transformative religious reading pdf: A Transformative Reading of the Bible Yung Suk Kim, 2013-04-17 In A Transformative Reading of the Bible Yung Suk Kim raises critical questions about human transformation in biblical studies. What is transformation? How are we transformed when we read biblical stories? Are all transformative aspects equally valid? What kind of relationships exists between self, neighbor, and God if transformation is involved in these three? Who or what is being changed, or who or what are we changing? What degree of change might be considered transformative? Kim explores a dynamic, cyclical process of human transformation and argues that healthy transformation involves three kinds of transformation: psycho-theological, ontological-theological, and political-theological transformation. With insights gained from phenomenological studies, political theology, and psychotheology, Kim proposes a new model for how to read the Bible transformatively, as he dares to read Hannah, Psalm 13, the Gospel of Mark, and Paul as stories of transformation. The author invites Christian readers, theological educators, and scholars to reexamine the idea of transformation and to engage biblical stories from the perspective of holistic human transformation.

transformative religious reading pdf: Encountering Images of Spiritual Transformation James M. Morgan, 2013-02-27 Humans are lovers, and yet a good deal of pedagogical theory, Christian or otherwise, assumes an anthropology at odds with human nature, fixed in a model of humans as thinking things. Turning to Augustine, or at least Augustine in conversation with Aquinas, Martin Heidegger, the overlooked Jesuit thinker Bernard Lonergan, and the important contemporary Charles Taylor, this book provides a normative vision for Christian higher education. A phenomenological reappropriation of human subjectivity reveals an authentic order to love, even when damaged by sin, and loves, made authentic by grace, allow the intellectually, morally, and religiously converted person to attain an integral unity. Properly understanding the integral relation between love and the fullness of human life overcomes the split between intellectual and moral formation, allowing transformed subjects--authentic lovers--to live, seek, and work towards the values of a certain kind of cosmopolitanism. Christian universities exist to make cosmopolitans, properly understood, namely, those persons capable of living authentically. In other words, this text gives a full-orbed account of human flourishing, rooted in a phenomenological account of the human as basis for the mission of the university.

crises many priests experience and how this spiritual malaise might be transformed.

transformative religious reading pdf: *Times of Transformation* Barbara J. Messamore, 2025-04-01 *Times of Transformation* positions the watershed 1921 federal election in the context of activist efforts and the revolutionary mood in the years following the Great War. New Liberal leader William Lyon Mackenzie King, who went on to become Canada's longest-serving prime minister, came to power, with his party capturing every Quebec seat. This election brought many Canadian firsts: the first post-Confederation minority government, the first time women were eligible to vote

on terms equal to men, and the first effective fracturing of the two-party system, with the establishment of a federal Labour party and the dramatic rise of the Progressives. These changes had been brewing before the end of the war. The Progressive party owed its success to the increased politicization of farmers and the concerns of the western voting base. Suffrage came after a decades-long battle for political rights for women. Labour strikes swept the nation in the post-Great War era, and a new national Labour party gained Commons representation. In short, this election manifested long-building forces for change and the global zeitgeist of postwar disillusionment and hope.

transformative religious reading pdf: *Relationship Is the Transformative Space* Darryl Wooldridge, 2016-02-09 This book affirms relationship as the shared human elemental pursuit and proposes relationship as the transformative space. Wonderfully, the author asserts, it is God's intention to fulfill this intrinsic human desire in the present in all of us and universally. This desire is an often inarticulate, innate desire and pursuit to enjoy and reflect the divine image in which every human being was created. In this book, this pursuit is referred to as proleptic spiritual transformation (PrōST). That is, this book demonstrates that what is too often relegated to eternity is available now. Relationship is the Transformative Space considers God's heart, in relationship, and its implication toward human spirituality and how this intent has been interrupted and restored. God is actively interested in the recovery of a fully expressed image in humanity.

transformative religious reading pdf: *Revolution und defekte Transformation in Ägypten* Imad Mustafa, 2021-07-12 »Das Volk will den Sturz des Regimes!« Unvergessen bleibt der Ruf der Menschen in Ägypten nach Freiheit und Selbstbestimmung, der im Jahr 2011 durch die Straßen Kairos hallte. Auf theoretisch innovative und interdisziplinäre Weise kombiniert Imad Mustafa strukturelle, netzwerktheoretische, konstruktivistische und kommunikative Aspekte des Transitionsprozesses zur umfassenden Untersuchung der revolutionären Mobilisierung säkularer Netzwerke sowie der konfliktiven Auseinandersetzungen mit dem Regime und der Muslimbruderschaft. So zeigt er auf, dass Demokratisierung ein widersprüchlicher und schwieriger Prozess ist, an dessen Ende die Re-Autoritarisierung der Politik stehen kann.

