unblocked adventures: Working with Experience David Boud, Nod Miller, 2002-11-01 Every day we are confronted with problems and challenges which we address by drawing on our experience and by using this experience to find ways of learning what to do in new circumstances. Learning through experience is the normal, commonplace approach to learning and we take it for granted. Whilst much is known about teaching and being taught, far less attention has been given to learning in context - in particular, to learning outside the classroom. Yet this is in fact where most learning takes place. One possibly neglected area is the role which people, other than the learner, play in facilitating learning. This role is undertaken not only by teachers, trainers, parents and counsellors, but also by managers, supervisors, care-givers and friends. This book brings together

the experiences of a number of practitioners, who write from often strongly contrasting perspectives. Such perspectives include feminism, Marxism, critical pedagogy, post-modernism and Gestalt, humanistic, clinical and transpersonal psychology.

In choosing material, the editors strove to make the volume as comprehensive as possible. Thus, readers will discover documents written by transnational, adopted, and homosexual Asian Americans, as well as documents written from particular religious positions.

unblocked adventures: *Authority, Experience and the Life of Power* Claire Blencowe, Julian Brigstocke, Leila Dawney, 2016-04-14 Taking up the challenge of understanding power in its complexity, this volume returns to and revitalises the concept of 'authority'. It provides a powerful analysis of the ways that relationships of trust, attachment, governance and inequality become possible when subjectivities and bodies are invested in the life of power. The collection offers a vibrant new analysis of the biopolitical, arguing that 'experience of life' has become equated with 'objectivity' in contemporary culture and has thus become a primary basis of authority. 'Biopolitical' or 'experiential' authority can be generated through reference to a variety of experiences, performances or intensities of life including creativity, radicalism, risk-taking, experimentation, inter-relation, suffering and proximity to death. The authority-producing capacities of community and aesthetics are key issues, pointing to vexed relationships between politics and policing, inventiveness and violence. The contributors develop their theoretical analyses through discussion of a range of specific sites including mental-health service user and survivor politics, biological knowledge, refugee activism, stories of suffering, urban art, anarchism, neo-liberal community politics and marketization. *Authority, Experience & the Life of Power* challenges thinking on what 'the political' is and isn't, pushing against the all too easy equivocation of revolutionary break and empowerment. This book was published as a special issue of the *Journal of Political Power*.

unblocked adventures: Seraffyn's European Adventure Lin and Larry Pardey, 1998 This second book in the Seraffyn cruising series begins with their arrival on the southwest coast of England where they coasted eastward, stopping where fancy held them, where good friends were made, to winter at Poole, and work to pay for the next leg of their voyage - toward the Baltic. Denmark, Sweden, Finland were full of welcoming and interesting people and an almost invisible bureaucracy. But things were definitely different when they reached Poland where armed guards watched while the people greeted them with flowers, fruits and sweets. Their foray behind the Iron Curtain of the 1970's introduced them to some of the people who lead the Solidarity Movement, the force that eventually toppled the Soviet Union. You'll be right on board as they weather a fierce mast-under broach in a Baltic gale and through the wintery North Seas. Here is a feast for the fantasies of stay-at-homes and a warm account of just two years of the lives of two people who have lived in a wide adventurous world for more than four decades. Their motto -- Go Small, Go Simple, Go Now has encouraged thousands of other sailors to take the plunge. And this book is an entertaining instruction manual on how to live a rich life on very little money. Lin Pardey has, in her deceptively simple and fresh-faced style, told the story of an unusual and appealing marriage partnership, a special way of life. Yachtsmen will enjoy the technical description of the problems of maneuvering in the tight harbours and unmapped channels...the perils of heavy seas in a small boat. But what is remarkable is that she can draw a nonsailor into these special subjects and make them as comprehensible and absorbing to a landlubber as they would be to someone about to set out on the same itinerary in a small boat of his own. R. Sokolov, New York Times Book Review

With flavors of Samurai and Steam-punk adding spice, it rocks along from delight to surprise, and all along it is highly satisfying. Oh, on first reading, towards the end I thought maybe it bogged down. But it is the sort of book you want to re-read as soon as you finish it, because it was just so much fun. And I found out I was wrong: the story continues apace, right to the last page. And the ending is a pure delight. Don't peek, you won't get it. But I can assure you: it will give you huge satisfaction, and you will be glad you chose to read this book. · William Fletcher **** ...Overall, this is an entertaining book on many levels. Those who enjoy reading about real-life and science fiction technology will enjoy the technical parts. Those who like laser fights and battles between uneven forces where the underdog must overcome long odds will enjoy the battles. Those who like strong women who overcome social barriers and can hold their own will enjoy Doiyoko, Kendrick's love interest. Those who enjoy a little mystical and technological awesomeness in their main character will love Kendrick. And, finally, those who enjoy humorous situations and camaraderie will find more than a sufficient dose in this book to satisfy their funny bones. · Patricia Hamill on Goodreads ***** Exciting - this is the most appropriate word to describe Exile. Author R.L. Kiser put a bit of everything in the story. Apart from the prime sci-fi adventure theme, there is romance between Kendrick and Doiyoko, the beautiful but unconventional eldest daughter of the Honashi Village leader. There is also a fairly healthy dose of humor packed into this story. I do appreciate the way it is written in two parts: Kendrick's first arrival and his developing relationship with his new friends in part one; how he copes with his new life years later in part two. I think this approach maintains the good pacing of the story. Simply put, Exile is a stellar work from Kiser, with appealing characters and an absorbing tale. · Lit Amri for Readers' Favorite
