A student of the late Wicca pioneer Dr. Gerald Gardner, Raymond Buckland has been widely credited with introducing Wicca to the United States. He was one of the world's foremost experts on Witchcraft, Wicca, and Earth religions. With 560 entries, a resource section, and 114 photos and illustrations, this is an exhaustive exploration of Witchcraft, Wicca, paganism, magic, people, places, events, literature, and more. It shows how, in pre-Christian and early Christian times, Witchcraft (with a capital "W") was a magical and healing practice associated with early spiritual beliefs, including how the word Witch comes from the Old Anglo-Saxon wicce or wicca, meaning a "wise one": the wiseman or -woman of the common people who had knowledge of herbs, healing, augury, and magic. It also tackles how Witchcraft and paganism were erroneously linked with Satanism, black magic, and pop-culture distortions. It defines both the darker Christian concept and the true concept of Wicca, concentrating on the Western European and later New World versions of Witchcraft and magic. The Witch Book is a broad and deep look at witches, witchcraft and the Wicca tradition.

The contributors to this provocative volume explore and critique the usefulness of the concept for understanding contexts ranging from the Middle Ages to the modern day. Moving

beyond familiar explanations such as good Muslim/bad Muslim stereotypes or the clash of civilizations, they describe Islamophobia's counterpart, Islamophilia, which deploys similar oppositions in the interest of fostering public acceptance of Islam. Contributors address topics such as conflicts over Islam outside and within Muslim communities in North America, Europe, the Middle East, and South Asia; the cultural politics of literature, humor, and urban renewal; and religious conversion to Islam.
