theological timeline resource pdf: A Timeline of Global Christianity Brett Knowles, 2020-06-01 This timeline comprises one thousand significant dates for global Christianity. It includes events across all inhabited continents (and also in Antarctica and outer space), emphasizing those occurring in the non-Western world. The detailed annotations on each date are intended as provocative “ignition points” to spark historical curiosity, functioning as “launchpads” into further exploration in global Christianity. For example: •739: What did the finding of the Rotas-Sator palindrome on the walls of an eighth-century Sudanese cave dwelling indicate? •1346: Who were the mysterious Christians in the Javanese Royal Court of Majapahit? •1969: Why was the “secret communion” on the Moon hushed up by NASA? •1992: Why was Paraguay the only Latin American country to include an indigenous language as a national language? Since previous histories of Christianity usually have a European or North American perspective, students will find this book useful for its global coverage. It can be used in three ways. Firstly, it can be used chronologically as a continuous global timeline. It can also be used as a sampling of Christianity in each country, or as an index of significant figures in the history of global Christianity. Each section is cross-referenced to the timeline, making it a valuable resource for historical study.

theological timeline resource pdf: *The Oxford Handbook of Mission Studies* Kirsteen Kim, Knud Jørgensen, Alison Fitchett-Climenhaga, 2022-04-18 The Oxford Handbook of Mission Studies represents more than a century of scholarship related to the theology, history, and methodology of the propagation of Christian faith and the engagement of Christians with cultures, religions, and societies worldwide. It contains more than 40 articles by experts from different disciplinary and ecclesial perspectives, who are from all continents. It not only offers a broad overview of key approaches and issues in mission studies but it also highlights current trends and suggests future developments. The Handbook builds on renewed interest in mission studies this century generated by recent key statements on mission from ecumenical, evangelical, Catholic, and Orthodox sources, and by a spate of academic works on the topic. Western church leaders now apply insights from foreign missions (such as, inculturation, liberation, interfaith work, and power encounter) to today's multicultural societies. Meanwhile, there are new initiatives in mission from the Majority World, where most Christians live, so that sending is not only 'from the west to the rest' but 'from everywhere to everywhere'. Therefore, this volume aims to reflect the voices of the receivers of mission as well as its protagonists and to raise awareness of new movements. In a time of growing

recognition of 'religions' more generally, this work examines and theorizes the missional dimensions of the world's largest religion: its agendas, growth, outreach, role in public life, effect on cultures, relevance for development, and its approaches to other communities.

theological timeline resource pdf: Intersectionality in Intentional Communities Assata Zerai, 2016-05-05 Over a decade of qualitative research, Assata Zerai has observed both incremental moves toward inclusiveness and strategies employed to accomplish long-term changes while conducting case studies of five multicultural Protestant churches in sites across the United States. With an interpretive approach, she explores these centers of worship and theorizes the conditions under which progressive social change occurs in some U.S. Protestant congregations. Understanding the daily practices of change and entrenchment in Protestant congregations and the intentional work to replace dominating structures with liberating ones may provide keys to creating multicultural, antiracist, feminist, and sexually inclusive volitional communities more broadly. Intersectionality in Intentional Communities argues that making a significant advance toward inclusion requires change in the underlying social structures of racism, sexism, heteronormativity, class, and other marginalizing influences. In order to isolate this phenomenon, Zerai conducted fieldwork and archival research among an African American and four multiracial U.S. churches. Different from a university or other public institution in which members are legally required to support diversity and related values, Zerai believes that volitional communities may provide a best-case scenario for how, motivated by higher ideals, members may find ways to create inclusive

communities. Zerai's research has a broad empirical base, encompassing five sites: a largely African American urban megachurch in the Midwest; a large Midwestern multiracial/multicultural church; a large urban multiracial/multicultural church in the eastern United States; a small, suburban Midwestern multiracial church; and an inclusive Midwestern college town church. In this book, Zerai further explores important connections between U.S. Protestant Christian congregations and political activism.

