Unsere Medien sind immer wieder voll von Berichten über schier unfassbare Verbrechen. Und wir fragen uns, was sich abspielt im Gehirn von Menschen, die andere Menschen entführen, foltern, vergewaltigen oder ermorden. Die Geiseln nehmen, um politische Ziele durchzusetzen. Oder die ihre Kinder jahrzehntelang einsperren, um sie zu missbrauchen und zu quälen. Wie entsteht «das Böse», und wodurch könnte man es vielleicht verhindern? In diesem Buch geht es um eine besondere Dimension solcher Verbrechen – nämlich um die erstaunliche Faszination, die das Böse hervorruft. Denn obwohl die Taten schrecklich sind, üben sie oft eine faszinierende Wirkung auf andere Menschen aus. Sogar die Opfer selbst werden nicht selten davon erfasst. Welche bizarren Kapriolen vollzieht das Gehirn, wenn sich eine Allianz zwischen Tätern und Opfern bildet? Wie lässt es sich erklären, dass normale Menschen zu brutalen Vergewaltigern, Mördern, Entführern oder Hochstaplern eine positive Bindung entwickeln? Borwin Bandelow, der seit Jahrzehnten als Psychiater tätig ist und sich auskennt mit den Abgründen der menschlichen Seele, untersucht an zahlreichen Beispielen die merkwürdige Faszination des Bösen. Er beschreibt Fälle, die er selbst behandelt hat, und berichtet über Täter, Opfer und Zeitzeugen, die er interviewt hat, darunter – eine frühere Geliebte des Serienmörders Jack Unterweger, – den Vergewaltiger und Mörder Frank Schmökel, der von zahlreichen Frauen im Hochsicherheitstrakt Besuch bekommt, – eine Frau, die acht Jahre lang von einem Sexgangster gefangen gehalten wurde, – eine Frau, die monatelang in der Dschungelhölle Nicaraguas gefangen war und über die Beziehungen zu ihren Entführern spricht, – ein überlebendes Opfer des Kannibalen Jeffrey Dahmer, – einen ehemaligen Mitstreiter des Terroristen Andreas Baader, – Deutschlands berühmtesten Hochstapler Gert Postel, – die Frau, nach der das Stockholm-Syndrom benannt wurde, – eine Krankenschwester, die fünf ihrer Patienten tötete.

Elizabeth Wetmore, author of *Valentine* 'Richards has flipped the usual narrative, centring not on the crime itself but on the loss that ripples from it.' New York Times Book Review A remarkable debut novel for fans of Mary Gaitskill and Gillian Flynn about two sisters – one who disappears and the other who is left to pick up the pieces. In the summer of 1991, teen Dee McBride vanished in the city of Milwaukee. It was the summer the Journal Sentinel dubbed 'the deadliest . . . in the history of Milwaukee.' Serial killer Jeffrey Dahmer's heinous crimes dominated the headlines and the disappearance of one girl was easily overlooked. 2019, nearly thirty years later, Dee's sister, Peg, is still haunted by her disappearance. Desperate to find out what happened to her, the family hire a psychic and Peg is plunged back into the past. But Peg's hazy recollections are far from easy to interpret and digging deep into her memory raises terrifying questions. How much trust can we place in our own recollections? How often are our memories altered by the very act of speaking them aloud? And what does it mean to bear witness in a world where even our own stories about what happened are inherently suspect? A heartbreaking page-turner, Willa C. Richards' debut novel is the story of a broken family looking for answers in the face of the unknown.

They heard the power saw buzzing in the dead of night but neighbors never imagined the horrors happening right next door. A panic stricken young man--a pair of handcuffs still dangling from his wrists--ran out of Apartment 213 and told police an incredible tale of terror. Shaking with fear, he led officers back to his captor's lair, where they made the gruesome discovery. In *The Destruction of Black Milwaukee*, the reader will learn how institutional racism, public policies, and individual racism contributed to racial inequality and injustices in the city of Milwaukee to the point where Milwaukee is considered the worst city for African Americans to live in the United States. The readers will learn how institutional racism, public policies, and individual racism perpetuated these practices over decades. As outlined in chapter 2 of *The Destruction of Black Milwaukee*, it shows that based on almost every major socioeconomic indicator (unemployment, poverty, income, welfare reform, and more), Blacks in Milwaukee rank at or near the bottom nationally. *The Destruction of Black Milwaukee* explores racial inequality in the areas of housing (redlining, racial covenants, home loan denial, refinance denials, gentrification, evictions, etc.), business (business loans denials, racist policies, lack of enforcement of policies, etc.), education (graduation rates, test scores, suspensions, etc.), limits of electoral politics, health disparities (infant mortalities, teen pregnancies, suicides, homicides, etc.) and hospital closings, and the criminal justice system (police killings of African Americans, rape, illegal frisks, brutality, etc.). *The Destruction of Black Milwaukee* also discusses the role that Black gangs, African American drug dealers, and Black-on-Black homicides contributed to the destruction of Milwaukee's Black community. Moreover, *The Destruction of Black Milwaukee* discusses the role of Black serial killers and White serial killers in causing deaths and chaos in Milwaukee's Black community during this period. *The Destruction of Black Milwaukee* concludes with a discussion on the outlook for African Americans in Milwaukee.

