shifty sam replies: The Shift Michael Harris, 2013-06 Sedona is well-known as a very spiritual place. It is also known as a congregation ground for crystal crunchers, self-proclaimed visionaries and mystics. There are a few true healers here, but they shun the media and the publicity that others come here to seek. Two of them feel a shift in balance one evening, and know something bad has come to this healing spot. A father and son serial killer team has stopped by in Sedona on the way north to Canada. With them, they bring all the hate that drives them to keep killing. They have a well-refined method of finding, keeping and finally killing their subjects, and are experts at leaving no trace. They have remained at large as they perform these acts while travelling through seven states. This story is about the healers, and how they, with the help of a USFS volunteer and his search/rescue dog, Sam find out what has happened and how to make it go away before more killings occur. Mike and Linda Harris are residents of Sedona, Arizona. They relocated to Sedona in 2003, leaving California for a less-structured and more healthful lifestyle in a peaceful, beautiful place. Both are graduates of SDSU, and Mike has authored several books under his name on technical subjects, including some which remain in the classified domain. He is from a Business Development background with emphasis on contract electronics for Defense Electronics companies. Linda has a Business degree, and was most recently a Director of Resident Programs at one of the largest multi-level senior care facilities in Southern California. She has been on television, and is credited for assisting in the establishment of the ethics committee under which many of the senior care facilities operate today. Both, with the assistance of Sam, co-wrote this book. Both Mike and Linda are active in the Sedona area, volunteering under USFS programs which are dedicated to preservation of the Sedona wildlife preserves and trail systems. These include the Adopt-a-Trail program, Mountain Bike Patrol and Friends of the Forest programs. Sam is included in these efforts, and routinely can be seen walking in the forest with patrollers, trail management personnel and volunteer search and rescue groups.

shifty sam replies: Decision Point Mitch L. Gohman, 2008-07 Toward Spiritual Sovereignty diagnoses societal samodaya (Buddhist terminology for emotional craving). The author uses extensive knowledge and wisdom from masters of ages past and present to refocus the spirit of man (spiritus mundi) on a wholesome re-creation of the world community. Every soul has the divine right to determine his or her sacred path to their unique destiny upon the horizons of learned choice. Political aggression, (governmental power), religious aggression (proselytizing), and financial aggression (voracious capitalism) provide conflict and work against the realization of happiness and wellbeing. These works are an attempt to advocate for the abolition of hindrance toward those ends, to advocate, without fetter, for spiritual sovereignty of every soul. Each person, Homo Divinitas (man of Divinity) should be able to experience life without threat. Threat can manifest in the form of hunger, poverty, illiteracy, illness, or physical/emotional/spiritual aggression. The 21st century provides an atmosphere of escalating violence, and terror, amidst the Middle East in particular, and the world in general. Such as the Roman Forum prior to the turn of the first millennia after Christ, mankind seems unable or unwilling to cease participation in the spiritual morphine of violence whether real, virtual, or vicarious. Mr. Casperson's authorship proposes effective measures for self-enlightenment and effective ways to cope with violence and political and religious terrorism. shifty sam replies: Serpent Galaxy David McElwrath, 2016-09-19 This book's storyline is that of reptilians from the Andromeda Galaxy. The first earth ship to meet the reptilians was not a human ship but an advanced ship of the ancient and advanced race of the Vlar. The Vlar were a very high technology ancient race who expected to have no fear of the Snakes. However, the race of reptilians that were rapidly conquering all civilizations with which they came into contact were now a threat to all races, whatever their level of technology. A century ago, the Vlar never expected to be worried about the Snakes, as all civilizations called them. Their conquests had become so rapid and so had their takeover of advanced civilizations and their technology that they were now a threat to every being in the galaxy. The Vlar gave the earth humans some of their high-tech ships as a kind of last effort since they held the earth humans in such low regard. The Vlar thought of the earth humans as warlike, backward, and vicious animals who killed their own kind. However, there were very few options left open to the Vlar, so they gave the earth humans a few of their ships. The Snakes had millions of high-tech ships that carried thousands of Snake soldiers at several times the speed of light. The Vlar gave the earth humans a few dozen Vlar ships. The Snakes were over seven feet tall and weighed over five hundred pounds. They were equipped with fangs and claws like the Tyrannosaurus rex of old earth history. They liked to fight with hands or blade weapons to see the blood flow. They were cannibals in addition to being carnivores. They considered it honorable to eat your defeated foe, and they were not above eating their own children. The Snakes used massed ships

in the millions to just roll over all the people they intended to conquer. It was expected of any failed Snake expeditions to commit suicide. The Snakes occupied over 1,400 planets and were continuing to conquer more as time went by. Apparently, none could stand before the Snakes. Could the small blue planet called earth have a chance to survive?

Jones, self-made millionaire and mayor of Toledo, Ohio (1897-1904) organized his life, business, and political career. Unlike most progressive reformers, Jones was in a position to initiate real change. His factory workers shared in the profits and took advantage of day-care facilities for their children. As mayor, he was a nationally revered public figure who supported municipal ownership of utilities, ended the practice of jailing the homeless, and made available free legal counsel to those who needed it. Marnie Jones relies upon a rich collection of unpublished documents to tell the compelling story of the only man in America to have run a city on the principles of the Sermon on the Mount.
