unlock secret harem levels: The Architecture of Home in Cairo Mohamed Gamal Abdelmonem, 2016-03-03 The hawari of Cairo - narrow non-straight alleyways - are the basic urban units that have formed the medieval city since its foundation back in 969 AD. Until early in the C20th, they made up the primary urban divisions of the city and were residential in nature. Contemporary hawari, by contrast, are increasingly dominated by commercial and industrial activity. This medieval urban maze of extremely short, broken, zigzag streets and dead ends are defensible territories, powerful institutions, and important social systems. While the hawari have been studied as an exemplar for urban structure of medieval Islamic urbanism, and as individual building typologies, this book is the first to examine in detail the socio-spatial practice of the architecture of home in the city. It investigates how people live, communicate and relate to each other within their houses or shared spaces of the alleys, and in doing so, to uncover several new socio-spatial dimensions and meanings in this architectural form. In an attempt to re-establish the link between architecture past and present, and to understand the changing social needs of communities, this book uncovers the notion of home as central to understand architecture in such a city with long history as Cairo. It firstly describes the historical development of the domestic spaces (indoor and

outdoor), and provides an inclusive analysis of spaces of everyday activities in the hawari of old Cairo. It then broadens its analysis to other parts of the city, highlighting different customs and representations of home in the city at large. Cairo, in the context of this book, is represented as the most sophisticated urban centre in the Middle East with different and sometimes contrasting approaches to the architecture of home, as a practice and spatial system. In order to analyse the complexity and interconnectedness of the components and elements of the hawari as a 'collective home', it layers its narratives of architectural and social developments as a domestic environment over the past two hundred years, and in doing so, explores the in-depth social meaning and performance of spaces, both private and public.

Ben-Marzouk, Kathlyn M. Cooney, 2022-08-31 This volume challenges assumptions about—and highlights new approaches to—the study of ancient Egyptian society by tackling various thematic social issues through structured individual case studies. The reader will be presented with questions about the relevance of the past in the present. The chapters encourage an understanding of Egypt in its own terms through the lens of power, people, and place, offering a more nuanced understanding of the way Egyptian society was organized and illustrating the benefits of new approaches to topics in need of a critical re-examination. By re-evaluating traditional, long-held beliefs about a monolithic, unchanging ancient Egyptian society, this volume writes a new narrative—one unchecked assumption at a time. Ancient Egyptian Society: Challenging Assumptions, Exploring Approaches is intended for anyone studying ancient Egypt or ancient societies more broadly, including undergraduate and graduate students, Egyptologists, and scholars in adjacent fields.

unlock secret harem levels: *Ancient Persia and the Book of Esther* Lloyd Llewellyn-Jones, 2023-03-09 A Spectator 2023 Book of the Year Esther is the most visual book of the Hebrew Bible and was largely crafted in the Fourth Century BCE by an author who was clearly au fait with the rarefied world of the Achaemenid court. It therefore provides an unusual melange of information which can enlighten scholars of Ancient Iranian Studies whilst offering Biblical scholars access into the Persian world from which the text emerged. In this book, Lloyd Llewellyn-Jones unlocks the text of Esther by reading it against the rich iconographic world of ancient Persia and of the Near East. *Ancient Persia and the Book of Esther* is a cultural and iconographic exploration of an important, but often undervalued, biblical book, and Llewellyn-Jones presents the book of Esther as a rich source for the study of life and thought in the Persian Empire. The author reveals answers to important questions, such as the role of the King's courtiers in influencing policy, the way concubines at court were recruited, the structure of the harem in shifting the power of royal women, the function of feasting and drinking in the articulation of courtly power, and the meaning of gift-giving and patronage at the Achaemenid court.

unlock secret harem levels: Imperial Secrets: Remapping the Mind of Empire Patrick A. Kelley, 2011-09-16 Major Kelley chooses three empires with which to compare our current intelligence circumstances. Each of these faced challenges in understanding peoples; Rome in the first and second centuries AD, the Ottomans in the 16th to 18th, and Britain in India in the 18th to early 20th. Kelley feels these warrant study in light of our need to deal with peoples whom we may seek to influence. The author also asks: ?If power shapes knowledge, does knowledge also shape power This is a delightful exercise in erudition in which key postmodern insights and reasoning are used to gain political understanding. Full of surprises and insights, Kelley takes his readers through an enchanted forest peopled by Foucault, T.E. Lawrence, J.S. Bach, Borges, Idries Shah, Hobsbawm, Jung, Baudrillard, and many more. One hopes our educated, certified, and degreed military and intelligence leadership can penetrate a work this rich, deep, and ultimately useful. (Originally published in color by the NDIC Press)

unlock secret harem levels: Before They Were Belly Dancers Kathleen W. Fraser, 2014-11-19 Focusing on Egypt during the period 1760 to 1870, this book fills in some of the historical blanks for a dance form often known today in the Middle East as raqs sharki or raqs baladi, and in Western countries as belly dance. Eyewitness accounts written by European travelers, the major primary source for modern scholars, provide most of the research material. The author shapes these numerous accounts into a coherent whole, providing a picture of Egyptian female entertainers of the period as professionals in the arts, rather than as a group of unnamed ethnic dancers and singers. Analysis is given of the contexts of this dance--that was a legitimate performing art form in Egyptian society appreciated by a wide variety of audiences--with a focus on actual performances--and a re-creation of choreography.
