vipers novel free: Ronald Reagan, the Movie and Other Episodes in Political Demonology Michael Paul Rogin, 1987 The fear of the subversive has governed American politics, from the racial conflicts of the early republic to the Hollywood anti-Communism of Ronald Reagan. Political monsters--the Indian cannibal, the black rapist, the demon rum, the bomb-throwing anarchist, the many-tentacled Communist conspiracy, the agents of international terrorism--are familiar figures in the dream life that so often dominates American political consciousness. What are the meanings and sources of these demons? Why does the American political imagination conjure them up? Michael Rogin answers these questions by examining the American countersubversive tradition.

vipers novel free: War On Wealth, The: Fact And Fiction In British Finance Since 1800 Ranald Michie, 2023-03-21 This book addresses the divide that exists between the reality of finance and the image it projects. A functioning financial system is an essential feature of a modern economy, providing it with money, credit, capital, and investments. Conversely, those who provide this essential service are neither respected nor trusted. The causes and consequences of this divide is explored using the British experience from 1800 to the present, drawing upon a mixture of factual evidence and contemporary fiction. Nothing of this scale has been attempted before and this is the product of 50 years of research.

vipers novel free: Drag Me Out Like a Lady Jentri Anders, 2022-09-13 She was arrested in the Berkeley Free Speech Movement. She was at the Be-In when Timothy Leary told us to drop out. She was in the battle of People's Park when James Rector was killed. She was tear-gassed on campus at UC Berkeley. She was at Altamont when a Hell's Angel murdered a concertgoer. Now she has written her autobiography, describing her unusual trajectory through an unusual era. In the spirit of Howard Zinn, Jentri Anders presents her life as an activist and anthropologist. A Southerner with deep roots in Georgia and Arkansas, she went to high school in Groveland, Florida, one of the most notorious locations in black history. Expelled from both a Georgia Bible college and Florida State University for political reasons, she moved to California, participated in the antiwar movement there, then was sexually and politically harrassed out of UC Berkeley. She dropped out of mainstream culture to become a back-to-the-land hippie in what is now called the Emerald Triangle in Humboldt County, California, then dropped back in, wrote the definitive ethnography of back-to-the-land hippies, and was featured in the Academy Award-nominated documentary film,

Berkeley in the Sixties. A fascinating writer, Anders is also a scholar. Drag Me Out Like a Lady is thoroughly researched, indexed, referenced, and documented, including historical material from her personal files. Cultural historians, anthropologists, activists, feminists, literate hippies, as well as people who just like weird stories, will all love this book

vipers novel free: Delphi Complete Harvard Classics and Shelf of Fiction (Illustrated)
Charles W. Eliot, 2018-08-01 Regarded by many as the most comprehensive anthology of all time, 'The Harvard Classics' was first published in 1909 under the supervision of the Harvard president Charles W. Eliot. An esteemed academic, Eliot had argued that the elements of a liberal education could be gained by spending 15 minutes a day reading from a collection of books that could fit on a five-foot shelf. The publisher P. F. Collier challenged Eliot to make good on this statement and 'Dr. Eliot's Five Foot Shelf' was the result. Eight years later Eliot added a further 20 volumes as a sub-collection titled 'The Harvard Classics Shelf of Fiction', offering some of the greatest novels and short stories of world literature. The exhaustive anthology of the 'The Harvard Classics' comprises every major literary figure, philosopher, religion, folklore and historical subject up to the twentieth century. vipers novel free: Faith and Fiction Barbara Pell, 2006-01-01 Is it possible to write an artistically respectable and theoretically convincing religious novel in a non-religious age? Up to now, there has been no substantial application of theological criticism to the works of Hugh MacLennan and Morley Callaghan, the two most important Canadian novelists before 1960. Yet both were religious writers during the period when Canada entered the modern, non-religious era, and both greatly influenced the development of our literature. MacLennan's journey from Calvinism to Christian existentialism is documented in his essays and seven novels, most fully in *The Watch that Ends the Night*. Callaghan's fourteen novels are marked by tensions in his theology of Catholic humanism, with his later novels defining his theological themes in increasingly secular terms. This tension between narrative and metanarrative has produced both the artistic strengths and the moral ambiguities that characterize his work. *Faith and Fiction: A Theological Critique of the Narrative Strategies of Hugh MacLennan and Morley Callaghan* is a significant contribution to the relatively new field studying the relation between religion and literature in Canada.

