Whether you apply them topically, ingest them, or diffuse them in the air, they are scientifically proven to work on the body’s physiology gently and quickly, which is why more and more people living with chronic conditions—from insomnia, hypertension, and fibromyalgia to Parkinson’s, epilepsy, insulin resistance, cancer, and even Alzheimer’s disease—are reaching for them as a complementary therapy. Drawing on their authoritative understanding of these powerful concentrations and their mastery of DIY usage, Dr. Eric and Sabrina Ann Zielinski share more than 150 research-backed and easy-to-prepare topical recipes, capsule remedies, and diffusions that work to combat the root causes of all disease: stress, anxiety, and systemic inflammation. Using oils from more than 70 aromatic plants—from copaiba and lemongrass to turmeric and ylang ylang—their healing formulations include: • Earthy Wood Inhaler, the perfect way to bring nature inside—“forest bathing” on demand! • Immune-Boosting Diffuser Blend, to help protect your body against airborne pathogens. • IBD Synergy Capsules, a gentle mixture of coriander, Melissa, and peppermint to soothe and promote gut health • Extra-Strength Bone and Joint Salve, powerful pain relief that uses CBD, frankincense, lavender and wintergreen. • Sensual Body Spray, an alluring scent to help spice up your love life! Easy to prepare and apply, these time-tested recipes and protocols will help you take control of your health and start to enjoy the abundant life again!

the herbal apothecary pdf: The Time Traveller's Herbal Amanda Edmiston, 2023-11-14 The herbalist has had many names throughout the ages - Cunning Woman, Wise Woman, even Witch - all hiding the truth of what they are... early pioneers of science, and fountains of traditional, nature-based knowledge. All around us are plants and herbs that can be used to improve our wellbeing and encourage a more nature-focused approach to health. Steeped in history, the herbalist's art paved the way for modern science - but didn't necessarily need to have been replaced by it. In *The Time Traveller's Herbal*, the traditional remedies and recipes that were passed down through the ages are offered to the modern reader as a means to reconnect with the natural world, while reaping the benefits. Steeped in the stories through which these remedies have been passed down to us, our connection to the past is fully explored in a romantic and meandering journey through the plants and flowers that have healed and helped us through the ages. Travelling back through the mists of time, the ancient mysteries of the plants and flowers that have saved lives in a world without modern medicine are uncovered. Told over the centuries, starting in ancient Rome, the reader journeys through time sampling the botanical marvels that did everything from soothing the pain of fever to revealing the world of the faeries, and learns the stories that surround us in the natural world. A guide to the myths of a lost art, *The Time Traveller's Herbal* is the book every budding apothecary should reach for. Including instructions for over 25 recipes and makes using commonly found, foraged or easily procured ingredients, author Amanda Edmiston weaves a story through the recipes about the craft of the herbalist, tapping into the traditional knowledge passed down through generations and reworking it for the modern reader.