transformative religious reading pdf: *Receptive Ecumenism as Transformative Ecclesial Learning* Paul D. Murray, Gregory A. Ryan, Paul Lakeland, 2022-05-26 Receptive Ecumenism asks not what other churches can learn from us, but 'what can we learn and receive with integrity from our ecclesial others?' Since the publication of *Receptive Ecumenism and the Call to Catholic Learning: Exploring a Way for Contemporary Ecumenism* (OUP, 2008), this fresh ecumenical strategy has been adopted, critiqued, and developed in different Christian traditions, and in local, national, and international settings, including the most recent bilateral dialogue of the Anglican-Roman Catholic International Commission (ARCIC III). The thirty-eight chapters in this new volume, by academics, church leaders, and ecumenical practitioners who have adopted and adapted Receptive Ecumenism in various ecclesial and cultural contexts, show how Receptive Ecumenism has grown and matured. Part One demonstrates how Receptive Ecumenism itself is capable of being received with integrity into very different ecclesiologies and ecclesial traditions. In Part Two, this approach to transformative ecumenical learning is applied to some recurrent ecclesial problems, such as the understanding and practice of ministry, revealing new insights and practical opportunities. Part Three examines the potential and challenges for Receptive Ecumenism in different international settings. Part Four draws on scripture, hermeneutics, and pneumatology to offer critical reflection on how Receptive Ecumenism itself implements transformative ecclesial learning. Addressing the 70th Anniversary of the World Council of Churches, Archbishop Justin Welby, said that 'One of the most important of recent ecumenical developments has been the concept of Receptive Ecumenism'. This volume provides an indispensable point of reference for understanding and applying that concept in the life of the Christian churches today.

transformative religious reading pdf: *Transgression and Transformation* L. Juliana Claassens, Christl M. Maier, Funlola O. Olojede, 2021-07-15 This volume on feminist, postcolonial and queer biblical interpretation gathers perspectives from a global body of researchers; in offering innovative

interpretations of key texts from the Hebrew Bible, both established and emerging biblical scholars consider the question of how commonplace interpretative practices may be considered to be transgressive in nature. Utilizing innovative strategies, they read against the grain of the text and in support of the marginalized, the subordinated or subaltern others both in the text and in our world today. Important questions regarding power and privilege are constantly raised: whose voices are being heard, and whose interests are being served? Knowing all too well the harm that stereotypical constructions of the Other can do in terms of feeding racism, sexism, homophobia and imperialism in their respective interpretative communities, the essays in this volume interrogate constructions of ethnicity, gender, sexual orientation, and class, both in the text as well as in their respective contexts. By means of these thought-provoking interpretations, the contributors show their commitment not merely the sake of scholarship but to a scholarly ethos, which in some shape or form contributes to the cultivation of more just, equitable societies.

transformative religious reading pdf: *Neighborhood Transformation* Olusegun Solomon Osineye, 2024-07-31 *Neighborhood Transformation* is a Christian reimagination of compassionate ministry through the application of the practice of biblical hospitality. This book advocates the creation of community outreach programs focused on emotional support, legal support, and spiritual refuge for undocumented African immigrants. Linking the theological and biblical vision for neighborhood transformation with the philosophical framework of community building, it considers the meaning of community within the context of the Christian calling to build a community of strangers in a pluralistic society like the United States of America. The African diaspora is invited to their vocational calling of rebuilding their local communities using Nehemiah, Ezra, and the contemporary Jewish community in the Diaspora as biblical and contemporary example.

transformative religious reading pdf: *Transformation and Empowerment through Education* Raqib Chowdhury, 2018-11-19 *Transformation and Empowerment through Education* challenges the normalisation of Western discourses as the optimal choice for empowering education. The book aims to reconstruct our relationship with education and employs contemporary theories in order to understand some of the most persistent phenomena in contemporary education and its role in our lives. Written by professionals with experience of a wide range of academic and institutional conventions and traditions, and from diverse ethnocultural backgrounds, this book effectively presents a global perspective on educational practices, both inside and outside the classroom. The range of topics covered includes equity, access, inclusivity, social justice, leadership and the internationalisation of teaching. This book, based on empirical studies using key methodologies, is ideal for academics and postgraduate researchers interested in critical pedagogy, educational studies and educational linguistics, as well as educators and policymakers around the world.

