vern father career: Sweet '60 Bill Nowlin, Clifton Blue Parker, 2013-04 Sweet '60: The 1960 Pittsburgh Pirates is the joint product of 44 authors and editors from the Society for American Baseball Research (SABR) who have pooled their efforts to create a portrait of the 1960 team which pulled off one of the biggest upsets of the last 60 years. Game Seven of the 1960 World Series between the Pirates and the Yankees swung back and forth. Heading into the bottom of the eighth inning at Forbes Field, the Yankees had outscored the Pirates, 53-21, and held a 7-4 lead in the deciding game. The Pirates hadn't won a World Championship since 1925, while the Yanks had won 17 of them in the same stretch of time, seven of the preceding 11 years. The Pirates scored five times in the bottom of the eighth and took the lead, only to cough it up in the top of the ninth. The game was tied 9-9 in the bottom of the ninth. At 3:36, Bill Mazeroski swung at Ralph Terry's slider. As Curt Smith writes in these pages: "There goes a long drive hit deep to left field!" said Gunner. "Going back is Yogi Berra! Going back! You can kiss it good-bye!" No smooch was ever lovelier. "How did we do it, Possum? How did we do it?" Prince said finally, din all around. Woods didn't know—only that, "I'm looking at the wildest thing since I was on Hollywood Boulevard the night

World War II ended.” David had toppled Goliath. It was a blow that awakened a generation, one that millions of people saw on television, one of TV’s first iconic World Series moments.

vern father career: Fatherhood William Marsiglio, 1995-04-03 Shifting marriage and divorce patterns, transformation in the workplace, the growth of the women’s movement and the development of the men’s movement, all these social and cultural changes have changed fathers’ traditional family roles and forced a reexamination of how fathers and children interact. Progress in this new understanding of fathers is highlighted in *Fatherhood*, a volume of empirical and theoretical research on fathers in families. The research pieces, written by such well-known scholars as Furstenberg, Seltzer, and Greif, examine differences in culture, class, nationality, and custodial status. The chapters focus on legal, economic, and policy questions, as well as on the interaction between fathers and children within the family. Some of the topics explored are fathers’ involvement in child care, fathering in the inner city, and single fathers who have custody of their children. *Fatherhood* is the most current assessment of our research base on fatherhood available for professional, scholarly, and classroom use and is important reading for those interested in men’s studies, family studies, gender studies, sociology, psychology, and social work.

vern father career: Jules Verne on Film Thomas C. Renzi, 2004-03-24 Jules Verne—Voilà!—a name that resonates with visions of fantastic adventures and images of exotic exploits. In his voyages extraordinaires, the noted French author fuses his encyclopedic knowledge of science and geography with his ability to tell fascinating tales, taking his readers on unprecedented journeys across the globe, into the earth, and out into space. This revered writer, who with his boundless imagination had hoped to contribute substantially to the world of letters, has surpassed that expectation to become coincidentally a significant influence on film. *Jules Verne on Film* is both a penetrating analytical overview of Verne’s epic novels and a comprehensive filmography of the numerous films inspired by his stories and characters. There are the obvious adaptations that come directly from the pages of Verne’s writings, films such as *In Search of the Castaways* and *Mysterious Island*. However, looking closely at the plots, characters, and themes of many other films—science fiction and otherwise—one discovers that the incomparable Verne has had a far wider influence on filmmakers than one might have thought. For instance, most of us are familiar with Disney’s *20,000 Leagues Under the Sea* (1954) and some of us may have even seen the two 1997 television productions. But Verne’s classic undersea adventure also provides the underpinnings for such entertaining movies as *Fantastic Voyage* (1966) and *Innerspace* (1987). Structurally, *Jules Verne on Film* begins with a biographical sketch and contains 23 chapters arranged alphabetically according to book title, starting with *The Adventures of Captain Hatteras* and ending with *Voyage Across the Impossible*. Each chapter includes a summary and analysis of Verne’s story, followed by a chronological treatment of the cinematic adaptations compared to their respective written work. Production credits appear in the film entries, along with plot synopses and thorough critical commentaries.

He will have to rely heavily on his faith if he is to rebuild his Father's House.

vern father career: Selected Letters of Vernon Lee, 1856 - 1935 Amanda Gagel, 2016-10-26 Vernon Lee was the pen name of Violet Paget (1856-1935) – a prolific author best known for her supernatural fiction, her support of the Aesthetic Movement and her radical polemics. She was also

