teen romance novels online: Inclusive Young Adult Fiction Melanie Ramdarshan Bold, 2019-01-04 This book examines 'diversity', or the lack thereof, in young adult fiction (YA) publishing. It focuses on cultural hegemony in the United Kingdom and explores how literary culture aimed at young adults reproduces and perpetuates 'racial' and ethnic cultural hierarchies. Diversity is described by the We Need Diverse Books project as 'all diverse experiences, including (but not limited to) LGBTQIA, Native, people of color, gender diversity, people with disabilities, and ethnic, cultural, and religious minorities'. This study focuses on people of colour. While previous studies have looked at the representation of ethnic minorities in books for children and young adults, this book examines the experiences of 'own voice' cultural producers that create a counter-narrative. Specifically, this book will investigate the output and experiences of British young adult fiction authors of colour (BAME authors) published in the UK during the period 2006-2016, drawing upon semi-structured interviews with a sample of authors.

teen romance novels online: Sloppy Rax King, 2025-07-29 From the James Beard Award-nominated author of Tacky, a boldly funny, warts-and-all tour of the bad habits that make Rax King who she is Most writers are boring people. King, though, seems different: Bettie Page meets Carrie Bradshaw.—Washington Post With Rax King's trademark blend of irreverent humor and heartfelt honesty comes a new collection of personal essays unpacking bad behavior. Sloppy explores sobriety, begrudging self-improvement, and the habits we cling to with clenched fists. In "Proud Alcoholic Stock," King examines her parents' unwavering dedication to 12 step programs and the texture her family history has lent to her own sobriety. "Shoplifting from Brandy Melville" is a lighthearted look at, what else?, shoplifting from Brandy Melville—one of her few remaining indulgences now that she doesn't drink. King writes about her overspending and temper control issues as well as her poorly managed mental health. These seventeen essays capture the personal and generational vices that make us who we are. From being a crummy waitress to using uppers to force friendships, from obsessing over the Neopets forums to lying for no discernable reason, these

essays approach bad habits with emotional intelligence, kindness and—most importantly—humor.

teen romance novels online: Ecopiety Sarah McFarland Taylor, 2019-11-12 Tackles a human problem we all share—the fate of the earth and our role in its future. Confident that your personal good deeds of environmental virtue will save the earth? The stories we encounter about the environment in popular culture too often promote an imagined moral economy, assuring us that tiny acts of voluntary personal piety, such as recycling a coffee cup, or purchasing green consumer items, can offset our destructive habits. No need to make any fundamental structural changes. The trick is simply for the consumer to buy the right things and shop our way to a greener future. It's time for a reality check. *Ecopiety* offers an absorbing examination of the intersections of environmental sensibilities, contemporary expressions of piety and devotion, and American popular culture. Ranging from portrayals of environmental sin and virtue such as the eco-pious depiction of Christian Grey in *Fifty Shades of Grey*, to the green capitalism found in the world of mobile-device “carbon sin-tracking” software applications, to the socially conscious vegetarian vampires in *True Blood*, the volume illuminates the work pop culture performs as both a mirror and an engine for the greening of American spiritual and ethical commitments. Taylor makes the case that it is not through a framework of grim duty or obligation, but through one of play and delight, that we may move environmental ideals into substantive action.
