sports games 76: *Sports Coaching in Europe* Dave Day, 2021-06-13 This book explores the historical development of coaching traditions across Europe, placing national approaches to coaching within their cultural and political context. Sports coaching is a social practice that has been shaped by its cultural context, resulting in different countries being characterized by different coaching traditions. By helping us to understand the history of coaching across Europe, this book allows us to better understand both the history of sport and the cultural and social history of Western European nations. Drawing on cutting-edge historical research by international scholars, the book presents studies of coaching cultures in France, Spain, Italy, the Netherlands, Sweden, Norway and the United Kingdom. It explores how sporting histories, cultural attitudes, and social contexts resulted in distinctive coaching heritages, which were further shaped through coach migration and the adoption of elements of other countries' coaching structures. This book explores these phenomena to provide critical evidence of the historical impact of culture on the development of sports coaching. The book offers insight into the characteristics of European coaching traditions. It will be fascinating reading for academics in sports history, sports and coaching studies, gender studies, and transnational studies, as well as those with an interest in British or European history and social and cultural history.

sports games 76: *Sport, Events, Tourism and Regeneration* Nicholas Wise, John Harris, 2017-02-17 Investments in sport, events and tourism in cities and wider regions are part of nascent regeneration strategies linked to transitioning economic bases and place images. While it is important to consider physical regeneration, there is a range of subsequent benefits and opportunities brought about through regeneration that considers social impacts, communities and how investments and developments influence how people interact in transformed spaces. This book brings together a collection focusing on the diverse range of approaches and perspectives of regeneration. Twelve chapters outline and bring together critical perspectives of regeneration from scholars in different parts of the world. This collection critically assesses some of the key factors impacting upon regeneration initiatives in relation to sport, events and tourism. By doing so, this book assesses if new opportunities have arisen from developments, increasing the demands and needs of locals and tourists, or if transformations result in exclusion - thus challenging who regeneration is for. This book will be valuable reading for students and academics interested in tourism studies, events planning, sport and leisure studies or development studies, as well as the wider social sciences.

sports games 76: Mapping an Empire of American Sport Mark Dyreson, J.A. Mangan, Roberta J. Park, 2013-09-13 Since the mid-nineteenth century, the United States has used sport as a vehicle for spreading its influence and extending its power, especially in the Western Hemisphere and around the Pacific Rim, but also in every corner of the rest of the world. Through modern sport in general, and through American pastimes such as baseball, basketball and the American variant of football in particular, the U.S. has sought to Americanize the globe's masses in a long series of both domestic and foreign campaigns. Sport played roles in American programs of cultural, economic, and political expansion. Sport also contributed to American efforts to assimilate immigrant populations. Even in American games such as baseball and football, sport has also served as an agent of resistance to American imperial designs among the nations of the Western hemisphere and the Pacific Rim. As the twenty-first century begins, sport continues to shape American visions of a global empire as well as framing resistance to American imperial designs. *Mapping an Empire of American Sport* chronicles the dynamic tensions in the role of sport as an element in both the expansion of and the resistance to American power, and in sport's dual role as an instrument for assimilation and adaptation. This book was published as a special issue of the *International Journal of the History of Sport*.

sports games 76: Mega-event Cities: Urban Legacies of Global Sports Events Valerie Viehoff, Gavin Poynter, 2016-03-02 Mega-events represent an important moment in the life of a city, providing a useful lens through which we may analyse their cultural, social, political and economic development. In the wake of the International Olympic Committee's (IOC's) concerns about 'gigantism' and wider public concerns about rising costs, it was imperative in the C21st to demonstrate the long term benefits that arose for the city and nations from hosting premier sporting events. 'London 2012' was the first to integrate the concept of legacy from the moment a bid to host the Olympic and Paralympic Games was being considered. London proposed an ambitious programme of urban renewal for East London. Subsequent host city bids have adopted the 'legacy narrative' and, as this book demonstrates, aligned this to major schemes of urban development and renewal. Bringing together scholars, practitioners and policy makers, this book focuses upon the

legacies sought by cities that host major sports events. It analyses how governments, the IOC and others define and measure 'legacy'. It also focuses upon the challenges and opportunities facing future host cities of mega-events, looking at their aspirations and the intended impact upon their domestic and international development. It questions what the global shift in geographical location of mega-events means for sports development and the business of sport, what the attractions are for cities seeking to harness the hosting of a mega-event, and whether there may be longer term consequences for the bidding and hosting major sporting events in the wake of the widespread social unrest that accompanied the preparations in Brazil for hosting the FIFA World Cup (2014) and the summer Olympics (2016) and in Turkey, where there was significant opposition to bid for the 2020 summer Olympiad.