vipers novel free: Michael Paul Rogin Alyson Cole, George Shulman, 2019-02-18 Michael Paul Rogin's scholarship profoundly altered the scope, content, and disposition of political theory. He reconstituted the field by opening it to an array of texts, performances, and methods previously considered beyond the purview of the discipline. His work addressed the relationship between dimensions of politics typically split apart – institutional power and cultural forms, material interests and symbolic meanings, class projects and identity politics, the public and the private. Rogin's scholarship enlarges our sense of the borders and genres defining political theory as a field and enriches our capacity to think critically and creatively about the political. The editors have focused on three categories of substantive innovation: *Demonology and Countersubversion* Rogin used the concepts "countersubversive tradition" and "political demonology" to theorize how constitutive exclusions and charged images of otherness generated imagined national community. He exposed not only the dynamics of suppressing and delegitimizing political opposition, but also how politics itself is devalued and displaced. *The Psychic Life of Liberal Society* Rogin addressed the essential contradiction in liberalism as both an ideology and a regime – how a polity professing equality, liberty, and pluralist toleration engages in genocide, slavery, and imperial war. *Political Mediation: Institutions and Culture* Rogin demonstrated how cultural forms – pervasive myths, literary and cinematic works – mediate political life, and how political institutions mediate cultural energies and aspirations.

vipers novel free: Richard Wright Michel Fabre, 1990 This bibliography of Richard Wright's library and reading serves as a key to understanding the development, philosophies, and aesthetics of this great writer and provides accurate information for the study of intertextuality in his works. Richard Wright, born in Mississippi in 1908, was largely self-taught. His only formal schooling was high school. As he recounts in *Black Boy*, he used a white friend's library card at the Memphis Public Library, where blacks were not allowed. That books were almost living companions for Wright is easily understandable. Through books and, later, through relationships with writers, he broadened his perspectives, his understanding of society, and the very craft of writing. In the history of Richard Wright, perhaps more than with other writers, a knowledge of what he actually read, and of what authors he preferred, is essential in explaining his intellectual development. Michel Fabre, Wright's biographer and foremost Wright scholar, details the volumes in Wright's library and the facts of Wright's reading habits. This listing of books that formed and influenced him includes second-hand books he bought while living in extreme poverty in Chicago, some borrowed books never returned, books purchased in New York and Paris, books Wright deemed required reading for a growing novelist, gift books, and others in a comprehensive list on such subjects as contemporary American literature, classic European works, criminology, psychiatry, and social sciences. In compiling this listing Fabre goes beyond the actual contents of Wright's library, for he includes also titles drawn from references in Wright's works and from accounts of people who knew him and his reading habits. Included also is an appendix that collects for the first time reviews written by Wright, his prefaces, forewords, and blurbs. They show his appreciation of diverse genres and styles, although his ideological commitment remained the same. In them one sees Wright as an author ready to help younger writers, black and white, American and French.

vipers novel free: Mama's Boy Roel van den Oever, 2012-09-24 In postwar America, the discourse of Momism advanced the idea that an over-affectionate or too-distant mother hampers the social and psychosexual development of her children, in particular her sons. Deemed worst of all was the outcome of homosexuality, since the period saw an intense policing of sexual deviance. van den Oever zooms in on four instances of the cultural representation of Momism: *The Grotto*, by Grace Zaring Stone, *Suddenly Last Summer*, by Tennessee Williams, Alfred Hitchcock's *Psycho*, and *Portnoy's Complaint*, by Philip Roth, to offer new commentary on canonical texts, a particular

moment in American culture, and future reading strategies.
