Philosophical writings from Plato, Aristotle, and other thinkers established enduring literary and intellectual models. PDF versions of these ancient texts make them accessible to modern readers and scholars.

western literature pdf: Handbook of Ecocriticism and Cultural Ecology Hubert Zapf, 2016-05-10 Ecocriticism has emerged as one of the most fascinating and rapidly growing fields of recent literary and cultural studies. From its regional origins in late-twentieth-century Anglo-American academia, it has become a worldwide phenomenon, which involves a decidedly transdisciplinary and transnational paradigm that promises to return a new sense of relevance to research and teaching in the humanities. A distinctive feature of the present handbook in comparison with other survey volumes is the combination of ecocriticism with cultural ecology, reflecting an emphasis on the cultural transformation of ecological processes and on the crucial role of literature, art, and other forms of cultural creativity for the evolution of societies towards sustainable futures. In state-of-the-art contributions by leading international scholars in the field, this handbook maps some of the most important developments in contemporary ecocritical thought. It introduces key theoretical concepts, issues, and directions of ecocriticism and cultural ecology and demonstrates their relevance for the analysis of texts and other cultural phenomena.

western literature pdf: Chinese Ibsenism Kwok-kan Tam, 2019-09-10 This book is a study of the relation between theatre art and ideology in the Chinese experimentations with new selfhood as a result of Ibsen's impact. It also explores Ibsenian notions of self, women and gender in China and provides an illuminating study of Chinese theatre as a public sphere in the dissemination of radical ideas. Ibsen is the major source of modern Chinese selfhood which carries notions of personal and social liberation and has exerted great impacts on Chinese revolutions since the beginning of the twentieth century. Ibsen's idea of the self as an individual has led to various experimentations in theatre, film and fiction to project new notions of selfhood, in particular women's selfhood, throughout the history of modern China. Even today, China is experimenting with Ibsen's notions of gender, power, individualism and self. Kwok-kan Tam is Chair Professor of English and Dean of Humanities and Social Science at the Hang Seng University of Hong Kong. He was Head (2012-18) and is currently a member of the International Ibsen Committee, University of Oslo. He is a Foundation Fellow of the Hong Kong Academy of the Humanities. He has held teaching, research and administrative positions in various institutions, including the East-West Center, the Chinese University of Hong Kong and the Open University of Hong Kong. He has published numerous books and articles on Ibsen, Gao Xingjian, modern drama, Chinese film, postcolonial literature, and world Englishes. His recent books include *Ibsen, Power and the Self: Postsocialist Experimentations in Stage Performance and Film* (2019), *The Englishized Subject: Postcolonial Writings in Hong Kong, Singapore and Malaysia* (2019), and a co-edited volume *Fate and Prognostication in the Chinese Literary Imagination* (2019).

western literature pdf: Literature and Computation Chris Tanasescu, 2024-06-28 Literature and Computation presents some of the most relevantly innovative recent approaches to literary

practice, theory, and criticism as driven by computation and situated in digital environments. These approaches rely on automated analyses, but use them creatively, engage in text modeling but inform it with qualitative[interpretive] critical possibilities, and contribute to present-day platform culture in revolutionizing intermedial ways. While such new directions involve more and more sophisticated machine learning and artificial intelligence, they also mark a spectacular return of the (trans)human(istic) and of traditional-modern literary or urgent political, gender, and minority-related concerns and modes now addressed in ever subtler and more nuanced ways within human-computer interaction frameworks. Expanding the boundaries of literary and data studies, digital humanities, and electronic literature, the featured contributions unveil an emerging landscape of trailblazing practice and theoretical crossovers ready and able to spawn and/or chart the witness literature of our age and cultures.

