**tara westover education book download: Why Are You Still Sending Your Kids to School?** Blake Boles, 2020-05-19 For some kids, school offers a positive and engaging experience. For others, it's a boring, stressful, and frustrating waste of time. If your child is in the second

category, why keep tormenting them? Instead, why not help them find an educational environment where they feel genuinely motivated, excited, and empowered? In this eye-opening book, Blake Boles makes the case for leaving conventional school and taking one of the many alternative paths through K-12 that exist today. He addresses parents' major concerns about unconventional education -- Can my kids still go to college? Will they still be employable? How will they learn to work hard? -- while highlighting the hidden benefits of self-directed learning, such as improved parent-child relationships, a more balanced decision-making process regarding college, and a heightened sense of autonomy and connection. Drawing upon 15 years of work as a mentor and guide for adolescents in alternative and experiential learning environments -- as well as his own unconventional life path -- Boles weaves together narrative, theory, and research to build a powerful argument for granting children unusual levels of freedom and responsibility.

Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Both are naive risk-takers. I loved this book!” —Temple Grandin, author of *Animals Make Us Human* and *Animals in Translation* A revelatory investigation of human and animal adolescence and young adulthood from the New York Times bestselling authors of *Zoobiquity*. With *Wildhood*, Harvard evolutionary biologist Barbara Natterson-Horowitz and award-winning science writer Kathryn Bowers have created an entirely new way of thinking about the crucial, vulnerable, and exhilarating phase of life between childhood and adulthood across the animal kingdom. In their critically acclaimed bestseller, *Zoobiquity*, the authors revealed the essential connection between human and animal health. In *Wildhood*, they turn the same eye-opening, species-spanning lens to adolescent young adult life. Traveling around the world and drawing from their latest research, they find that the same four universal challenges are faced by every adolescent human and animal on earth: how to be safe, how to navigate hierarchy; how to court potential mates; and how to feed oneself. Safety. Status. Sex. Self-reliance. How human and animal adolescents and young adults confront the challenges of wildhood shapes their adult

destinies. Natterson-Horowitz and Bowers illuminate these core challenges through the lives of four animals in the wild: Ursula, a young king penguin; Shrink, a charismatic hyena; Salt, a matriarchal humpback whale; and Slavic, a roaming European wolf. Through their riveting stories—and those of countless others, from adventurous eagles and rambunctious high schooler to inexperienced orcas and naive young soldiers—readers get a vivid and game-changing portrait of adolescent young adults as a horizontal tribe, sharing behaviors and challenges, setbacks and triumphs. Upending our understanding of everything from risk-taking and anxiety to the origins of privilege and the nature of sexual coercion and consent, *Wildhood* is a profound and necessary guide to the perilous, thrilling, and universal journey to adulthood on planet earth.

I

know I should move my body more, but... I'm on my feet all day for work and I'm exhausted! I'm addicted to my phone. I'm great at starting movement programs, just lousy at sticking with them. My body jiggles and embarrasses me in public. Movement is sooooo boring! Sound familiar? If not, it probably means you have another perfectly good excuse of your own. We all have our reasons for not getting the physical activity we know is good for us—reasons which stubbornly defy the same old tired prescriptive advice about hours of weekly cardio or numbers of steps. Adding insult to injury, these same excuses contribute to you feeling bad or guilty when you fail to move as much as you know you “should.” That’s why Diana Hill and Katy Bowman have put together this simple guide to changing the way you think to change how much you move. Diana is a modern psychologist, expert in Acceptance and Commitment Therapy (ACT), and host of the Wise Effort podcast. Her mission is to help her clients and readers grow the psychological flexibility needed to get moving in directions that matter to them. Katy is a biomechanist, author, and trailblazing movement teacher who has spent a career helping people integrate more movement into their lives. In *I Know I Should Exercise, But...*, the two join forces to help you challenge your barriers to movement in a new way. Katy translates her understanding of the obstacles that keep people sedentary—including dozens of real-world examples from readers and clients—into 44 essential impediments to movement. Diana responds to those common barriers, while introducing you to acceptance and commitment therapy (ACT), behavioral psychology, and self-compassion: evidence-based approaches for cultivating flexibility and aligning actions with values. Whether your internal barrier is born of fear, malaise, inertia, embarrassment, or difficulty managing competing priorities, you will learn how to disempower it by applying effective science-based tools for changing the way you think. You’ll learn to identify your resistance—whether it’s an unhelpful thought, a misplaced motivation, or a contextual barrier—and respond wisely and effectively, using tools and techniques that can be applied to other areas of your life as well, including: urge surfing motivational interviewing behavioral stretching strengthening your acceptance muscle This is a must-have book for anyone struggling with the mental barriers to moving more and an essential resource for personal trainers, fitness instructors, and mental health professionals wanting to better connect with their clients. Stretch your mind, connect with what is truly important to you, and stop talking yourself out of the movement you need!

