student guide answers autentico: Auténtico Robert Rodriguez, Andrés T. Tapia, 2021-07-06 America has an urgent need for Latino and Latina executives. This book identifies a path to uplift and amplify their representation in leadership. Latinos and Latinas will account for a third of our workforce by 2050-yet they make up only 5 percent of senior roles in corporate America. Dr. Robert Rodriguez and Andrés T. Tapia call this low percentage of Latino and Latina corporate executives today the „5 percent Shame.“ Inspired by Price M. Cobbs's seminal work on the secrets of successful Black leaders, this book seeks to understand the impact on Latinos and Latinas of the external forces of conscious and unconscious biases and of the internal forces of whether to assimilate or double down on their cultural identities in their quest to get ahead. The second edition features a new foreword by Henry Cisneros, former secretary of the Department of Housing and Urban Development, as well as updated statistics and graphs to represent how America's career landscape for Latinos has and has not changed and how to ensure Latinos can rise to their fullest

potential. Using insights from in-depth interviews with twenty highly successful boomer Latino and Latina executives and focus groups with dozens of Gen X and millennial leaders, the authors have captured lessons about how these individuals chose their career paths, addressed challenges, and seized opportunities. The discussions are interpreted through the lenses of the authors' different personal experiences as Latino leaders in corporate America and synthesized as a guide for future leaders.

student guide answers autentico: *The 5 Disciplines of Inclusive Leaders* Andrés T. Tapia, Alina Polonskaia, 2020-10-20 Diversity initiatives are falling short. This book shows leaders how to develop the skills needed to build sustainably inclusive organizations using a tested, research-based model developed by the global organizational consulting firm Korn Ferry. According to the journal Human Resource Management, companies are spending over \$8 billion a year on diversity programs. Yet today, the senior leadership teams at Fortune 500 companies are far from mirroring the diversity of its workforce and its customers. Andrés Tapia and Alina Polonskaia, senior leaders at Korn Ferry, argue that to build sustainable diversity and inclusion, organizations need to have inclusive leaders at all levels. In this book, Tapia and Polonskaia draw on Korn Ferry's massive database of 3 million leadership assessments to reveal the essential qualities of inclusive leaders. They discuss the personality traits these leaders share and detail how to develop what they call the five disciplines of inclusive leadership: building interpersonal trust, integrating diverse perspectives, optimizing talent, applying an adaptive mindset, and achieving transformation. Tapia and Polonskaia also outline the competencies behind each discipline, describe individual and organizational exemplars of inclusive leadership, and show how the five disciplines enable leaders to unleash the power of all people and to build both structurally and behaviorally inclusive organizations. This book will help leaders foster the skills to deal with today's complex challenges and create a more inclusive, sustainable, and prosperous future for all of us.
