the long walk pdf: The Struggle Is Eternal Joseph R. Fitzgerald, 2018-12-14 Many prominent and well-known figures greatly impacted the civil rights movement, but one of the most influential and unsung leaders of that period was Gloria Richardson. As the leader of the Cambridge Nonviolent Action Committee (CNAC), a multifaceted liberation campaign formed to target segregation and racial inequality in Cambridge, Maryland, Richardson advocated for economic justice and tactics beyond nonviolent demonstrations. Her philosophies and strategies—including her belief that black people had a right to self-defense—were adopted, often without credit, by a number of civil rights and black power leaders and activists. *The Struggle Is Eternal: Gloria Richardson and Black Liberation* explores the largely forgotten but deeply significant life of this central figure and her determination to improve the lives of black people. Using a wide range of source materials, including interviews with Richardson and her personal papers, as well as interviews with dozens of her friends, relatives, and civil rights colleagues, Joseph R. Fitzgerald presents an all-encompassing narrative. From Richardson's childhood, when her parents taught her the importance of racial pride, through the next eight decades, Fitzgerald relates a detailed and compelling story of her life. He reveals how Richardson's human rights activism extended far beyond Cambridge and how her leadership style and vision for liberation were embraced by the younger activists of the black power movement, who would carry the struggle on throughout the late 1960s and into the 1970s.

the long walk pdf: The New Trail of Tears Naomi Schaefer Riley, 2016-07-26 If you want to know why American Indians have the highest rates of poverty of any racial group, why suicide is the leading cause of death among Indian men, why native women are two and a half times more likely to be raped than the national average and why gang violence affects American Indian youth more than any other group, do not look to history. There is no doubt that white settlers devastated Indian communities in the 19th, and early 20th centuries. But it is our policies today—denying Indians ownership of their land, refusing them access to the free market and failing to provide the police and legal protections due to them as American citizens—that have turned reservations into small third-world countries in the middle of the richest and freest nation on earth. The tragedy of our Indian policies demands reexamination immediately—not only because they make the lives of millions of American citizens harder and more dangerous—but also because they represent a microcosm of everything that has gone wrong with modern liberalism. They are the result of decades of politicians and bureaucrats showering a victimized people with money and cultural sensitivity instead of what they truly need—the education, the legal protections and the autonomy to improve their own situation. If we are really ready to have a conversation about American Indians, it is time to stop bickering about the names of football teams and institute real reforms that will bring to an end this ongoing national shame.

the long walk pdf: Conversations on Conflict Photography Lauren Walsh, 2020-09-08 In today's image-saturated culture, the visual documentation of suffering around the world is more prevalent than ever. Yet instead of always deepening the knowledge or compassion of viewers, conflict photography can result in fatigue or even inspire apathy. Given this tension between the genre's ostensible goals and its effects, what is the purpose behind taking and showing images of war and crisis? *Conversations on Conflict Photography* invites readers to think through these issues via conversations with award-winning photographers, as well as leading photo editors and key representatives of the major human rights and humanitarian organizations. Framed by critical-historical essays, these dialogues explore the complexities and ethical dilemmas of this line of work. The practitioners relate the struggles of their craft, from brushes with death on the frontlines to the battles for space, resources, and attention in our media-driven culture. Despite these obstacles, they remain true to a purpose, one that is palpable as they celebrate remarkable success stories: from changing the life of a single individual to raising broad awareness about human rights issues. Opening with an insightful foreword by the renowned Sebastian Junger and richly illustrated with challenging, painful, and sometimes beautiful images, *Conversations* offers a uniquely rounded examination of the value of conflict photography in today's world.

She led the Innu campaign against NATO's low-level flying and bomb testing on Innu land during the 1980s and '90s, and was a key respondent in a landmark legal case in which the judge held that the Innu had the "colour of right" to occupy the Canadian Forces base in Goose Bay, Labrador. Over the past twenty years she has led walks and canoe trips in nutshimit, "on the land," to teach people about Innu culture and knowledge. *Nitinikiau Innusi: I Keep the Land Alive* began as a diary written in Innu-aimun, in which Tshaukuesh recorded day-to-day experiences, court appearances, and interviews with reporters. Tshaukuesh has always had a strong sense of the importance of documenting what was happening to the Innu and their land. the long walk pdf: American History, Race and the Struggle for Equality Masaki Kawashima, 2016-12-16 Powerfully synthesizing major currents in the field, this book addresses the issue of inequality across American politics and society, using race as a lens for the exploration of major themes in American history. It considers the concept of race as a social construction, against the background of the historical struggles for "fairness" in a society based on the framework of democracy, whose principle is that majority's consent be necessary for the fulfillment of "justice." Foregrounding problems of race, capital, and political economy, it particularly examines the connections between race and class, the relationship of slavery and national politics, and the distinctive intellectual framework that Americans have developed to discuss "race." Offering a detailed account of civil rights legislation, an overview of immigration law and policy, and comprehensive overviews of debates about affirmative action, immigration, and the causes and solutions to racialized urban poverty, this book emphasizes what is distinctive about the United States and offers a unique comparative framework for thinking about America's racial past.

