the eye of minds download: Downloads from the Gray Matter James Lawler, 2017-01-06 This book contains a collection of short stories, my labor of love; I've honed to my satisfaction. There's love stories, mystery stories, humorous stories and I'm sure that some of the content will bring a tear to the reader's eye. During my life-time I've seen much violence and corruption which I have attempted to tone down by humanizing in my writings, to remove the ugliness, or at least make light of it and in some instances turn it into humor. Life isn't all glamour, it's not simple, it's complicated; nor is life predictable. Life is harsh and sometimes we have no control over events in our lives. When I'm stressed out I pick up a book and escape. Part of me is incorporated in my writing, as is with many writers. I've attempted to suspend reality by creating a respite, an escape a safe place for the reader to get away from it all. Open the cover and read, weep and enjoy.

the eye of minds download: Gary W. Babb, 2006-03-01 *Earth is Ours*. is a fresh and uniquely original story line that bridges many genres. It is a story of a symbiotic relationship between a self-aware female computer and an American Indian man dying of old age. This is a forced relationship dictated by mutual needs for survival in a world stripped of technology by aliens. The main characters begin the fight of their lives, but before they can fight the fierce aliens, Levi and Amy must fight for control of who they will be jointly. What begins as conflict of minds, develops into tolerance, then cooperation and finally love. This love of total oneness creates a unity of incredible power and strength that provides the means to fight the aliens. Female brains and male brawn unite to battle against incredible odds for the survival of the human race. The conflict of minds, action, adventure and suspense are all interlaced into a compelling and fast paced adventure. The characters are three dimensional with real emotions, not always perfect, but always interacting. The story is presented from differing viewpoints with the two main characters expressing some of the same events from both a male and female perspective. As they interface, the events are often seen from conflicting emotions and motivations; sometimes cynical and often humorous. It is the ultimate struggle of male versus female while combating monstrous aliens. As expected, this action story has a strong appeal to men, while the romance aspect compliments the story expanding the appeal to women. Additionally, one of the main characters is Amy, a particularly, brilliant and forceful female who demands attention from both sexes. Her male counterpart is very physical and masculine, representing everything Amy is not. Both characters and sexes are presented in a positive although conflicting way at times. These characters, and the story, are strong and their saga continues in its sequel *Target Earth*.

As EFT Tapping removes energy blocks, corrects the energy flow, resulting in removal of negative emotions, thoughts, feelings; the person can then place positive, constructive thoughts into the mind, system; think, feel in a positive, constructive way about the past or present stressful event. Positive thoughts, emotions help to correct and strengthen the body's energy flow. Correct energy flow is now maintained. Mental and physical health improve, eye function returns to normal, eyesight is 20/20 and clearer at all distances, close and far. Health of body organs, systems improve as energy flows correct throughout the body. EFT improves the function of the brain, visual cortex, left and right brain hemisphere activation, integration. Dr. Bates recorded 11 years of work in his Clinic, his patients eye conditions and the natural treatments he applied to correct their eyesight in his Better Eyesight Magazine. Hundreds of different Natural Treatments are listed. The magazines contain 'True Life Stories' of the Doctors, Assistants, Patients. Entertaining. A History book, life in the early 1900's. The Bates Method was hidden from the public by Eye Surgeons, Optometrists, Optical Businesses for over 100 years because this method works, is easy, anyone can learn, teach it, including children. When Dr. Bates cured the eyes, eyesight of many patients and other eye doctors in the hospital where he worked with natural treatment and proved his method is fact, that some of the old theories of eye function are incorrect, only theories; the eye doctors that preferred to sell eyeglasses, surgery, drugs became angry and expelled him. (See: 'Reason and Authority' & 'Dr. Bates Lecture' in Better Eyesight Magazine; November, 1919, April, 1923.) Dr. Bates then opened his own office, a Clinic New York City. He treated thousands of people by natural methods. He kept his price for medical treatment low and also provided no charge office visits 'Free Clinic Days' for people that could not afford to pay for a visit to an Ophthalmologist. His treatments were successful. He cured a variety of eye conditions in the young and old, people of all ages, nationalities. The Bates Method is so simple and effective that many of his cured patients, 'often children' went on to cure their friends, family, teachers and other children of defective vision including blindness, crossed, wandering eyes. Read the 'True Story of The two Little Girls that Restored a Blind Mans Eyesight' in the Oct., 1925 Magazine Issue.

