verniece enciso: An Eye on Race John Beusterien, 2006 Racism in the modern nation state is based on a Continental and an American model. In the Continental model, the racist differentiates the raced individual by religion. Because this raced individual is indistinguishable from the racist, a narrative is written to see that individual. In turn, in the American model the racist differentiates the raced individual based on skin color. Because the sign of difference is obvious, no story is written to justify racist thinking. By 1550, both models form part of imperial thinking in the Iberian world

system. *An Eye on Race: Perspectives from Theater in Imperial Spain* describes these models at work in imperial Spanish theater. The study reveals how the display of blood in drama serves the Continental model and how the display of skin color serves the American model. It also elucidates how Miguel de Cervantes celebrates a subaltern aesthetic as he discards both racial paradigms. John Beusterien is Associate Professor of Spanish at Texas Tech University.

verniece enciso: *Women and Alcohol in a Highland Maya Town* Christine Eber, 2010-06-28 Healing roles and rituals involving alcohol are a major source of power and identity for women and men in Highland Chiapas, Mexico, where abstention from alcohol can bring a loss of meaningful roles and of a sense of community. Yet, as in other parts of the world, alcohol use sometimes leads to abuse, whose effects must then be combated by individuals and the community. In this pioneering ethnography, Christine Eber looks at women and drinking in the community of San Pedro Chenalhó to address the issues of women's identities, roles, relationships, and sources of power. She explores various personal and social strategies women use to avoid problem drinking, including conversion to Protestant religions, membership in cooperatives or Catholic Action, and modification of ritual forms with substitute beverages. The book's women-centered perspective reveals important data on women and drinking not reported in earlier ethnographies of Highland Chiapas communities. Eber's reflexive approach, blending the women's stories, analyses, songs, and prayers with her own and other ethnographers' views, shows how Western, individualistic approaches to the problems of alcohol abuse are inadequate for understanding women's experiences with problem and ritual drinking in a non-Western culture. In a new epilogue, Christine Eber describes how events of the last decade, including the Zapatista uprising, have strengthened women's resolve to gain greater control over their lives by controlling the effects of alcohol in the community.

Michael Kidd's selection of plays will appeal to students of literature, history, cultural studies, and the African diaspora. The plays themselves are framed between a highly informative preface and introduction and an extensive annotated glossary of people and places. However, it is the accessibility, fluidity, and vibrancy of language that make this volume an

excellent choice for all readers to experience and enjoy in English the same kind of wordplay that was integral to the Spanish comedia of the early modern period. From the back cover: Remarkable products of a nation deeply implicated in the Atlantic slave trade, the seventeenth-century Spanish plays *Juan Latino*, *The Brave Black Soldier*, and *Virtues Overcome Appearances* appear together in English for the first time in this volume. The three protagonists not only defy the period's color-based prejudices but smash through its ultimate social barrier: marriage into the white nobility. Michael Kidd's fluid translations and extensive critical introduction, bibliography, and glossary are enhanced by Hackett's title support webpage. *Black Protagonists of Early Modern Spain* is essential reading for students of theater history, Spanish literature, and the African diaspora.

verniece enciso: Staging Habla de Negros Nicholas R. Jones, 2019-05-01 In this volume, Nicholas R. Jones analyzes white appropriations of black African voices in Spanish theater from the 1500s through the 1700s, when the performance of Africanized Castilian, commonly referred to as *habla de negros* (black speech), was in vogue. Focusing on Spanish Golden Age theater and performative poetry from authors such as Calderón de la Barca, Lope de Rueda, and Rodrigo de Reinosa, Jones makes a strong case for revising the belief, long held by literary critics and linguists, that white appropriations and representations of *habla de negros* language are "racist buffoonery" or stereotype. Instead, Jones shows black characters who laugh, sing, and shout, ultimately combating the violent desire of white supremacy. By placing early modern Iberia in conversation with discourses on African diaspora studies, Jones showcases how black Africans and their descendants who built communities in early modern Spain were rendered legible in performative literary texts. Accessibly written and theoretically sophisticated, Jones's groundbreaking study elucidates the ways that *habla de negros* animated black Africans' agency, empowered their resistance, and highlighted their African cultural retentions. This must-read book on identity building, performance, and race will captivate audiences across disciplines.
