trump birth year: Born to Fight: Lincoln and Trump Gretchen Wollert, 2024-02-28 Abraham Lincoln and Donald Trump are two of a kind despite terms in office separated by 150-plus years. Both encountered a biased press and deeply divisive political environments after being elected with less than 50 percent of the popular vote. Each was viewed as an ill-equipped outlier and accompanied to office by first ladies ostracized by Washington's elite. Lincoln was known by those closest to him for his supreme self-confidence, inexhaustible ambition, mean streak, braggadocio, arrogance, vanity, and knack for thriving amid conflict. Ditto Trump. Born to Fight shows that Trump is better understood through the many parallels linking him to Lincoln.

trump birth year: The Trumps Gwenda Blair, 2015-10-06 The definitive family biography of President Donald Trump. The revealing story of the Trumps mirrors America's transformation from a land of striving immigrants to a world in which the aura of wealth alone can guarantee a fortune. The Trumps begins with a portrait of President Trump's immigrant grandfather, who as a young man built hotels for miners in Alaska during the Klondike gold rush. His son, Fred, took advantage of the New Deal, using government subsidies and loopholes to construct hugely successful housing developments in the 1940s and 1950s. The profits from Fred's enterprises paved the way for President Trump's roller-coaster ride through the 1980s and 1990s into the new century. With his talent for extravagant exaggeration—he calls it “truthful hyperbole”—President Trump turned the deal-making know-how of his forebears into an art form. By placing this much-publicized life within the context of family, Gwenda Blair adds a new dimension to the larger-than-life figure who ascended to the American Presidency.

trump birth year: A Discourse Analysis of the ‘Trumpusconi’ Phenomenon Giuseppina Scotto di Carlo, 2020-11-24 Is Trump our contemporary Berlusconi? In 2015, Frank Bruni coined the term ‘Trumpusconi’ when the media noticed some similarities between the then US presidential

candidate Donald Trump and Italy's former Prime Minister Silvio Berlusconi. At that time, while many Italians joked about Trump as a déjà-vu, scholars began to analyse these two political 'outsiders' in an attempt to imagine Trump's probable presidency by studying Berlusconi's career. Regardless of any political view, it is against this background that this work analyses these two political figures through discourse analysis, to understand whether their similarities go beyond their personality traits and lifestyles. The work is divided into two sections: the first part provides some information on Berlusconi and Trump's socio-cultural origins and educational backgrounds, their first steps in their real-estate careers, their progression into the world of media and politics, and their relationships with women. The second part of the study proposes a discourse analysis performed on a corpus of speeches held by each politician at the beginning of their political career, in order to understand whether their personalities and lifestyles are reflected in their idiolects. The book partially confirms the media's ideas about the 'Trumpusconi' phenomenon, acknowledging some similarities between the two moguls. However, it also shows that Berlusconi and Trump belong to two different eras: even if Berlusconi's lifestyle, language, scandals, and politics will continue to negatively and positively influence Italy for many years to come, the era of social media is leading the world towards models that differ from those of his time. Western politics is becoming ever more similar to a form of infotainment, and Trump is the perfect incarnation of this evolution. Only time will reveal his long-term legacy.

