the long walk online read: A Long Walk Home Judith Tebbutt, 2013-07-01 This is the story of how, over a period of one hundred and ninety-two days, I was torn away from the life I knew and loved, and dragged down to the depths of despair; of how I endured enforced isolation and near-starvation at the hands of Somali pirates; and of how I made a choice to survive by any and all means that I could muster. In September 2011 Judith Tebbutt and her husband David set out on an adventurous holiday to Kenya. A couple for thirty-three years, they had first met in Zambia: Africa had played a major part in their life together. After a joyous week on safari in the Masai Mara, they flew on to a beach resort forty kilometres south of Somalia. And there, in the early hours of 11 September, tragedy struck them. Judith was torn away from David by a band of armed pirates, dragged over sea and land to a village in the arid heart of lawless Somalia, and there held hostage in a squalid room, a ransom on her head. There, too, she learned the terrible truth that the responsibility of securing her release now rested with her son Ollie. But though she was isolated, intimidated and near-starved, Judith resolved to survive - walking endless circuits of her nine-foot prison, trying to make her captors see her as a human being, keeping her faith at all times in Ollie. Powerful, moving and at times quite devastating, this is Judith Tebbutt's story in her own words. It is a memoir of the life she shared with her beloved husband, an unflinching account of the ordeal that overturned her world, and a testament to the inner resilience and familial love that sustained her through captivity. There is nothing so bad in life as to have no hope - to believe you have been defeated, to give in to that. Now that I found myself in confinement, four thousand miles from home under a hostile sky, I would not accept that fate for myself.

It brings together empirical essays from various geographies including Israel, Italy, South Africa, Spain, Brazil, and India, to explore how gender constructs, religiosity, social support structures, ethical discourses, biases and toxicity weave into the digital fabric. While the digital space can build community and open up liberating possibilities, it also retains echoes of real-world social and gender dynamics. The absence of the physical body does not shield virtual spaces from deeply entrenched socio-cultural and political contexts. Through an exploration of different virtual platforms and digital apps like Facebook, WhatsApp, and Tinder among others, the book invites readers to contemplate the boundless

possibilities and pressing challenges that arise when gendered experiences converge with the infinite expanse of the virtual space(s). The chapters in this volume offer great analytical insights into these dynamics supported by well-surmised theoretical and methodological backdrops. The book will be of interest to practitioners of social sciences, especially those interested in issues of gender and identity politics as well as research in the digital or virtual space. It will also be a valuable resource for students and researchers of anthropology and sociology.

There, says Alice Hayward to Reverend Stephen Drew, just after her baptism, and just before going home to the husband who will kill her that evening and then shoot himself. Drew, tortured by the cryptic finality of that short utterance, feels his faith in God slipping away and is saved from despair only by a meeting with Heather Laurent, the author of wildly successful, inspirational books about . . . angels. Heather survived a childhood that culminated in her own parents' murder-suicide, so she identifies deeply with Alice's daughter, Katie, offering herself as a mentor to the girl and a shoulder for Stephen - who flees the pulpit to be with Heather and see if there is anything to be salvaged from the spiritual wreckage around him. But then the State's Attorney begins to suspect that Alice's husband may not have killed himself. . .and finds out that Alice had secrets only her minister knew. *Secrets of Eden* is both a haunting literary thriller and a deeply evocative testament to the inner complexities that mark all of our lives. Once again Chris Bohjalian has given us a riveting page-turner in which nothing is precisely what it seems. As one character remarks, "Believe no one. Trust no one. Assume all of our stories are suspect."

The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. This book offers a fresh perspective on self-help culture and popular psychology. Research on this subject matter has generally focused on the USA and the Global Northwest. In contrast, this book explores the production, circulation and consumption of self-help books from an innovative transnational perspective. Case studies on Trinidad, Mexico, the People's Republic of China, the UK and the USA explore the roles which self-help's therapeutic narratives of self and social relationships play in the contemporary world. In this context, the book questions the extent to which self-help fulfils its promise of individual autonomy and contentment. At the same time, it addresses debates about contemporary political change under transnational processes of cultural standardization.
