the long walk ebook download: Wandering Home Bill McKibben, 2014-04-01 "A marvelous writer who has thought deeply about the environment, loves this part of the country, and knows how to be a first-class traveling companion." —Entertainment Weekly In *Wandering Home*, one of his most personal books, New York Times-bestselling author Bill McKibben invites readers to join him on a hike from his current home in Vermont to his former home in the Adirondacks. Here he reveals that the motivation for his impassioned environmental activism is not high-minded or abstract, but as tangible as the lakes and forests he explored in his twenties, the same woods where he lives with his family today. Over the course of his journey McKibben meets with old friends and kindred spirits, including activists, writers, organic farmers, a vintner, a beekeeper, and environmental studies students, all in touch with nature and committed to its preservation. For McKibben, there is no better place than these woods to work out a balance between the wild and the cultivated, the individual and the global community, and to discover the answers to the challenges facing our planet today. "A short, lovely chronicle of a long hike, during which McKibben meditatively reflects on the relationship between nature and humanity. Nature writing at its best." —Kirkus Reviews (starred review) "An enamoring and discerning look at one man's compiled thoughts and researched knowledge on the Adirondacks as he strolls through its dense forests." —All Points North "[McKibben] writes with his usual wry, approachable power about the Adirondacks, his chosen home . . . The book could single-handedly spur a rush of tourism to the Adirondack area—it's that good." —Publishers Weekly (starred review)

the long walk ebook download: The Concatenator Carlo van Vliet, 2016-11-14 The Concatenator is a philosophical journey through human development. It is based on and developed by taking an analytical approach towards the everyday world. It describes and explains the development of human behaviour through time, and asks questions such as: what are the processes that influence the world in which we live? What is at the core of every human being? Why do we keep doing the things we do the way we do them? By poking holes into the delusions covering the humdrum of our daily lives, this book sheds a light on the core of human behaviour. By concatenating different ideas and insights the processes that influence social, religious and political developments are analysed, and a stab in the dark is given on our possible future.