theological timeline resource pdf: Resisting Exclusion Eva Harasta, Simone Sinn, 2019-11-30 As societies live with diversity and yet struggle with both social fragmentation and increasing economic inequalities, populism is once again rising. Populist ethno-nationalist discourse seeks to ignite fear and hate, promote marginalization and exclusion of those who are regarded as not belonging to the people. What is the role and responsibility of theology and the churches in the midst of these developments? Church leaders and teaching theologians from eighteen different countries offer analyses, trace emerging global trends and outline some country-specific developing situations. Examples are given of how churches take up the challenge to resist exclusion and advocate for strengthening participatory processes and people's agency. Widerstand gegen Ausgrenzung. Globale theologische Antworten auf den Populismus In Zeiten, in denen Gesellschaften mit der Vielfalt leben und dennoch mit sozialer Fragmentierung und zunehmenden wirtschaftlichen Ungleichheiten zu kämpfen haben, nimmt der Populismus wieder zu. Der populistische ethno-nationalistische Diskurs zielt darauf ab, Angst und Hass zu schüren und die Marginalisierung und Ausgrenzung derjenigen zu fördern, die als nicht zum Volk gehörend betrachtet werden. Welche Rolle und Verantwortung haben die Theologie und die Kirchen angesichts dieser Entwicklungen? Kirchenleitende und Theologen aus achtzehn verschiedenen Ländern erstellen Analysen, verfolgen neue globale Tendenzen und beschreiben einige länderspezifische Entwicklungssituationen. Anhand von Beispielen wird gezeigt, wie Kirchen die Herausforderung annehmen, der Ausgrenzung zu widerstehen und sich für die Stärkung von partizipativen Prozessen und der Handlungskompetenz der Menschen einzusetzen.

theological timeline resource pdf: Kingdom People Living by Kingdom Principles Dr. Dalton Jenkins, 2013-07-08 We do not have to travel to some foreign country to locate the mission field. Right here, literally in our backyards, the world has come to us. The church's basic mission is to preach the gospel of the kingdom of God; this message has social and political aspects to its application. This is the fundamental responsibility of the church. This message is holistic and affects the total person. As the church develops a comprehensive and practical understanding of missions, this will propel Christians to act out their missional call. The challenge as to how to be truly missional requires those people considered to be disciples to engage their communities in their everyday lives. To capture the full essence of missions, this book introduces a process called strategic evangelism. This process serves to raise awareness by helping to clarify the nature of the structures and practices of the church relating to its missional focus, to develop a better awareness of local missions, and to introduce a process that will assist people to live out the mission by engaging their communities.

theological timeline resource pdf: Attunement Natalie Carnes, 2024 What is a feminist theologian to do with Christianity's patriarchal inheritance? She can avoid the most patriarchal aspects of the theological tradition and seek resources for constructive work elsewhere. Or she can critique misogynistic texts and artifacts, exposing their strategies of domination to warn against replicating them. Both approaches have merits and yet, without other interpretive strategies, they reaffirm that the theological tradition does not belong to women and others marginalized by gender. They cannot transform the discourse. But within feminist theology are the seeds of another approach, aimed at just such transformation by reworking the theological landscape to become hospitable to all those marginalized by gender. Attunement: The Art and Politics of Feminist Theology identifies trajectories resonant with this alternative approach and from them, describes and develops attunement as a third, generative path for feminist theologians. Attunement is an aesthetically-invested approach to texts and artifacts that self-consciously co-creates as it interprets. Aware of what the text affords the reader, attunement constellates images, texts, and insights to build or augment positive affordances in the text and diminish negative ones. Natalie Carnes describes why this approach is significant for feminist theology, maps its roots in a long history of gender-marginalized individuals claiming authority, describes how it casts interpretation as both an aesthetic and political event, and notes how it might provide a way forward in vexed topics in feminist theology.