transformative religious reading pdf: *Reading, Desire, and the Eucharist in Early Modern Religious Poetry* Ryan Netzley, 2011-01-01 The courtly love tradition had a great influence on the themes of religious poetry—just as an absent beloved could be longed for passionately, so too could a distant God be the subject of desire. But when authors began to perceive God as immanently available, did the nature and interpretation of devotional verse change? Ryan Netzley argues that early modern religious lyrics presented both desire and reading as free, loving activities, rather than as endless struggles or dramatic quests. *Reading, Desire, and the Eucharist* analyzes the work of prominent early modern writers—including John Milton, Richard Crashaw, John Donne, and George Herbert—whose religious poetry presented parallels between sacramental desire and the act of understanding written texts. Netzley finds that by directing devotees to crave spiritual rather than worldly goods, these poets questioned ideas not only of what people should desire, but also how they should engage in the act of yearning. Challenging fundamental assumptions of literary criticism, *Reading, Desire, and the Eucharist* shows how poetry can encourage love for its own sake, rather than in the hopes of salvation.

Comprising chapters from expert contributors, this book will appeal to students, scholars, and other readers interested in psychology, medicine, nursing, social work, pastoral care, and related disciplines.

transformative religious reading pdf: Inclusive Organizational Transformation Rica Viljoen, 2016-05-23 Globalization, consumerism, legislation and human rights issues impact on workplace demographics, changing the very nature thereof. It is of strategic importance to ensure that the benefits of diverse viewpoints and stakeholders are leveraged. However the underlying worldviews of economists, business leaders and consultants are often informed from a Western paradigm and solutions proposed and interventions facilitated are not integrated, integral, systemic or congruent with the containing environment or ecology. In *Inclusive Organizational Transformation*, Dr Rica Viljoen acknowledges that diversity of thought presents both gifts and challenges to leadership in multi-national organizations. The existential question with which an individual is confronted impacts on his or her worldview. By continuously applying a specific worldview, certain gifts manifest. These are called Human Niches. Here, Inclusivity is positioned as a radical transformational methodology with the purpose of unleashing the benefits of engagement and diversity of thought. The process of Inclusivity enables organizations to optimize the gifts of and contributions from a diverse workforce and unleash tacit knowledge. Case studies from Ghana, South Africa, and one where the same strategy had to be implemented in Australia, Peru and Tanzania are included and insights gained from the dynamics observed are shared. A synthesis of Inclusivity is presented in a model, meta-insights are derived and the prerequisites for Inclusivity on individual, group and organizational domain are illustrated.

transformative religious reading pdf: Naked Spirituality Brian D. McLaren, 2011-03-17 In our busy lives we often sideline prayer and spiritual practice, or wrap the subject up in a tangle of guilt-driven showmanship and 'self-motivation'. Stripping away the jargon that we can often get caught up in, *NAKED SPIRITUALITY* presents the core concepts of prayer in a fresh and accessible way. Brian D. McLaren has spent years working with these concepts in his own life and shares candidly his own experiences and insights as well as challenge in this very applicable book. Using twelve words as a structure, he shows how we can connect with God in practical, doable and durable ways, and use that connection to serve others.

transformative religious reading pdf: Identity Transformation and Politicization in Africa Toyin Falola, Céline A. Jacquemin, 2022-09-06 *Identity Transformation and Politicization in Africa: Shifting Mobilization*, edited by Toyin Falola and Céline A. Jacquemin, questions whether identity is providing and sustaining power for elites, or fueling oppression and conflicts, being mobilized for exclusionary movements versus inclusive societal changes, or educating in ways that foster progress and development. Do aspects of African identities and the challenges they present also hold prospects for more inclusive and peaceful democratic and representative futures? The contributors cover a wide spectrum of expertise on different African countries (Kenya, Nigeria, Ghana, Rwanda, Morocco, and Libya). They come from diverse disciplines (History, Political Science, Public Administration, Philosophy, Economics and Finance, Cultural Studies, Music, and International Relations), and use various methods and approaches in their research. Some contributors belong to the groups whose identity is being scrutinized and are participants in the efforts to politicize and mobilize, while others remain outside observers, who share some traits or interests with the African identities examined and provide different kinds of insights. Several