western literature pdf: The Bloomsbury Handbook of Modern Chinese Literature in Translation Cosima Bruno, Lucas Klein, Chris Song, 2023-10-19 Offering the first systematic overview of modern and contemporary Chinese literature from a translation studies perspective, this handbook provides students, researchers and teachers with a context in which to read and appreciate the effects of linguistic and cultural transfer in Chinese literary works. Translation matters. It always has, of course, but more so when we want to reap the benefits of intercultural communication. In many universities Chinese literature in English translation is taught as if it had been written in English. As a result, students submit what they read to their own cultural expectations; they do not read in translation and do not attend to the protocols of knowing, engagements and contestations that bind literature and society to each other. The Bloomsbury Handbook of Modern Chinese Literature in Translation squarely addresses this pedagogical lack. Organised in a tripartite structure around considerations of textual, social, and large-scale spatial and historical circumstances, its thirty plus essays each deal with a theme of translation studies, as emerged from the translation of one or more Chinese literary works. In doing so, it offers new tools for reading and appreciating modern and contemporary Chinese literature in the global context of its translation, offering in-depth studies about eminent Chinese authors and their literary masterpieces in translation. The first of its kind, this book is essential reading for anyone studying or researching Chinese literature in translation.

western literature pdf: Nordic Speculative Fiction Jyrki Korpua, Aino-Kaisa Koistinen, Hanna-Riikka Roine, Marta Mboka Tveit, 2024-12-20 This volume brings together scholarly theories and practices on speculative fiction from the Nordic countries, including Denmark, Finland, Iceland, Norway, and Sweden, that are all rooted in similar values, culture, and history yet are independent and unique societies. The book exhibits both the convergences and the diversity of the Nordics in fiction and fandom as well as in research. It traces the roots of Nordic speculative fiction, how it has developed over time, and how the changes in Nordic environments and societies caused by overhanging shared global issues – such as climate change, mass migration, and technological acceleration – find space in speculative practices. The first of its kind, this book allows for deeper insights into the unique characteristics that make Nordic literature and art recognisable and allows for a better understanding of the place of the Nordics within wider global culture systems. The chapters range from literary critiques, film and television studies, creative works by three Nordic creative writers, transcultural text comparisons, and contributions on speculative art to theoretical and methodological discussions on fandom, worldbuilding, and semantics. Part of the *Studies in Global Genre Fiction* series, this book contributes to connecting Nordic speculative fiction scholarship to the wider global community within the field. It will be of interest to scholars and general enthusiasts of speculative fiction and those with interest in Nordic fiction; film and television

studies; literary, culture, or media studies; comparative literature; and cultural history or art-based research.

western literature pdf: *Literature on Trial* S. D. Chrostowska, 2012-07-09 *Literature on Trial* traces the rise of modern literary criticism in Central and Eastern Europe during the eighteenth century. S.D. Chrostowska juxtaposes the discourse's written forms in three linguistic-cultural regions — Germany, Poland, and Russia — to show how fluid the relationship once was between the genres of criticism and those of literature. An alternative history of literary criticism, *Literature on Trial* marks a shift from earlier studies' focus on aesthetic principles to an emphasis on the development of literary-critical forms. Chrostowska relates cultural and institutional changes in these areas to the formation of literary-critical knowledge. She accounts for the ways in which critical discourse organized itself formally and deemed some genres 'proper' while eliminating others. Analysing works by Lessing, Goethe, and Karamzin, among others, *Literature on Trial* brings a fresh theoretical perspective to the links between genre as a discursive strategy and socio-political life.

western literature pdf: *Ovid, Metamorphoses, 3.511-733* Ingo Gildenhard, Andrew Zissos, 2016-09-05 This extract from Ovid's 'Theban History' recounts the confrontation of Pentheus, king of Thebes, with his divine cousin, Bacchus, the god of wine. Notwithstanding the warnings of the seer Tiresias and the cautionary tale of a character Acoetes (perhaps Bacchus in disguise), who tells of how the god once transformed a group of blasphemous sailors into dolphins, Pentheus refuses to acknowledge the divinity of Bacchus or allow his worship at Thebes. Enraged, yet curious to witness the orgiastic rites of the nascent cult, Pentheus conceals himself in a grove on Mt. Cithaeron near the locus of the ceremonies. But in the course of the rites he is spotted by the female participants who rush upon him in a delusional frenzy, his mother and sisters in the vanguard, and tear him limb from limb. The episode abounds in themes of abiding interest, not least the clash between the authoritarian personality of Pentheus, who embodies 'law and order', masculine prowess, and the martial ethos of his city, and Bacchus, a somewhat effeminate god of orgiastic excess, who revels in the delusional and the deceptive, the transgression of boundaries, and the blurring of gender distinctions. This course book offers a wide-ranging introduction, the original Latin text, study aids with vocabulary, and an extensive commentary. Designed to stretch and stimulate readers, Gildenhard and Zissos's incisive commentary will be of particular interest to students of Latin at AS and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Ovid's poetry and discussion of the most recent scholarly thought.