theological timeline resource pdf: *Phoenix Rising* Donald G. Lett, Donald G Lett Jr, 2008-02 In an age when the supply of gasoline to feed this modern American society has become both more expensive and more scarce questions are being pondered. Inquires like, 'How can a modern society scale back its dependence on gasoline as a motive source?' 'Are there genuine alternative power sources?' 'Are they the answer to a growing crisis?' Recent announcements of hybrids like those from Honda, Toyota, and Ford have really brought attention to this issue. Hybrids that use both gasoline engines and electric motors. Really, though, alternative power sources have been around for as long as the automobile has been. The battle between and among the steam car, the electric and the gas car was fought out in the first couple of decades of the twentieth century. This book explores the ins and outs of that battle. A struggle from which the gasoline car emerged completely victorious. To such an extent that steam cars and electric cars virtually disappeared from the scene for many decades. We will look over all three alternatives, exploring their advantages and disadvantages. We will also look over the obstacles to the steamers and the electrics. Barriers that still exist to a certain extent. Handicaps that caused their disappearance in the first place.

theological timeline resource pdf: *Perspectives on the History of Ancient Near Eastern Studies* Agnès Garcia-Ventura, Lorenzo Verderame, 2021-03-03 The present volume collects eighteen essays exploring the history of ancient Near Eastern studies. Combining diverse approaches—synthetic and analytic, diachronic and transnational—this collection offers critical reflections on the who, why, and how of this cluster of fields. How have political contexts determined the conduct of research? How do academic agendas reflect larger social, economic, and cultural interests? How have schools of thought and intellectual traditions configured, and sometimes predetermined, the study of the ancient Near East? Contributions treating research during the Nazi and fascist periods examine the interpenetration of academic work with politics, while contributions dealing with specific national contexts disclose fresh perspectives on individual scholars as well as the conditions and institutions in which they worked. Particular attention is given to scholarship in countries such as Turkey, Portugal, Iran, China, and Spain, which have hitherto been marginal to historiographic accounts of ancient Near Eastern studies. In addition to the editors, the contributors are Selim Ferru Adali, Silvia Alaura, Isabel Almeida, Petr Charvát, Parsa Daneshmand, Eva von Dassow, Hakan Erol, Sebastian Fink, Jakob Flygare, Pietro Giammellaro, Carlos Gonçalves, Katrien de Graef, Steven W. Holloway, Ahmed Fatima Kzzo, Changyu Liu, Patrick Maxime Michel, Emanuel Pfoh, Jitka Sýkorová, Luděk Vacín, and Jordi Vidal.

theological timeline resource pdf: *Christian Theological Education and the Response to the Crisis in Zimbabwe* Bekithemba Dube, Gift Masengwe, 2025-10-02 The book offers an incisive examination of the governing philosophy of the Zimbabwe African National Union-Patriotic Front (ZANU-PF), referred to as Zanupfism, characterizing it as marked by callousness and malevolence towards dissenting voices from civil society and opposition factions. This pernicious application of power extends beyond mere verbal aggression to encompass militaristic actions, engendering a profound generational crisis within Zimbabwe. The contributors explore the compelling juxtaposition between President Emmerson Mnangagwa and the biblical Nebuchadnezzar II, a ruler notorious for his autocratic reign and expansive ambitions. Further, critically scrutinizing the complicity of neo-Pentecostal prophets in the book reveals how these religious figures promote an esoteric understanding of the divine, diverging from a theology rooted in justice, thereby enabling the oppressive regime's practices. This critique underscores the imperative for prophets to recalibrate their theological perspectives, urging them to move beyond magical interpretations of faith toward an authentic engagement with a personal God who champions justice. The book further encompasses the complex interplay of political and religious narratives, examining how church

leaders either bolster or undermine Mnangagwa's political ideology, highlighting the tendency among certain religious factions to deify political authority, ultimately exacerbating societal inequities. In advocating for a transformative theological discourse in Zimbabwe, the book asserts that religious narratives must serve as instruments for fostering democracy, social justice, and equity, rather than sustaining a status quo that entrenches authoritarian governance. The necessity for unified, principled resistance, grounded in the collective agency of the populace, emerges as a salient theme in the quest for meaningful political and social reform.