an active letter writer whose correspondents include many well-known figures in fin de siècle intellectual circles across Europe. However, until now no attempt has been made to make these letters widely available in their complete form. This multi-volume scholarly edition presents a comprehensive selection of her English, French, Italian, and German correspondence — compiled from more than 30 archives worldwide — that reflect her wide variety of interests and occupations as a Woman of Letters and contributor to scholarship and political activism. Letters written in a language other than English have been expertly translated by scholars Sophie Geoffroy (from the French), Crystal Hall (from the Italian), and Christa Zorn (from the German). The edition focuses on those letters concerning the writing, ideas and aesthetics that influenced Lee's articles, books and stories. Full transcriptions of some 500 letters, covering the years 1856-1935, are arranged in chronological order along with a newly written introduction that explains their context and identifies the recipients, friends and colleagues mentioned. Since scholarship on Lee's critical and creative output is still in the beginning stages, these letters will serve a purpose to students and researchers in a number of academic fields. In this first volume, tracing the years 1856- 1884, the assembled letters cover the beginnings of her career, encompassing her first publication, visits to London and encounters with some of the important artistic figures of the time. As her career begins to blossom, the letters also reflect the expansion of her subject matter from cultural studies and art history to novels and aesthetic philosophy. Correspondents include Lee's parents, Matilda and Henry Paget; her brother the poet Eugene Lee-Hamilton; English poet Mary Robinson; English authors Henrietta Jenkin and Linda Villari; and Italian writers Enrico Nencioni, Mario Pratesi, and Angelo De Gubernatis, among others.

vern father career: From Radio to Television Vincent Terrace, 2022-10-21 The early years of television relied in part on successful narratives of another medium, as studios adapted radio programs like Boston Blackie and Defense Attorney to the small screen. Many shows were adapted more than once, like the radio program Blondie, which inspired six television adaptations and 28 theatrical films. These are but a few of the 1,164 programs covered in this volume. Each program entry contains a detailed story line, years of broadcast, performer and character casts and principal production credits where possible. Two appendices (Almost a Transition and Television to Radio) and a performer's index conclude the book. This first-of-its-kind encyclopedia covers many little-known programs that have rarely been discussed in print (e.g., Real George, based on Me and Janie; Volume One, based on Quiet, Please; and Galaxy, based on X Minus One). Covered programs include The Great Gildersleeve, Howdy Doody, My Friend Irma, My Little Margie, Space Patrol and Vic and Sade.

vern father career: Jules Verne Timothy Unwin, 2005-10-01 A hundred years after his death, Jules Verne (1828-1905) has in the popular imagination become synonymous with prediction of the future. Yet the actual texts of Verne's major novels (the vast series known as the Voyages extraordinaires) still remain unknown to many. In the English-speaking world, translations of Verne's best-known novels (Around the World in Eighty Days, Twenty Thousand Leagues under the Seas, Journey to the Centre of the Earth, From the Earth to the Moon) have often contained

wholesale distortions of his plots and characters, and the popular (and false) image of Verne as a foreteller of the future often comes not through what he actually wrote, but through films and other adaptations of his work. It is against this background of misrepresentation and misconception that the present study has been produced. Verne was, Unwin argues, a master of the self-conscious novel, his work a pastiche of science discourse, fictional and non-fictional writings, and flamboyant, theatrical narrative. Unwin makes a compelling case for Verne as a master of the nineteenth-century experimental novel, in the company of Gustave Flaubert and other canonical French writers. The text will be a wonderful addition to the shelves of those interested in science fiction, experimental writing, and critical theory.

vern father career: *Sarah Johnson's Mount Vernon* Scott E. Casper, 2025-08-22 New Stories from an Old American Shrine The home of our first president has come to symbolize the ideals of our nation: freedom for all, national solidarity, and universal democracy. Mount Vernon is a place where the memories of George Washington and the era of America's birth are carefully preserved and re-created for the nearly one million tourists who visit it every year. But behind the familiar stories lies a history that visitors never hear. Sarah Johnson's Mount Vernon recounts the experience of the hundreds of African Americans who are forgotten in Mount Vernon's narrative. Historian and archival sleuth Scott E. Casper recovers the remarkable history of former slave Sarah Johnson, who spent more than fifty years at Mount Vernon, before and after emancipation. Through her life and the lives of her family and friends, Casper provides an intimate picture of Mount Vernon's operation during the nineteenth and early twentieth centuries, years that are rarely part of its story. Working for the Washington heirs and then the Mount Vernon Ladies' Association, these African Americans played an essential part in creating the legacy of Mount Vernon as an American shrine. Their lives and contributions have long been lost to history and erased from memory. Casper restores them both, and in so doing adds a new layer of significance to America's most popular historical estate.

vern father career: *South Dakota's Mathis Murders: Horror in the Heartland* Noel Hamiel, 2022 South Dakota's Mathis Family Murders brought death and deception to the heartland. It was perhaps the most infamous murder case in state history. Ladonna Mathis was shot twice in the head at point-blank range inside the family's metal shed serving as their makeshift home. Two of her three children, ages 2 and 4, were also shot in the head. The brutality of the killings shocked the state and set off a frenzy of law enforcement activity. Despite its intensity, the investigation never found the murderer or the murder weapon. Though charged with the crime, the husband was acquitted, leaving the door open for endless speculation about what really occurred on that late summer morning of Sept. 8, 1981. With renewed insight from those involved, veteran South Dakota journalist Noel Hamiel explores this cold case of murder and mystery that still haunts the Mount Rushmore state.
