secondary education english pdfs: Bildung für die Einwanderungsgesellschaft Ulrike Hormel,

Albert Scherr, 2013-03-12 Um der 'Tatsache Einwanderungsgesellschaft' bildungspolitisch und bildungspraktisch gerecht zu werden, sind auf unterschiedliche Problemdimensionen bezogene spezialisierte Vorgehensweisen nicht ausreichend. Auf der Grundlage einer internationalen Recherche zu bildungspolitischen und bildungspraktischen Strategien in Einwanderungsländern wird deshalb eine integrative Programmatik entwickelt, die den Handlungserfordernissen auf unterschiedlichen Gestaltungsebenen der Schulentwicklung Rechnung trägt. Grundlegend hierfür ist die umfassende Auseinandersetzung mit diskriminierenden Strukturen und Praktiken sowie mit fremdenfeindlichen, rassistischen und rechtsextremen Deutungsmustern und Ideologien. Die in Abgrenzung zu einem pädagogischen Multikulturalismus - aber auch zur universalistischen Pädagogik französischer Prägung - entwickelte Antidiskriminierungsperspektive fordert dazu auf, die bislang getrennt geführten Debatten über die Bildungsbenachteiligung von MigrantInnen einerseits, Erfordernisse antirassistischer und interkultureller Pädagogik andererseits zusammenzuführen.

secondary education english pdfs: Language Planning in Primary Schools in Asia

Richard Baldauf, Robert Kaplan, Knonko Kamwangamalu, Pauline Bryant, 2013-09-13 In foreign language education, decisions must be taken on what languages to teach, who will teach them, in which schools (i.e. all, only urban, only rural), in which grades, the number of hours a week, and the cost involved. This book explores the answers to these questions across a number of Asian polities. It illustrates why some of the efforts undertaken are successful and why some are not, why – despite significant investments of time and resources – some students do not seem to acquire the languages being taught, and why some teachers responsible for instruction in the designated foreign languages have problems achieving fluency in the designated language or have other language teaching difficulties. It suggests some strategies various polities might attempt to achieve their stated language learning objectives. This book was originally published as a special issue of Current Issues in Language Planning.

secondary education english pdfs: Early Language Learning in Context David Hayes, 2022-08-19 This book critically analyses early school foreign language teaching policy and practice, foregrounding the influence of the socioeducational and cultural context on how policies are implemented and assessing the factors which either promote or constrain their effectiveness. It focuses on four Asian contexts – Malaysia, South Korea, Sri Lanka and Thailand – while providing a discussion of policy and practice in Canada and Finland as a comparison. Concentrating on the state school sector, it criticises the worldwide trend for a focus on English as the principal or only foreign language taught in primary schools, founded on a rationale that widespread proficiency in English is important for future national success in a globalised economy. It maintains that the economic rationale is not only largely unfounded and irrelevant to the language learning experiences of young children but also that the focus on English exacerbates system inequalities rather than contributing to their reduction. The book argues for a broader perspective on language learning in primary schools, one that values multilingualism and knowledge of regional and indigenous languages alongside a more diverse range of foreign languages. This book will appeal to educational policymakers, researchers and students interested in early foreign language learning in state educational systems worldwide.
