teaching strategies gold login: Connect and Involve Robert J. Martin, 2020-09-15 Connect and Involve: How to Connect with Students and Involve Them in Learning is a practical handbook of strategies and procedures for teaching at all grade levels—elementary, middle, and high school. The secret to increasing teaching effectiveness is to make small changes in what teachers think and do—and to get their students to make small changes in what they think and do. Every time teachers connect with students and involve them in learning, teachers engage them in powerful ways that make it more likely that they will choose to learn and to do quality work. This book shows how to be a more effective teacher through small changes in planning and classroom procedures. Each chapter focuses on a key strategy, and each chapter head and its subheads are an outline of how to put the strategy into practice. Teachers can preview all the ideas by reading the chapter titles, heads, and subheads. There are no prescriptions here; teachers bring their expertise on the age group, the subjects they teach, and the big ideas and key skills students need to achieve on high-stakes testing. The strategies and procedures provide ways for teachers to evaluate where small changes can make a difference in achievement for their students.

teaching strategies gold login: Essential Evidence-Based Teaching Strategies Garry Hornby, Deborah Greaves, 2022-07-18 This book examines evidence-based practices that facilitate effective teaching to ensure optimum educational achievement for school-age students. It identifies key strategies with extensive research evidence that confirms their effectiveness in improving student outcomes. The book offers guidelines for teachers to use in distinguishing between strategies that are evidence-based and those with little or no supporting evidence. It describes common instructional strategies often found in schools despite having little evidence to support their effectiveness. In addition, the book identifies eight key evidence-based teaching practices that can be directly implemented by classroom teachers, reviews the theoretical and research base of each of these strategies, and provides guidelines for special and general education teachers on how to apply them most effectively, with links to video examples of their use in classrooms. The text also examines common barriers to the use of evidence-based practices in schools. It explores implications for teacher education, focusing on training educators to identify and implement evidence-based strategies effectively, avoiding those lacking evidence, even if they are popular in schools. Essential Evidence-Based Teaching Strategies is a must-have resource for researchers, professionals, and graduate students in educational psychology, child and school psychology, and social work who are interested in learning about and implementing effective teaching methods that improve student engagement and academic achievement, strengthen social-emotional learning, and reduce school dropout rates.

teaching strategies gold login: Disrupting and Countering Deficits in Early Childhood Education Fikile Nxumalo, Christopher P. Brown, 2019-08-15 This powerful edited collection disrupts the deficit-oriented discourses that currently frame the field of early childhood education (ECE) and illuminates avenues for critique and opportunities for change. Researchers from across the globe offer their insight and expertise in challenging the logic within ECE that often frames children and their families through gaps, risks, and deficits across such issues as poverty, language, developmental psychology, teaching, and learning. Chapters propose practical responses to these manufactured crises and advocate for democratic practices and policies that enable ECE programs to build on the wealth of cultural and personal knowledge children and families bring to the early learning process. Moving beyond a dependence on deficits, this book offers opportunities for scholars, researchers, and students to consider their practices in early education and develop their understanding of what it means to be an educator who seeks to support all children.

teaching strategies gold login: Leseförderung im Leseteam in der Grundschule Meike Munser-Kiefer, 2014 Leseförderung ist durch internationale Schulleistungstests verstärkt in den Fokus gerückt. Allerdings fehlt es gerade für die Grundschule an umfassenden Trainingsprogrammen, die dem heterogenen Leistungsvermögen und den speziellen Lernbedürfnissen der Grundschul Kinder gerecht werden. Deshalb entstand am Institut für Grundschulforschung (FAU) das Programm 'Lesen im Leseteam trainieren', dessen Entwicklung und Evaluation Gegenstand dieses Bandes ist. Das Programm zielt sowohl auf Lesefertigkeit (Methode: Repeated Reading) als auch auf Leseverständnis (Methode: Lesestrategien mit Reciprocal Teaching). Entsprechend wird die Lesekompetenz und ihre Förderung im interdisziplinär angelegten

Theorieteil von der Wort- bis zur Textebene beleuchtet - mit dem Ziel, folgende Fragen zu beantworten: Wie funktioniert Lesen und Leseverstehen? Wie verhält sich der kompetente Leser? Wie lässt sich kompetentes Leseverhalten fördern? Im empirischen Teil werden die quantitativen Daten der Evaluation mit Propensity Score-Matching und -stratifizierung analysiert, so dass die Wirksamkeit des Trainings auf Schüler unterschiedlicher Leistungsfähigkeit sichtbar wird. Ergänzend zeigt eine qualitative Inhaltsanalyse videographierter Daten, wie Grundschüler die vermittelten Lesestrategien einsetzen und dass auch leseschwache Kinder im Grundschulalter lernen können, ihr Leseverstehen zu überwachen und zu regulieren. Meike Munser-Kiefer (geb. 1973) studierte an der Friedrich-Alexander-Universität Erlangen-Nürnberg Lehramt für Grundschulen, unterrichtete fünf Jahre in der Grundschule und ist seitdem Akademische Rätin am Institut für Grundschulforschung (FAU). Dort initiierte sie zusammen mit Kollegen das Forschungsprojekt Leseprofi im Leseteam. Das dabei entstandene Programm Lesen im Leseteam trainieren erhielt 2008 den Preis 'Forschung innovativ' (BLLV). Für ihre Promotion im Rahmen des Projekts bekam sie 2011 den 'Aloys-Fischer-Preis für Grundschulforschung' (DGfE). Ihre Arbeitsschwerpunkte liegen in den Bereichen Grundschulpädagogik, Schriftspracherwerb/Leseförderung, Sachunterricht sowie Persönlichkeitsförderung.