trump birth year: The Age of Illusions Andrew Bacevich, 2024-08-06 New York Times-Bestselling Author: A penetrating account of the post-Cold War follies and delusions that culminated in the age of Trump. When the Cold War ended with the fall of the Berlin Wall, the Washington establishment felt it had prevailed in a world-historical struggle. Our side had won, a verdict that was both decisive and irreversible. For the world's indispensable nation, its sole superpower, the future looked very bright. History, having brought the United States to the very summit of power and prestige, had validated American-style liberal democratic capitalism as universally applicable. In the decades to come, Americans would put that claim to the test. They would embrace the promise of globalization as a source of unprecedented wealth while embarking on wide-ranging military campaigns to suppress disorder and enforce American values abroad, confident in the ability of US forces to defeat any foe. Meanwhile, they placed all their bets on the White House to deliver on the promise of their Cold War triumph: unequaled prosperity, lasting peace, and absolute freedom. In *The Age of Illusions*, Andrew Bacevich takes us from that moment of seemingly ultimate victory to the age of Trump, telling an epic tale of folly and delusion. Writing with his usual eloquence and vast knowledge, he explains how, within a quarter of a century, the United States ended up with gaping inequality, permanent war, moral confusion, an increasingly angry and alienated population, and, of course, the strangest president in American history. Offers tantalizing insights into how America's Cold War victory soured. . . . Most interesting. — The Economist Those unfamiliar with Bacevich's work will be thrilled to encounter a first-rate thinker whose trenchant, objective, well-written analyses defy glib labeling . . . Highly recommended. — Choice This engrossing recounting of the irresponsibility of America's ruling class—aided and abetted by a citizenry grown complacent—clarifies the absurdities of the ascent of Trump [and shows] how America's self-congratulatory past has led to our wrenching present . . . he offers hope for a future free of self-deception, and points the way toward a newly responsible American civic life. —Patrick J. Deneen, author of *Why Liberalism Failed*

trump birth year: The Generational Gap in American Politics Patrick Fisher, 2022-09-30 This book examines the history of the generational gap in American politics, with an emphasis on the remarkable contemporary gap. Using data derived primarily from the American National Election Studies (ANES), 2020 National Election Pool, A.P VoteCast, and the Pew Research Center, Patrick Fisher argues that the political environment experienced by successive generations as they have come of age politically influences political attitudes throughout one's life. The result is that different generations have distinct political leanings that they will maintain over their lifetimes. Fisher examines each generation from the Greatest Generation through to Generation Z, who have recently started to come of voting age. He cites the entry of the Millennial Generation and Generation Z into the electorate as completely changing the generational dynamics of American politics, through their distinct political leanings that are significantly to the left of older generations. As a result he concludes that demographically, politically, economically, socially, and technologically, the generations are more different from each other now than at any time in living memory. The Generational Gap in American Politics will appeal to a scholarly and public audience interested in American politics in general and political behavior in particular.

trump birth year: Elections Ryan Merlin Yonk, 2019-02-06 Among the most prized and revered democratic institutions are elections. Few other actions typify what it means to participate in the democratic process in the same way that turning up, casting a ballot, and then having that ballot be part of determining who will control power has. Indeed, elections are at the center of what we view as democracy and much ink has been spilled in attempting to explain just how essential the electoral action is to democracy. In this volume our authors explore elections both from an understanding of the systems that govern elections across both the developed and developing world, and from the perspective of the individual voter who participates in that system. Taken together these analyses provide an intriguing look into this core aspect of democracy.

trump birth year: Crime and Justice in the Trump Era Francis Cullen, Amanda Graham, 2020-05-21 Crime and Justice in the Trump Era documents the impact of Trump administration policies on (1) violence against women, (2) the treatment of persons of color, (3) corporate and environmental crime (both domestic and international), and (4) federal crime control policy. First, the book examines how the policies of Donald Trump's administration have affected the rights and safety of female Americans—in particular, violence against women, including sexual assault. The book then goes on to explore President Trump's very public stances devaluing people of color—whether they reside within the nation's borders or are seeking entry into the United States. Next, the collection evaluates the collateral costs attached to the ongoing campaign to reduce regulations that protect consumers, workers, and the environment. Likewise, the valuing America's narrow self-interests may also have effects internationally, where crime and violence may be tied to Trump's promotion of White nationalism, toleration of human rights violations, and denial of climate change. Lastly, criminal justice policies are examined, both in the early stages of Trump's presidency, which were marked by his get-tough rhetoric, along with the more recent support for the First Step Act. The authors represent different perspectives in the discipline—critical/feminist and mainstream criminologists, quantitative and qualitative scholars, and students of both street and white-collar crime. Taken together, this book reflects a variety of criminological voices and advances immeasurably our understanding of the Trump administration's influence on crime and justice in America. The chapters in this book were originally published as a special issue of Victims & Offenders: An International Journal of Evidence-based Research, Policy, and Practice.

