud and pavement, taking readers from California to New York to Toronto to Berlin and back again. In the tradition of extraordinary boardroom dramas like *Bad Blood* and *Super Pumped*, *Sideways* vividly recreates the corporate drama and epic personalities in this David-and-Goliath battle that signalled to the world that all may not be lost in the effort to contain the rapidly growing power of Big Tech.