teaching strategies gold login: The SAGE Encyclopedia of Contemporary Early Childhood Education Donna Couchenour, J. Kent Chrisman, 2016-03-15 The general public often views early childhood education as either simply babysitting or as preparation for later learning. Of course, both viewpoints are simplistic. Deep understanding of child development, best educational practices based on development, emergent curriculum, cultural competence and applications of family systems are necessary for high-quality early education. Highly effective early childhood education is rare in that it requires collaboration and transitions among a variety of systems for children from birth through eight years of age. The SAGE Encyclopedia of Contemporary Early Childhood Education presents in three comprehensive volumes advanced research, accurate practical applications of research, historical foundations and key facts from the field of contemporary early childhood education. Through approximately 425 entries, this work includes all areas of child development - physical, cognitive, language, social, emotional, aesthetic - as well as comprehensive review of best educational practices with young children, effective preparation for early childhood professionals and policy making practices, and addresses such questions as: · How is the field of early childhood education defined? · What are the roots of this field of study? · How is the history of early childhood education similar to yet different from the study of public education? · What are the major influences on understandings of best practices in early childhood education?

teaching strategies gold login: *Principals as Early Learning Leaders* Julie Nicholson, Helen Maniates, Serene Yee, Thomas Williams, Veronica Ufoegbune, Raul Erazo-Chavez, 2022-01-27 The majority of public school principals are now required to supervise and evaluate early childhood teachers and classrooms, yet many do not have a sufficient understanding of child development and early childhood pedagogy to lead for equity. This practical and comprehensive resource addresses this critical gap by presenting current research on child development, an understanding of the elements of high-quality early childhood classrooms, essential information on trauma-responsive practices, and strategies for reducing bias and preventing the use of exclusionary discipline with young children. School leaders learn about the pivotal role they can play in improving equity for young children, their families, and the early childhood workforce. Each chapter includes key take-aways and central questions that can be used for individual reflection or to guide group discussions. Authentic examples, illustrations, and actionable strategies help readers to successfully implement the content in their school. *Principals as Early Learning Leaders* is essential reading for principals, vice principals, administrators, and others responsible for leading preschool and pre-K programs for equity. Book Features: Supports elementary school principals to better understand the role early education plays in their school. Addresses essential issues of equity in all aspects of early learning programs that require focus and leadership. Provides current research and practical strategies that principals can put into practice immediately to be effective instructional leaders.

Uses authentic examples and vignettes throughout to help readers see the ideas in the context of real preschool classrooms. Includes reflection questions and key takeaways to help principals think about how the information presented can inform the work they do.

teaching strategies gold login: *Early Childhood Education* Gina Coffee, Corey E.

Ray-Subramanian, G. Thomas Schanding, Jr., Kelly A. Feeney-Kettler, 2013-03-05 In the past several years, models of multi-tiered service delivery have emerged as a framework for supporting the needs of school-aged children in schools across the country and have received much attention in scholarly publications of education and related fields. Despite the needs of young children and the promise of early intervention, however, models of multi-tiered service delivery are only in the beginning stages of development in early childhood education settings such as preschools. This text provides early-childhood professionals with an introduction to tiered service delivery and practical considerations in the implementation of a multi-tier system of supports with particular emphasis on early childhood law and ethics, assessment and intervention, developmental disabilities, and family engagement.

teaching strategies gold login: Pivotal Research in Early Literacy Christina M. Cassano, Susan M. Dougherty, 2018-07-19 This reader-friendly text examines the key foundational studies in early literacy. It addresses such essential questions as how research informs current practices and where the field still needs to go to provide the best learning opportunities for all children. Each chapter describes the methods and findings of one to five seminal studies, critically assesses their long-term impact on practice and policy, and offers takeaways for the classroom. Leading authorities—including several authors of the original pivotal studies—cover 12 essential aspects of language development, literacy development, and home and community literacy experiences in PreK-2.