**tara westover education book download: Mindset Matters** Daniel R. Porterfield, 2024-06-25 How colleges can foster growth mindsets among students—and why this approach matters. We live in an era of escalating, tech-fueled change. Our jobs and the skills we need to work and thrive are constantly evolving, and those who can't keep up risk falling behind. That's where college comes in. In *Mindset Matters*, Daniel R. Porterfield advances a powerful new argument about the value of residential undergraduate education and its role in developing growth mindsets among students. The growth mindset, according to Porterfield, is the belief that we can enhance our core qualities or talents through our efforts, strategies, and education, and with assistance from others. People with growth mindsets have faith in self-improvement. They tend to be goal oriented and optimistic, confident that they can master new challenges because they've done so in the past. Feedback is their friend, errors their opportunities to begin again. For students like this, college is a multiyear process of self-creation and self-emergence, a becoming that unfolds because they are applying themselves in a place rich with stimulating people, happenings, resources, and ideas. America's colleges and universities help students build the skills and self-confidence they need for lifelong discovery, creativity, mentorship, teamwork, and striving. These five mindsets, the book argues, are critical for thriving in disruptive times, and students who develop them will reap the rewards long after they graduate. To show how college activates these mindsets and why it matters, Porterfield shares the personal stories of thirty recent graduates—many the first in their families to attend college. Their growth was both self-powered and supported by involved faculty, engaged peers, and opportunity-rich campuses. Porterfield also outlines how colleges and universities can do more to foster cultures of mentoring and personalized learning that help students become leaders of their own learning.

**tara westover education book download: People, Places, and Belonging** William Marsiglio, 2025-01-31 Place matters – for good and bad. Infinitely diverse in form, place embodies the action settings where social life happens. Often fighting to preserve a sense of group belonging in the process, we design places to reflect our values and interests. With an eye on our rapidly changing world, *People, Places, and Belonging* explores how social realities at every level are affected by the places we collectively forge across various social domains. The book shows how place-related circumstances can promote personal empowerment, civic engagement, and social and environmental justice. Discussing places that affect personal and social well-being, including homes, communities, vehicles, and the metaverse, William Marsiglio illustrates how a web of social processes involving claims, attachments, rituals, and transitions (CART) structure our experiences in place. The author argues that we can use decision-making principles to enhance our attachments, encourage supportive rituals, smooth out transitions, and manage claims with less conflict and more social justice. Armed with a heightened place consciousness and ethical principles, *People, Places, and Belonging* ultimately posits that we must individually and collectively build places that enrich our lives, celebrate the communal spirit, and foster social equity and ecological justice.

**tara westover education book download: FIGHT SONG** Peter Woan, 2024-02-22 Every nation's past is prologue to its present, and every nation's story unfolds in its own way. In this book, a native Englishman and long-time resident of the United States, proposes four defining narratives that have helped fashion the nation's progression toward "becoming America." • westward expansion, and a fascination for the moving frontier; • hunger for land, reflected in national expansion through nineteenth-century geopolitical acquisitions, and the desire of individual Americans to grab their own piece of territory, leading to the iconic Homestead Act of 1862; • the land-grant college movement, culminating in Justin Morrill's 1862 landmark legislation, representing a shift away from higher education dominated by religious imperatives to a more secular model, with significant state sponsorship; • the GI Bill of Rights, enacted in 1944 for servicemen and women returning from WW II, and which provided (among other benefits) a free college education for millions of veterans. These four themes are brought together through the uniquely American phenomenon of college football.

