speaker dead book online: *Death of the Artist* Nicola McCartney, 2018-07-30 There exists a series of contemporary artists who continually defy the traditional role of the artist/author, including Art & Language, Guerrilla Girls, Bob and Roberta Smith, Marvin Gaye Chetwynd and Lucky PDF. In *Death of the Artist*, Nicola McCartney explores their work and uses previously unpublished interviews to provoke a vital and nuanced discussion about contemporary artistic authorship. How do emerging artists navigate intellectual property or work collectively and share the recognition? How might a pseudonym aid 'artivism'? Most strikingly, she demonstrates how an alternative identity can challenge the art market and is symptomatic of greater cultural and political rebellion. As such, this book exposes the art world's financially incentivised infrastructures, but also examines how they might be reshaped from within. In an age of cuts to arts funding and forced self-promotion, this offers an important analysis of the pressing need for the artistic community to construct new ways to reinvent itself and incite fresh responses to its work.

speaker dead book online: *Defying Maliseet Language Death* Bernard C. Perley, 2011-11-01 Published through the Recovering Languages and Literacies of the Americas initiative, supported by the Andrew W. Mellon Foundation Today, indigenous communities throughout North America are grappling with the dual issues of language loss and revitalization. While many communities are making efforts to bring their traditional languages back through educational programs, for some communities these efforts are not enough or have come too late to stem the tide of language death, which occurs when there are no remaining fluent speakers and the language is no longer used in regular communication. The Maliseet language, as spoken in the Tobique First Nation of New Brunswick, Canada, is one such endangered language that will either be revitalized and survive or will die off. *Defying Maliseet Language Death* is an ethnographic study by Bernard C. Perley, a member of this First Nation, that examines the role of the Maliseet language and its survival in Maliseet identity processes. Perley examines what is being done to keep the Maliseet language alive, who is actively involved in these processes, and how these two factors combine to promote Maliseet language survival. He also explores questions of identity, asking the important question: 'If Maliseet is no longer spoken, are we still Maliseet?'. This timely volume joins the dual issues of language survival and indigenous identity to present a unique perspective on the place of language within culture.

What if I could prove to you that not only is the time of death's visitation rapidly approaching for us all, but that his foot is already in the door? speaker dead book online: A Web of Our Own Making Antón Barba-Kay, 2023-05-11 There no longer seems any point to criticizing the internet. We indulge in the latest doom-mongering about the evils of social media-on social media. We scroll through routine complaints about the deterioration of our attention spans. We resign ourselves to hating the internet even as we spend much of our waking lives with it. Yet our unthinking surrender to its effects-to the ways it recasts our aims and desires-is itself digital technology's most powerful achievement. A Web of Our Own Making examines how online practices are reshaping our lives outside our notice. Barba-Kay argues that digital technology is a 'natural technology'-a technology so intuitive as to conceal the extent to which it transforms our attention. He shows how and why this technology is reconfiguring knowledge, culture, politics, aesthetics, and theology. The digital revolution is primarily taking place not in Silicon Valley but within each of us.
