unlock harem levels: Her Shifter Harem's Babies [Full Collection] Layla Heart, 2022-08-25 Cyra, a rare Omega phoenix shifter, has been hiding from the shifter world for years, but she's about to be dragged back into it in a big way. Cyra feels that she's pretty good at pretending that she's human, she's got a job at a cafe and is a princess for hire for birthday parties for kids. Money is always tight, but she likes her freedom and that's worth a lot to her. Rare Omegas like her are never truly safe. Either because her parents keep trying to marry her off to some rich Alpha for the money and status it would bring them, or the constant danger of being found out, kidnapped and bred by some random shifter family hoping to gain status from that. Once she's claimed by an Alpha, she'll become the Alpha's property, and she refuses to live like that. But those situations become real possibilities when Cyra finds herself at the start of the shifter mating season with an old car that constantly breaks down and her stash of medication that she uses to hide her Omega status running dangerously low, and no money to afford to do something about either problem. Her problems get even worse when two playboy Alphas, a hydra and a griffin, start showing up at the cafe. Their teasing and interest making her feel things and want things she's sworn to never do with another shifter, for the risk of what could happen is too great for the short enjoyment it would bring. But the final straw is when she accidentally accepts to play a princess at a shifter kid's birthday party and her car breaks down right as she's about to leave. Luckily, or maybe she's just that unlucky, two kind Alphas, a cerberus and a centaur, are able to give her a ride back home. Their kindness making her feel safe and comforted, even when it's not safe for her at all. In a bout of recklessness and a desperate need for the money, she accepts the offer of the cerberus and centaur to be their date to the yearly Night Gala. An exclusive event at the start of the mating season where Alphas, Betas and Omegas can meet, but it's not uncommon for humans to attend too, as 'dates' or staff. One night of looking pretty and eating fancy food and she'd be able to not only fix her car but afford the medication she needs, the offer is too tempting. What she hadn't expected was for the hydra and the griffin to show up too. Or how all four Alphas would react to her Omega scent. Or how the media would hound them through the city as the five are trying to figure out what's going on. Or, worst of all, how her parents would use this opportunity to get the fame they've always wanted by claiming that the four Alphas have kidnapped Cyra and that she's already promised to another Alpha. Now the five not only have to figure out their feelings, but are also on the run from the media, the police and anyone interested in getting their hands on a rare Omega, no matter the cost... This collection contains all four books in the Her Shifter Harem's Babies series, Omega Phoenix: Claimed, Omega Phoenix: Hunted, Omega Phoenix: Pursued and Omega Phoenix: Provoked. This is a paranormal Omegaverse reverse harem #WhyChoose romance. These books may include any of these elements: steamy scenes, 'I need tissues NOW' moments, cries of 'why, oh, why' and cliffhangers that make you bite your nails (and curse the author). This series contains MF, MM and group scenes.

unlock harem levels: *The Architecture of Home in Cairo* Mohamed Gamal Abdelmonem, 2016-03-03 The hawari of Cairo - narrow non-straight alleyways - are the basic urban units that have formed the medieval city since its foundation back in 969 AD. Until early in the C20th, they made up the primary urban divisions of the city and were residential in nature. Contemporary hawari, by contrast, are increasingly dominated by commercial and industrial activity. This medieval urban maze of extremely short, broken, zigzag streets and dead ends are defensible territories, powerful institutions, and important social systems. While the hawari have been studied as an exemplar for urban structure of medieval Islamic urbanism, and as individual building typologies, this book is the first to examine in detail the socio-spatial practice of the architecture of home in the city. It investigates how people live, communicate and relate to each other within their houses or shared spaces of the alleys, and in doing so, to uncover several new socio-spatial dimensions and meanings in this architectural form. In an attempt to re-establish the link between architecture past and present, and to understand the changing social needs of communities, this book uncovers the notion of home as central to understand architecture in such a city with long history as Cairo. It firstly describes the historical development of the domestic spaces (indoor and outdoor), and provides an inclusive analysis of spaces of everyday activities in the hawari of old Cairo. It then broadens its analysis to other parts of the city, highlighting different customs and representations of home in the city at large. Cairo, in the context of this book, is represented as the most sophisticated urban centre in the Middle East with different and sometimes contrasting approaches to the architecture of home, as a practice and spatial system. In order to analyse the complexity and interconnectedness of the components and elements of the hawari as a 'collective home', it layers its narratives of architectural and social developments as a domestic environment over the past two hundred years, and in doing so, explores the in-depth social meaning and performance of spaces, both private and public.