the long walk pdf: Restoring Relations Through Stories Renae Watchman, 2024-04-30 This insightful volume delves into land-based Diné and Dene imaginaries as embodied in stories—oral, literary, and visual. Like the dynamism and kinetic facets of hózhó,* Restoring Relations Through Stories takes us through many landscapes, places, and sites. Renae Watchman introduces the book with an overview of stories that bring Tsé Bit'a'í, or Shiprock Peak, the sentinel located in what is currently the state of New Mexico, to life. The book then introduces the dynamic field of Indigenous film through a close analysis of two distinct Diné-directed feature-length films, and ends by introducing Dene literatures. While the Diné (those from the four sacred mountains in Dinétah in the southwestern United States) are not now politically and economically cohesive with the Dene (who are in Denendeh in Canada), they are ancestral and linguistic relatives. In this book, Watchman turns to literary and visual texts to explore how relations are restored through stories, showing how literary linkages from land-based stories affirm Diné and Dene kinship. She explores the power of story to forge ancestral and kinship ties between the Diné and Dene across time and space through re-storying of relations. *A complex Diné worldview and philosophy that cannot be defined with one word in the English language. Hózhó means to continually strive for harmony, beauty, balance, peace, and happiness, but most importantly the Diné have a right to it.

the long walk pdf: A Modern History of Forgotten Genocides and Mass Atrocities Jeffrey S. Bachman, Esther Brito Ruiz, 2024-11-01 This is the first textbook of its kind to amass cases of genocide and other mass atrocities across the nineteenth, twentieth, and twenty-first centuries that

have largely been pushed to the periphery of Genocide Studies or “forgotten” altogether. Divided into four thematic sections – Genocide and Imperialism; War and Genocide; State Repression, Military Dictatorships, and Genocide; and Human-Caused Famine, Attrition, and Genocide – A Modern History of Forgotten Genocides and Mass Atrocities covers five continents, including case studies from Biafra, Yemen, Argentina, Russia, China, and Bengal. They range from the French conquest of Algeria in the mid-nineteenth century to the Yazidi genocide perpetrated by the Islamic State in Iraq and Syria between 2014 and 2017, and show that at times of rising authoritarianism, military conquest, and weaponization of hunger, lines between what is war and what is genocide are increasingly blurred. By including genocides and mass atrocities that are often overlooked, this volume is crucial to the ongoing debates about whether “this atrocity or that one” amounts to genocide. By including key points, events, terms, and critical questions throughout, this is the ideal textbook for undergraduate students who study genocide, mass atrocities, and human rights across the globe.

Monjurul Kabir, 2018-07-21 This book is based on experience and reflections related to international support provided to parliaments and legislative bodies both in selected countries (Afghanistan, Bangladesh, Ghana, Serbia, and Kyrgyzstan) and globally. The author intends to provide a critique of parliamentary support, as part of development assistance or foreign aid, for having been conceived in narrow terms of technical assistance and for failing to appreciate that aid effectiveness calls for a sound understanding of a country's politics, culture, and history. The monograph examines the effectiveness of aid in both stable democracies, and fragile and transition countries. The project is ideal for audiences interested in regional politics, the Middle East, Africa, South Asia, Central Asia, and development/democracy studies.

the long walk pdf: Finance & Development, September 2005 International Monetary Fund. External Relations Dept., 2005-09-16 This paper explores why increased aid flows require economic policymakers to confront some specific issues. Ensuring that increased aid promotes growth and reduces poverty is certainly the most important task. Empirical studies offer only mild support for aid-boosting growth. However, one study suggests that once one excludes the aid flows aimed at political and humanitarian goals, a positive net effect is observed for the remaining aid focused on economic objectives. This paper also outlines the roles to be played by development partners for making the aid being properly utilized for boosting growth.

the long walk pdf: South Africa Nancy L. Clark, William H. Worger, 2022-04-06 This new edition of South Africa examines the history of South Africa from 1948 to the present, covering the economic background to racial segregation, the introduction of the oppressive policy of apartheid, the eventual collapse of White supremacy, and the legacy of apartheid to the present day. Fully revised, the fourth edition incorporates new original research, particularly from the records of the Truth and Reconciliation Commission, and includes additional popular culture images, such as posters linked to the international anti-apartheid struggle. These help to further emphasise the mounting popular opposition to state repression in the 1970s and 1980s. By developing an analysis of recent economic and political issues that are rooted in the apartheid regime, particularly the continuing divide between rich and poor along racial lines and the impact of public corruption known as 'state capture', South Africa provides a current, clear, and succinct introduction to the ideology and practice of apartheid. Illustrated with photographs, maps, and figures, and including a Chronology, Glossary, Who's Who, and updated Further Reading section, the fourth edition of South Africa is an essential text for students studying all aspects of apartheid in South Africa.