who is glenda cleveland: *Explaining Evil* J. Harold Ellens, 2011-02-18 In this three-volume set, international scholars from across a broad spectrum of scholarly fields examine the concept of evil throughout history and world cultures from religious, scientific, psychological, and political perspectives. The manifestation of evil has provided a convenient theme for popular culture entertainment, ranging from the classic film *The Exorcist*, to almost all of Stephen King's horror novels, to video games such as *Resident Evil*. Unfortunately, dealing with—and attempting to overcome—the forces of evil is a pervasive problem in the real world as well. *Explaining Evil* addresses incidents of evil from ancient times to modern day around the globe. Concepts of evil within the big three religions—Christianity, Judaism, and Islam—are examined, as well as in Chinese philosophy and Native American beliefs. The political or national expressions of evil are explored, such as the axis of evil that culminated in World War II. These volumes identify the causes and effects of evil, and suggest possible remedies to humanity's inescapable flaw.

who is glenda cleveland: *Police in a Multicultural Society* David E. Barlow, Melissa Hickman Barlow, 2018-04-10 Social, political, and economic relationships played key roles in the historical development of the police. The authors present policing strategies from the vantage points of marginalized communities and emphasize the intersection of attitudes about class, race/ethnicity, gender, and sexual orientation with policies. Police practices cannot be class neutral in a class society, nor can they be race neutral or gender neutral in a racist, sexist, and heterosexist society. The key to understanding the relationship between the police and society is to think critically about the role of power and interests. The second edition includes a new chapter in the section on the police and rebellion covering recent events. There is also a new chapter on Latino/a police officers and an expanded chapter on LGBTQ police officers. Without meaningful social change toward greater justice, police reforms such as community policing and training in cultural diversity will fall short of creating an institution characterized by fairness and equality for all members of society. A clear view of history is essential for understanding the challenges a more diverse police force faces in today's multicultural environment.

who is glenda cleveland: *Cannibal Killers* Moira Martingale, 2015-10-29 Anthropophagy - humans eating their fellow-humans - creates a curious blend of revulsion and fascination in the 'civilised' Western world. When the perpetrator is a murderer - most commonly a sadistic serial killer - the crime not only shocks but it causes bewilderment. With this 2015 update of her comprehensive 1993 study of cannibalistic killers, Moira Martingale expands her original research about the making of such monsters. *Cannibal Killers* tracked the phenomenon from five hundred years ago with the notorious Sawney Bean to those whose names became a byword for horror as the twentieth century waned, such as Jeffrey Dahmer. who is glenda cleveland: *The Movies of Racial Childhoods* Celine Parreñas Shimizu, 2023-12-08 In *The Movies of Racial Childhoods* Celine Parreñas Shimizu examines early twenty-first-century cinematic representations of Asian and Asian American children. Drawing on psychoanalysis and her own perspective as a mother grieving for a deceased child, Shimizu considers how cinema renders Asian American children through sexualized racial difference, infantilization, and premature adultification. She looks at how Asian American childhood is characterized in film through experiences of alienation and trauma and contends that childhood

development requires finding freedom and self-sovereignty through agentic attunement. In analyzing films that focus on queer Asian American youth such as *Spa Night* (2016) and *Driveways* (2019) and those that explore the trauma of being an immigrant like *Yellow Rose* (2019) and *The Half of It* (2020), Shimizu demonstrates that films can prompt viewers to evaluate their own childhood development. They also allow the opportunity to understand the demands placed upon Asian American children, particularly in regard to race and sexuality. In this way, cinema becomes a vehicle for empowering our inner child and the children all around us.