teaching strategies gold login: Multiple Pathways to the Student Brain Janet Zadina, 2014-06-09 From an award-winning neuroscience researcher with twenty years of teaching experience, *Multiple Pathways to the Student Brain* uses educator-friendly language to explain how the brain learns. Steering clear of “neuro-myths,” Dr. Janet Zadina discusses multiple brain pathways for learning and provides practical advice for creating a brain-compatible classroom. While there are an abundance of books and workshops that aim to integrate education and brain science, educators are seldom given concrete, actionable advice that makes a difference in the classroom. *Multiple Pathways to the Student Brain* bridges that divide by providing examples of strategies for day-to-day instruction aligned with the latest brain science. The book explains not only the sensory/motor pathways that are familiar to most educators (visual, auditory, and kinesthetic), it also explores the lesser known pathways—reward/survival, language, social, emotional, frontal lobe, and memory/attention—and how they can be tapped to energize and enhance instruction. Educators are forever searching for new and improved ways to convey information and inspire curiosity, and research suggests that exploiting different pathways may have a major effect on learning. *Multiple Pathways to the Student Brain* allows readers to see brain science through the eyes of a teacher—and teaching through the eyes of a brain scientist.

teaching strategies gold login: Transforming Early Head Start Home Visiting Bridget A. Walsh, Jennifer A. Mortensen, 2019-10-29 Research on home visiting shows that Early Head Start (EHS) home-based programs benefit from additional training and resources that streamline philosophy and content. In this essential guide, Walsh and Mortensen propose that alignment with Family Life Education’s (FLE) strengths-based methodology results in greater consistency through a model of prevention, education, and collaboration with families. This text is the first to outline linkages between FLE and EHS home visiting. It explores a qualitative study of FLE integrated in a current EHS home-based program and application of FLE methodology to home visiting topics. This approach will influence professional practice and provide a foundation for developing evidence-based home visiting practices. Online content accompanies the text, with videos demonstrating the FLE approach in action and discussion questions to encourage engagement with and understanding of the core material. *Transforming Early Head Start Home Visiting: A Family Life*

Education Approach is essential reading for upper-level undergraduate and masters students in family studies and early childhood education, as well as practitioners working with children and families.

teaching strategies gold login: The All-Day Kindergarten and Pre-K Curriculum Doris Pronin Fromberg, 2012-03-22 Grounded in theory and research, The All-Day Kindergarten and Pre-K Curriculum provides an activity-based and classroom-proven curriculum for educators to consider as they plan and interact with pre-k and kindergarten children. Allowing young children the opportunities to become independent, caring, critical thinkers who feel comfortable asking questions and exploring possible solutions, the Dynamic Themes Curriculum offers children the skills they need for responsible citizenship and academic progress. This book describes a culturally-sensitive pre-k and kindergarten curriculum in the context of literacy, technology, mathematics, social studies, science, the arts, and play, and also discusses: How to use the seven integrated conditions for learning to meet and exceed content learning standards How to organize for differentiated instruction and to integrate multiple forms of assessment How to teach literacy tools and skills in fresh ways How to work with families, colleagues, and community Building off of author Doris Fromberg's groundbreaking earlier work, The All-Day Kindergarten and Pre-K Curriculum presents a practical curriculum centering on how young children develop meanings. This is a fantastic resource for pre-and in-service early childhood teachers, administrators, and scholars.

teaching strategies gold login: Fidelity of Implementation in Assessment of Infants and Toddlers Angela Stone-MacDonald, Lianna Pizzo, Noah Feldman, 2018-03-10 This book examines the challenges in developmental assessment of infants and toddlers and provides best practices for implementing standardized assessments in early intervention settings. It starts with an overview of standardized assessment practices and discusses how specific tools can be used in early intervention for different purposes (e.g., eligibility for services). The book explains the importance of the Fidelity of Implementation of Assessment (FOI-A) approach in creating standardized assessment for infants and toddlers. Chapters provide a checklist-based framework for FOI-A, with details on technological supports for test administration and data collection as well as training and supervision models. In addition, chapters discuss ways of engaging families, gaining their trust, and including them in their children's educational planning. Topics featured in this book include: The Battelle Development Inventory, 2nd Edition (BDI-2) and its use in the assessment of young children. Using checklists to improve fidelity of implementation for standardized assessments. Using checklists to support early intervention directors and teams. How to provide feedback to early interventionists and other professionals on FOI-A. Recommendations to improve FOI-A. Fidelity of Implementation in Assessment of Infants and Toddlers is a must-have resource for researchers, clinicians and related professionals, and graduate students in varied fields including child and school psychology, pediatrics, social work, behavioral therapy, infant and early childhood development, and early education and care.

teaching strategies gold login: Teaching Strategies - Grades 3-4. Master Curriculum Guide in Economics. Teacher Resource Manual [and] Student Activities Cynthia Lieb, Cynthia Samuel, Robert Lee Stout, 1994 This teacher resource manual for 3rd-and 4th-grade student's uses a wide variety of instructional activities for teaching economics education. The activities include role playing in small groups, producing bookmarks, and making decisions. Students are given the opportunity to interview adults, perform services for their families, do independent research, conduct experiments, and perform in skits. As a class they participate in a trading activity, engage in a classroom competition, and take part in a simulation. Discussion, reading, and writing clarify and reinforce the concepts that the activities are designed to teach. The manual contains 15 step-by-step lesson plans and reductions of the student pages for quick reference. Performance outcomes, a planning chart, and a 57-term glossary also are included. The companion student activities manual contains 39 supporting activities. The pages include family letters, scripts, activity cards, patterns, and a variety of other classroom materials in blackline master form. (LB)
