vern s family business ventures: 7001 Resumes-Plus Second Edition Ferris E. Merhish, 2010 In this second chronicle about Deborah, she faces an enemy whose sole purpose is to kill every human being in the universe. The location of the enemy's home planets is unknown. This enemy has unlimited ships and no concern about the high losses to their personnel. The initial evaluation is that the enemy may not even be human. They are given the name, Grays. A creature like the Grays seems rather harmless compared to what fiction shows you. The Grays went unchallenged only because they looked so weak and fragile. No one saw them as a serious threat. I can only think of the army ants on the march. No one takes an ant seriously; however, an army of ants will devastate an area and kill every living creature. The Grays are the same type of threat to mankind. As the Grays are building up their fleets and personnel, Deborah desperately searches the known universe for additional personnel; in this search she even goes to primitive nations. The United States strips its military forces to provide as many personnel as possible. Despite this effort, there are still not enough personnel. Deborah's scientists are working around the clock to not only upgrade her weapons, but also provide her with new types of weapons. Ramah and the United States are making a maximum effort to prepare for the upcoming battle with the Grays. In this battle either the humans or the Grays will become extinct.

vern s family business ventures: Verne Sankey Timothy W. Bjorkman, 2016-10-19 In late January of 1934, as authorities delivered John Dillinger to an Indiana jail, the United States Justice Department announced, for the first time, that the Federal Bureau of Investigation had just captured America's Public Enemy No. 1. It was not Dillinger the Justice Department was referring to, but an affable railroader turned outlaw, Verne Sankey. Now Timothy W. Bjorkman has written the first full-length biography of this overlooked criminal, relating how a South Dakota family man became a bootlegger, a bank robber, and eventually, a kidnapper whose deeds heralded a nationwide crime spree. In the early days of Prohibition, Sankey, then a locomotive engineer, was drawn to the easy

money he could make bootlegging. When crime syndicates monopolized the trade and Prohibition's end was in sight, he turned to the occasional bank robbery and eventually to a ransom scheme. In tracing the life of Sankey—and his demure wife, Fern—Bjorkman depicts a good-natured man, friendly neighbor, and gentleman rumrunner catering to the banker and broker trade. He also explores Sankey's motivations, his identification as America's first Public Enemy, and his ultimate descent into oblivion. Verne Sankey: America's First Public Enemy is a riveting narrative set amid the Great Depression. Bjorkman's research painstakingly reveals the life of Verne Sankey and his times, delving into the intriguing story of the family of his kidnapping victim, Charles Boettcher II, and the stark contrast between wealth and poverty during some of America's most harrowing days.

vern s family business ventures: La Verne Bill Lemon and the La Verne Historical Society, 2020 Founded in 1887 and located at the base of the San Gabriel Mountains, Lordsburg was poised to grow with the railroads and prosper with the citrus industry. Although some cities faded into obscurity when the Southern California land boom went bust, Lordsburg survived largely due to the intervention of four members of the German Baptist Brethren Church who bought the unoccupied Lordsburg Hotel and surrounding land. They established an academy that eventually became the University of La Verne. In 1917, Lordsburg was officially renamed La Verne. Church of the Brethren families settled in the area to further their children's higher education. Housing demands after World War II, followed by the declining citrus industry, transformed the landscape from rural to residential. Much of La Verne's small-town feel is preserved in its downtown and many original residences, while the centrally located university enlivens the community with its diverse student population. Attention to public art and care for La Verne's senior residents reflect civic pride.

vern s family business ventures: Model Rocketry Alexander Procyk, 2024-07-28 A beautifully illustrated survey of model rockets from the golden age of space flight and the model rocketry hobby, 1960 to 1980. "Space, the final frontier!" These words, first broadcast in 1966, caught the mood of the nation. The period between 1960 and 1980 was the golden age of space flight, and the height of space mania in popular culture. The space age produced countless space-related toys and collectibles; especially interactive were flying model rockets. This is a beautifully illustrated survey of vintage model rockets, with particular emphasis on those produced by Estes. The 80-plus examples featured are survivors, all of which were built and flown in period. Full-color photos of the preserved rockets are accompanied by anecdotes on construction and flight performance, along with examples of packaging and catalog imagery. The models featured in the book include many famous subjects from real life and science fiction such as the space shuttle, Starship Enterprise, SR-71 Blackbird, X-Wing fighter, V-2, Saturn V, and many more. This is a nostalgic gift for children of the space age, and also an inspiration for the budding model rocketeers of the 21st century.

vern s family business ventures: Commodify Your Dissent: Salvos from The Baffler Thomas Frank, Matt Weiland, 2011-07-18 From the pages of The Baffler, the most vital and perceptive new magazine of the nineties, sharp, satirical broadsides against the Culture Trust. In the old Gilded Age, the barons of business accumulated vast wealth and influence from their railroads, steel mills, and banks. But today it is culture that stands at the heart of the American enterprise, mass entertainment the economic dynamo that brings the public into the consuming fold and

consolidates the power of business over the American mind. For a decade The Baffler has been the invigorating voice of dissent against these developments, in the grand tradition of the muckrakers and The American Mercury. This collection gathers the best of its writing to explore such peculiar developments as the birth of the rebel hero as consumer in the pages of Wired and Details; the ever-accelerating race to market youth culture; the rise of new business gurus like Tom Peters and the fad for Hobbesian corporate reengineering; and the encroachment of advertising and commercial enterprise into every last nook and cranny of American life. With its liberating attitude and cant-free intelligence, this book is a powerful polemic against the designs of the culture business on us all.

vern s family business ventures: FROM RAGS TO RESOLVE; AND FROM REVOLUTION TO REPARATIONS! Marvin A. Smith, 2025-08-19 My grandparents, parents, aunts and uncles had the most unfortunate experience to come along during the terror of "Jim Crow"! Life for them was such that they had absolutely no reason to be optimistic, hopeful, confident, expectant, encouraging, visionary or enthusiastic about their future. One must keep in mind that this was just 75 years after

the American Civil War and the "Black Codes", 63 years after Reconstruction ended, and the introduction of "Jim Crow" laws that enforced racial segregation in the Southern United States. These "Jim Crow" laws were enacted by white Democratic dominated state legislatures throughout the South. This was a time when white people in the South were "Democrats"! We, African-Americans, must understand this political reality of names demonstrates that these major or minor political parties by any other names are comprised of so-called white people, racists, persistently manipulating the system to retain white supremacy or white power whether they were called Democrats (DemoKKKrats), or Republicans (RepubliKKKlans)! They were all so-called white people; they were all "domestic terrorists" working in tandem in efforts to preserve, maintain the status quo and advance white supremacy, under the banner of states' rights! The so-called white people came to a strategy to compensate the indigenous people, the Native Americans, for the multitude of atrocities committed against them; but have never adequately compensated the Native Americans! They designed a strategy to compensate the Japanese for the World Wars II internment camps that the Japanese Americans were illegally and unconstitutionally assigned and restricted to. The Japanese were never adequately compensated either! The German government found an acceptable policy to allow the Jews to be compensated for the brutal atrocities of Hitler and his Nazi regime, but the Nazis compensation certainly didn't bring back the 6,000,000 people killed! However, the atrocities against us, African-Americans, were most egregious and we should have received compensation through Reparations a long time ago! You so-called white people will not get away from paying us, African-Americans, the Reparations you owe us, never! It is time for an African-American Revolution!