the eye of minds download: *The Mind's Interaction with the Laws of Physics and Cosmology* Jeffrey S Keen, 2019-01-14 This ground-breaking book is about the emerging academic and practical study of subtle energies, which historically, have not been easy to detect. The unique experiments, numerous measurements, and resulting data presented here, have been collected over 30 years of research. The findings have resulted from pioneering discoveries leading to equations, graphs, universal constants, formulae, and laws of nature that eventually connect to cosmology, and the structure of the universe. The book proves, with high scientific and mathematical precision, that consciousness involves more than just the brain, but actually depends on the very fabric of the universe. Some of the discoveries prove that certain information can be communicated across the solar system, not only faster than light, but instantaneously. The book deals with the entanglement of large objects, and the fact that the cosmos possesses a universal consciousness. Also shown is that the mind can detect information from the outer planets, and identifies connections to a five dimensional universe and the mysterious, recently discovered dark energy. This text will be of interest to the considerable number of people worldwide involved in similar studies. These include researchers at universities and colleges currently or wishing to teach and develop this up-and-coming subject, non-professionals, and members of relevant academic societies.

Written by renowned and established iridologist Peter Jackson-Main, this expertly conceived book provides a ground-breaking methodological model of how the iris might be used to understand the energetic, psychological and emotional attributes of a person. The analysis presented in *The Mind's Eye* places energy as the central aspect of an individual's reality. It argues that the physical body is an extension of such energy in the physical realm: a map of one's intentions in manifesting as a physical being. Jackson-Main situates the irises as this map, which when studied will allow true depth understanding of the human body. The book begins with a brief examination of the epistemological foundations of accepted theory and practice in medicine and healing. It continues as a journey, exploring the development of iris analysis throughout the twentieth century, including information on the possibility of heritable personality traits seen in the iris. Jackson-Main then provides his own perspectives on iris analysis, in a manner which is accessible for both practitioners, and any lay-person looking to learn more about themselves. The book also contains a comprehensive guide to completing an 'energetic' iris chart, and suggested exercises of practice. Not only is *The Mind's Eye* an indispensable guide for any health practitioners wishing to incorporate behavioural iridology to into their work, but it is also an invitation for all humans to embark on a deeply symbolic journey of self-discovery initiated through the marvels of the eye.

Aided by their own self-destructive nature, humans become an endangered species. In the near future a trio of events shape a perfect storm, altering life on Earth forever. A corrupt agreement with the Mexican bureaucracy gives North America mining rights to an extinct volcano in Tlaxcala, which they claim to use as a radioactive waste storage site. Instead, the greatest technological achievement in the history of man, *Esperanza*, is built inside. *Esperanza* is a starship designed to carry seedlings of the richest 1% to the closest exoplanet. A small, covert military alien population known as, *The Collective*, are stationed on Earth. For many years they've been waiting patiently for humans to annihilate themselves so that they can use Earth as a staging ground to conquer other (more important) planets. *The Collective* considers humans as parasitic—cattle to be driven into the slaughterhouse. Earth will make a suitable place for soldiers to take R&R. A brilliant, unhinged, computer software engineer facilitates the domino effect when he invents a drinkable nanochip, linking users to the Internet with a blink of an eye. The chip is engineered so that, with time, users can't disconnect, resulting in unimaginable horrors. After the damage is done, a few amazing survivors are left to fight against the alien presence. *Seedlings*, is beautifully written, begging the question: Can we overcome our self-indulgent ways to become truly human again?