Cooney, 2022-08-31 This volume challenges assumptions about—and highlights new approaches to—the study of ancient Egyptian society by tackling various thematic social issues through structured individual case studies. The reader will be presented with questions about the relevance of the past in the present. The chapters encourage an understanding of Egypt in its own terms through the lens of power, people, and place, offering a more nuanced understanding of the way Egyptian society was organized and illustrating the benefits of new approaches to topics in need of a critical re-examination. By re-evaluating traditional, long-held beliefs about a monolithic, unchanging ancient Egyptian society, this volume writes a new narrative—one unchecked assumption at a time. *Ancient Egyptian Society: Challenging Assumptions, Exploring Approaches* is intended for anyone studying ancient Egypt or ancient societies more broadly, including undergraduate and graduate students, Egyptologists, and scholars in adjacent fields.

unlock harem levels: *Islamic Heritage Architecture and Art II* G Passerini, 2018-07-18 Papers presented at the 2nd International Conference on Islamic Heritage Architecture and Art are contained in this volume. The conference attracted important research highlighting the significance of Islamic heritage architecture and art to the world and its influence across different regions. The papers deal with the design of many types of buildings in Islamic countries, including not only the better known public buildings like mosques, mausolea, citadels and forts, but also houses and gardens, engineering works such as bridges and dams, irrigation systems and many others which have also had a profound impact on society. Traditional architecture and urban environment in most Islamic countries is now being eroded by overemphasis on a global type of architecture and city planning. As a consequence, many regions are losing their identity. The included studies review these developments in the light of what classical Islamic urban design and architecture has to offer modern society. Research contained in this book provides an analysis of the materials employed and the types of structural elements used, particularly those unique to Islamic architecture. Associated topics covered include music, textiles and ceramics, which are essential parts of the architectural fabric. Also looked at are construction materials, including not only stone and brick but also more perishable materials like adobe, wood and reeds. The preservation of heritage features also requires the development of appropriate conservation techniques in response to the different materials used and the ways structural forms work, including under extreme conditions, such as earthquakes. Academics, researchers, practitioners and government employees actively involved in the topic of Islamic heritage architecture and art will find this publication of interest.

Its rulers, Manchus from the north, held power for three centuries despite major cultural and ideological differences with the Han majority. In this book, Evelyn Rawski offers a bold new interpretation of the remarkable success of this dynasty, arguing that it derived not from the assimilation of the dominant Chinese culture, as has previously been believed, but rather from an artful synthesis of Manchu leadership styles with Han Chinese policies.

The equipment is varied, extensive, and in a context sealed as buildings collapsed during the violent surprise attack and resulting fire that destroyed the town. The equipment, most still in its primary location ready for active use, make it of particular, if not unique, importance. It is also remarkable in the quantity recovered, its variety and richness, the functional types that could be identified (riding, draft, ceremonial), and the amount that could be reconstructed. Its life context gives new information about equipment and usage not otherwise available and allows suggestions for the layered importance of the horse as evidenced by the equipment. No other book presents equipment for horses in a similar context and quantity because the preservation at Hasanlu is unique for this part of the Near East in this time period. The equipment also provides new insight into space use in Hasanlu, one of the most important Iron Age sites in northwest Iran. Findspots yield information about building use and reuse, some as stables. These and architectural alterations provide unique information regarding changes to the town over time, some of which most likely reflect changes in the dynamics of the region.

The East African public transport vehicle from which *Matatu* takes its name is both a component and a symbol of these modernities: based on Western (these days usually Japanese) technology, it is a vigorously African institution; it is usually regarded with some anxiety by those travelling in it, but is often enough the only means of transport available; it creates temporary communicative communities and provides a transient site for the exchange of news, storytelling, and political debate. *Matatu* is firmly committed to supporting democratic change in Africa, to providing a forum for interchanges between African and European critical debates, to overcoming notions of absolute cultural, ethnic, or religious alterity, and to promoting transnational discussion on the future of African societies in a wider world. *Matatu* will be published as journal as of 2016.