trump birth year: Trump Must Go Bill Press, 2018-09-11 I would give myself an A+ —Donald Trump, on his first 100 days in office. Americans increasingly agree on one thing: Every day that Trump stays in office, he diminishes the United States and its people. In *Trump Must Go*, TV and radio host Bill Press offers 100 reasons why Trump needs to be removed from office, whether by impeachment, the 25th Amendment, or the ballot box. Beginning with the man himself and moving through Trump's executive action damage, Press covers Trump's debasement of the United States political system and degrading of the American presidency. Ranging from banning federal employees' use of the phrase "climate change," to putting down Haiti, El Salvador, and African nations as "shithole" countries, we have to wonder what he'll do next. He has a bromance with Putin that enables several meetings between Trump staffers and Russian officials, and he has a wrecking crew administration: Attorney General Jeff Sessions, Education Secretary Betsy DeVos, and Housing Secretary Ben Carson, to name a few. Extensive "executive time" marks Trump's calendar so he can golf, watch TV, and eat fast food. Trump has done it all...badly. But, in a political climate where the world has learned to expect the unexpected, Press offers readers a twist: one reason not to ditch Donald Trump.

trump birth year: Trump's Stars Holly Stockus, 2022-05-04 Our elected President, Donald J. Trump, has become one of the most polarized human beings in our lifetime. We watch as the media browbeats this man, while simultaneously urging the people of this great nation to rise up, and pull

the rug out from under him. Many do not understand how he continues to plow through the media unscathed and intact. His larger than life personality, and blunt tongue will not attract everyone, however he is who he is by design. Would it not be in our best interest to get to know our president before swallowing the dictations of the press, and late-night jesters? We can make some sense of it all by releasing wisdom from our ancient ancestors. When we study the movements of the celestial beings a narrative can be told. The human psyche is an inner zodiac expressing its identity. As a holistic astrologer, I felt the urge to divulge some insight on our president and our current times. We're finding ourselves in the midst of a showdown between two energetic forces. Our country has become totally divided partly because of the relentless media. Politicians will be politicians, but the outlandish attempts to discredit this administration is diabolical. How can we rise above the noise and become aware of what's right in front of us? Journey with me for insights to a man that has captured us all-whether by embracement or revolt, but either way intrigued.

Gerston examines the near-lethal combination of American bigotry and the ability of Donald Trump to take advantage of this scourge to satisfy his own political objective. The result is an individual who won election to the American presidency by adroitly pitting members of American society against one another, while presenting himself as the only person in the position to save America from itself. Having succeeded to the nation's most important political office, Trump proceeded to use the

position for his own benefit, irrespective of laws, norms, and, most importantly, the Constitution. So powerful was Trump that he and his minions came close to overturning the 2020 presidential election with the January 6, 2021, insurrection against the nation's Capitol. While Trump failed in his attempt to remain in office, the threat to the well-being of the United States remains real.

trump birth year: Generation Gap Kevin Munger, 2022-06-07 The Baby Boomers are the largest and most powerful generation in American history—and they aren't going away any time soon. They are, on average, whiter, wealthier, and more conservative than younger generations. They dominate cultural and political institutions and make up the largest slice of the electorate. Generational conflict, with Millennials and Generation Z pitted against the aging Boomer cohort, has become a media staple. Older and younger voters are increasingly at odds: Republicans as a whole skew gray-haired, and within the Democratic Party, the left-leaning youth vote propels primary challengers. The generation gap is widening into a political fault line. Kevin Munger marshals novel data and survey evidence to argue that generational conflict will define the politics of the next decade. He examines the historical trends that made the Baby Boomers so consequential and traces the emergence of age-based political and cultural divisions. Boomers continue to prefer the media culture of their youth, but Millennials and Gen Z are using the internet to render legacy institutions irrelevant. These divergent media habits have led more people than ever to identify with their generation. Munger shows that a common "cohort consciousness" binds aging Boomer voters into a bloc—but a shared identity and purpose among Millennials and Gen Z could topple Boomer power. Bringing together expertise in data analysis and digital culture with keen insight into contemporary politics, Generation Gap explains why the Baby Boomers remain so dominant and how quickly that might change.
