touching spirit bear pdf: *Justice in Young Adult Speculative Fiction* Marek C. Oziewicz, 2015-04-17 This book is the first to offer a justice-focused cognitive reading of modern YA speculative fiction in its narrative and filmic forms. It links the expansion of YA speculative fiction in the 20th century with the emergence of human and civil rights movements, with the communitarian revolution in conceptualizations of justice, and with spectacular advances in cognitive sciences as applied to the examination of narrative fiction. Oziewicz argues that complex ideas such as justice are processed by the human mind as cognitive scripts; that scripts, when narrated, take the form of multiply indexable stories; and that YA speculative fiction is currently the largest conceptual testing ground in the forging of justice consciousness for the 21st century world. Drawing on recent research in the cognitive and evolutionary sciences, Oziewicz explains how poetic, retributive, restorative, environmental, social, and global types of justice have been represented in narrative fiction, from 19th century folk and fairy tales through 21st century fantasy, dystopia, and science fiction. Suggesting that the appeal of these and other nonmimetic genres is largely predicated on the dream of justice, Oziewicz theorizes new justice scripts as conceptual tools essential to help humanity survive the qualitative leap toward an environmentally conscious, culturally diversified global world. This book is an important contribution to studies of children's and YA speculative fiction, adding a new perspective to discussions about the educational as well as social potential of nonmimetic genres. It demonstrates that the justice imperative is very much alive in YA speculative fiction, creating new visions of justice relevant to contemporary challenges.

All too often, key education initiatives collapse because leaders fail to anticipate and learn from the concerns of those charged with implementation. This illuminating book shows how education leaders can bring opposing groups to common ground, resulting in a solid plan built on diverse wisdom. Acclaimed education coach Jane Kise demonstrates how polarity thinking--a powerful tool for bridging differences developed by Barry Johnson of Polarity Partnerships--provides an alternative to endless debates and either/or thinking. Through authentic examples of significant changes educators face today, Kise guides educators to leverage polarity thinking to promote commitment, engagement, and investment. -- Joellen Killion, Senior Advisor Learning Forward The mind, entrenched in the rigidity of either/or thinking, dwells on the divisions and ignores the connections of both/and. This engaging and practical book helps our students (and their teachers) transcend those divisions in a journey toward enriched enlightenment and greater flexibility. --Arthur L. touching spirit bear pdf: *Talking through Reading and Writing* Daniel Rose, Christine Walsh, 2020-11-11 In this book you will read many examples of rich literacy conversations between a teacher and his 8th grade students that never would have occurred face to face in the classroom. These conversations take place online when 8th graders write to their teacher about the books they're interested in reading and choosing to read independently. Students write about what happens when they read or don't read, how they feel about reading, how they're connecting with characters and ideas, why they don't have enough time to read, and what their reading goals are. And their teacher writes back to them. Every week. After each conversation you will read some "meta-talk" that shines a light on what the conversation has taught us about this language learner and how this "data" is informing our beliefs and practices. Embedded within the chapters are suggested resources (articles, book recommendations, links, websites, blogs, etc.) you can follow should you want to read more in that chapter. What these students reveal about their own literacy development- their successes, their challenges, their lives- and how their teacher nudges them along socially, emotionally and academically, teach us the value and power of one practical, authentic literacy tool- the Reading Conversation Journal.

touching spirit bear pdf: Unsettling Spirit Denise M. Nadeau, 2020-04-02 What does it mean to be a white settler on land taken from peoples who have lived there since time immemorial? In the context of reconciliation and Indigenous resurgence, *Unsettling Spirit* provides a personal perspective on decolonization, informed by Indigenous traditions and lifeways, and the need to examine one's complicity with colonial structures. Applying autoethnography grounded in Indigenous and feminist methodologies, Denise Nadeau weaves together stories and reflections on how to live with integrity on stolen and occupied land. The author chronicles her early and brief experience of Native mission in the late 1980s and early 1990s in northern Canada and Chiapas, Mexico, and the gradual recognition that she had internalized colonialist concepts of the good Christian and the Great White Helper. Drawing on somatic psychotherapy, Nadeau addresses contemporary manifestations of helping and the politics of trauma. She uncovers her ancestors' settler background and the responsibilities that come with facing this history. Caught between two traditions - born and raised Catholic but challenged by Indigenous ways of life - the author traces her engagement with Indigenous values and how relationships inform her ongoing journey. A foreword by Cree-Métis author Deanna Reder places the work in a broader context of Indigenous scholarship. Incorporating insights from Indigenous ethical and legal frameworks, *Unsettling Spirit* offers an accessible reflection on possibilities for settler decolonization as well as for decolonizing Christian and interfaith practice.
