Contemporary viewing practices and new media technologies have resulted in complex television narratives, in which experimental temporalities and revisions of narrative linearity and chronological time have become key features. As the first of its kind, this volume investigates how TV series as a powerful cultural medium shape representations of age and aging, such as in »Orange Is The New Black«, »The Wire« or »Desperate Housewives«, to understand what it means to live in time.

shemar moore age: TV-A-Go-Go Jake Austen, 2005-07 From Elvis and a hound dog wearing matching tuxedos and the comic adventures of artificially produced bands to elaborate music videos and contrived reality-show contests, television--as this critical look brilliantly shows--has done a superb job of presenting the energy of rock in a fabulously entertaining but patently fake manner. The dichotomy of fake and real music as it is portrayed on television is presented in detail through many generations of rock music: the Monkees shared the charts with the Beatles, Tupac and Slayer fans voted for corny American Idols, and shows like *Shindig!* and *Soul Train* somehow captured the unhinged energy of rock far more effectively than most long-haired guitar-smashing acts. Also shown is how TV has often delighted in breaking the rules while still mostly playing by them: Bo Diddley defied Ed Sullivan and sang rock and roll after he had been told not to, the Chipmunks' subversive antics prepared kids for punk rock, and things got out of hand when *Saturday Night Live* invited punk kids to attend a taping of the band Fear. Every aspect of the idiosyncratic history of rock and TV and their peculiar relationship is covered, including cartoon rock, music programming for African American audiences, punk on television, Michael Jackson's life on TV, and the tortured history of MTV and its progeny.

shemar moore age: Interpreting Tyler Perry Jamel Santa Cruze Bell, Ronald L. Jackson II, 2013-10-23 Tyler Perry has become a significant figure in media due to his undeniable box office success led by his character Madea and popular TV sitcoms House of Payne and Meet the Browns. Perry built a multimedia empire based largely on his popularity among African American viewers and has become a prominent and dominant cultural storyteller. Along with Perry's success has come scrutiny by some social critics and Hollywood well-knowns, like Spike Lee, who have started to deconstruct the images in Perry's films and TV shows suggesting, as Lee did, that Perry has used his power to advance stereotypical depictions of African Americans. The book provides a rich and thorough overview of Tyler Perry's media works. In so doing, contributors represent and approach their analyses of Perry's work from a variety of theoretical and methodological angles. The main themes explored in the volume include the representation of (a) Black authenticity and cultural production, (b) class, religion, and spirituality, (c) gender and sexuality, and (d) Black love, romance, and family. Perry's critical acclaim is also explored.

shemar moore age: Divas on Screen Mia Mask, 2009-07-02 This insightful study places African American women's stardom in historical and industrial contexts by examining the star personae of five African American women: Dorothy Dandridge, Pam Grier, Whoopi Goldberg, Oprah Winfrey, and Halle Berry. Interpreting each woman's celebrity as predicated on a brand of charismatic authority, Mia Mask shows how these female stars have ultimately complicated the conventional discursive practices through which blackness and womanhood have been represented in commercial cinema, independent film, and network television. Mask examines the function of these stars in seminal yet underanalyzed films. She considers Dandridge's status as a sexual commodity in films such as *Tamango*, revealing the contradictory discourses regarding race and sexuality in segregation-era American culture. Grier's feminist-camp performances in sexploitation pictures *Women in Cages* and *The Big Doll House* and her subsequent blaxploitation vehicles *Coffy* and *Foxy Brown* highlight a similar tension between representing African American women as both objectified stereotypes and powerful, self-defining icons. Mask reads Goldberg's transforming habits in *Sister Act* and *The Associate* as representative of her unruly comedic routines, while Winfrey's daily television performance as self-made, self-help guru echoes Horatio Alger narratives of success. Finally, Mask analyzes Berry's meteoric success by acknowledging the ways in which Dandridge's career made

Berry's possible.