western literature pdf: *Shanghai Tai Chi* Hanchao Lu, 2023-05-11 Shanghai Tai Chi offers a masterful portrait of daily urban life under socialism in a rich social and political history of one of the world's most complex cities. Hanchao Lu explores the lives of people from all areas of society - from capitalists and bourgeois intellectuals to women and youth. Utilizing the metaphor of Tai Chi, he reveals how people in Shanghai experienced and adapted to a new Maoist political culture from 1949. Exploring the multifaceted complexity of everyday life and material culture in Mao's China, Lu addresses the survival of old bourgeois lifestyles under the new proletarian dictatorship, the achievements of intellectuals in an age of anti-intellectualism, the pleasure that urban youth derived from reading taboo literature, the emergence of women's liberation and the politics of greening and horticulture. This captivating, epitomizing, and vivid history transports readers to history as lived on Shanghai's streets and back alleyways.

western literature pdf: *Globalism in the Middle Ages and the Early Modern Age* Albrecht Classen, 2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca. 1800, the opposite can well be documented through careful comparative and transdisciplinary studies, as this volume demonstrates, offering a wide range of innovative perspectives on often neglected literary, philosophical, historical, or medical documents. Texts, images, ideas, knowledge, and objects migrated throughout the world already in the pre-modern

world, even if the quantitative level compared to the modern world might have been different. In fact, by means of translations and trade, for instance, global connections were established and maintained over the centuries. Archetypal motifs developed in many literatures indicate how much pre-modern people actually shared. But we also discover hard-core facts of global economic exchange, import of exotic medicine, and, on another level, intensive intellectual debates on religious issues. Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable, often desirable, and at times feared, of course. The pre-modern world was much more on the move and reached out to distant lands out of curiosity, economic interests, and political and military concerns. Diplomats crisscrossed the continents, and artists, poets, and craftsmen traveled widely. We can identify, for instance, both the Vikings and the Arabs as global players long before the rise of modern globalism, so this volume promises to rewrite many of our traditional notions about pre-modern worldviews, economic conditions, and the literary sharing on a global level, as perhaps best expressed by the genre of the fable.

western literature pdf: Tribalism and Democracy in Libya Rawia Ben Khayal, 2025-09-05 This book examines the political and social role of tribes in post-Gaddafi Libya, focusing on the current democratic state-building process. It integrates both quantitative and qualitative research methods, including a survey of 1,000 respondents and in-depth interviews with 14 prominent Libyan figures. The study is supported by a comprehensive review of the historical development of Libyan tribes, revealing their longstanding prominence in local governance. Drawing from various International Relations (IR) theories—such as Realism, Constructivism, Liberalism, and Feminism—and interdisciplinary fields like anthropology, history, psychology, and literature, the book argues that while tribalism can challenge democratic state-building, especially in areas like national security and individual rights, it also provides vital social cohesion, or *asabbiyyah*, which is crucial for Libyan national identity. The book's originality lies in its interdisciplinary approach, exploring tribalism's impact not only on Libya's internal politics but also its international relations. It introduces concepts like liminality and tribal ambiguity to explain the complex and often contradictory attitudes towards tribalism in modern Libyan society. This analysis challenges Libyan readers to confront their ambivalence towards tribalism and reflects on its role in shaping Libya's future as it strives for democracy and global integration.