Renowned writer Dr. Helen Sairany, drawing from her own harrowing experiences as a Kurdish child amidst the turmoil of war-torn Iraq, sheds light on how early emotional wounds, if left unaddressed, can subtly yet significantly shape our beliefs, behaviors, and career trajectories. In this groundbreaking book, Dr. Sairany interweaves her personal narrative with scientific research and psychological insights, presenting complex emotional concepts in an accessible manner. Through compelling stories, she unveils the “invisible scars” that many carry—scars that often manifest as self-doubt, anxiety, and even self-sabotage. By bringing these hidden wounds into the light, Dr. Sairany encourages readers to recognize the profound impact of their past experiences on their present lives. Childhood Baggage is particularly valuable for professionals who may outwardly display success yet grapple with internal struggles that hinder their true potential. This book is an essential resource for individuals seeking clarity and healing, providing practical strategies that empower them to confront their past traumas. Dr. Sairany guides readers through the challenging yet rewarding journey of self-discovery, equipping them with the tools to articulate their experiences and release the emotional burdens that impede growth. Moreover, this work transcends personal healing; it serves as a compelling call to action for organizations to embrace trauma-informed practices within the workplace. Dr. Sairany advocates for the creation of environments that prioritize resilience and inclusivity, urging leaders and colleagues alike to cultivate a culture of empathy. By breaking down the stigma surrounding trauma, she inspires readers to not only heal themselves but to contribute to a community that supports healing as a whole. Join Dr. Sairany on this essential exploration of the intersections between childhood baggage and adult professional life. Discover the pathways to embracing your authentic self, transforming your work environment, and fostering deeper connections with those around you. With compassion, understanding, and actionable insights, Childhood Baggage empowers you to unlock your true potential and pave the way for a more fulfilling and resilient life.

**tara westover education book download: The Overlooked Americans** Elizabeth Currid-Halkett, 2023-06-06 How small-town America's surprising success reshapes our

understanding of the nation's urban-rural divide, offering "the most balanced and broadest-ranging look at the topic" (Tyler Cowen, George Mason University). The Next Big Idea Club 2023 Must Read Book We are frequently told rural America is in crisis. According to many journalists, academics, and politicians, our small towns have been hollowed out by lost jobs, and residents have turned to opioids and right-wing extremism to cope with their pain and resentment. In fact, many rural towns are thriving. Commentators have fixated on the steep decline of one region—Appalachia—and overlooked the millions of rural Americans who are succeeding in the heartland. In *The Overlooked Americans*, public policy expert Elizabeth Currid-Halkett reveals that rural America has not been left behind the rest of the nation but instead is surprisingly successful. Drawing on deep research, including data and in-depth interviews, she traces how small towns are doing as well as, or better than, cities by many measures, including homeownership, income, and employment. She also shows how rural and urban Americans share core values, from opposing racism and upholding environmentalism to believing in democracy. Looking everywhere from Missouri to Minnesota to her hometown of Danville, Pennsylvania, Currid-Halkett ultimately reveals that the nation is less fractured by geography than many believe. This is an urgent appeal for Americans to reconnect across a rural-urban divide that isn't so wide after all.

David Lammy 'A moving, shocking and clear-eyed account of the increasingly rare phenomenon of social mobility. Using his own extraordinary story as a spine [Hashi Mohamed] has written an analysis, how-to-guide and polemic on getting on and up in Britain today.' - Grayson Perry 'Beautifully written and powerfully argued, *People Like Us* is essential reading' The Secret Barrister What does it take to make it in modern Britain? Ask a politician, and they'll tell you it's hard work. Ask a millionaire, and they'll tell you it's talent. Ask a CEO and they'll tell you it's dedication. But what if none of those things is enough? Raised on benefits and having attended some of the lowest-performing schools in the country, barrister Hashi Mohamed knows something about social mobility. In *People Like Us*, he shares what he has learned: from the stark statistics that reveal the depth of the problem to the failures of imagination, education and confidence that compound it. We live in a society where the single greatest indicator of what your job will be is the job of your parents. Where power and privilege are concentrated among the 7 per cent of the population who were privately educated. Where, if your name sounds black or Asian, you'll need to send out twice as many job applications as your white neighbour. Wherever you are on the social spectrum, this is an essential investigation into our society's most intractable problem. We have more power than we realise to change things for the better.

**tara westover education book download:** [Writing Manuals for the Masses](#) Anneleen Masschelein, Dirk de Geest, 2020-12-15 This open access collection of essays examines the literary advice industry since its emergence in Anglo-American literary culture in the mid-nineteenth century within the context of the professionalization of the literary field and the continued debate on creative writing as art and craft. Often dismissed as commercial and stereotypical by authors and specialists alike, literary advice has nonetheless remained a flourishing business, embodying the unquestioned values of a literary system, but also functioning as a sign of a literary system in transition. Exploring the rise of new online amateur writing cultures in the twenty-first century, this collection of essays considers how literary advice proliferates globally, leading to new forms and genres.
