vietnamese american literature pdf: Populations and Precarity during the COVID-19 Pandemic: Southeast Asian Perspectives Kevin S.Y. Tan, Steve K.L. Chan, 2023-06-25 This volume is a collection of articles that examines how the COVID-19 pandemic affected and intersected with

various Southeast Asian contexts in the broad areas of migration, education and demographic policy. At the height of the pandemic from 2020–22, the resulting restrictions to international travel, ensuing nationwide lockdowns and eventual economic crises formed part of what many commentators referred to as a “new normal”. Apart from being a global health crisis, the pandemic disrupted and transformed the experience of everyday life at all levels of society, where many of its effects are now likely irreversible. In particular, the impact of the pandemic certainly affected the most vulnerable individuals and communities throughout the region, especially in countries that are experiencing rapid ageing such as Singapore and Thailand. Examples of the most affected include low-wage migrant workers, the disabled and the children of impoverished families. For many who were already living in a state of precarity, the structural “side-effects” of the pandemic were at times more deadly than the coronavirus itself as it often negatively impacted livelihood, social-emotional ties and overall well-being. At the same time, the “new normal” has further created conditions that raise the likelihood of occupational precarity even for long-term professionals within established fields like education. In other words, few experienced the COVID-19 pandemic without encountering both tangible and intangible challenges, regardless of where one was situated. Hence, by merging the theme of precarity with that of the pandemic’s undeniable and exacerbating effects, this volume hopes to establish a useful platform to reflect and learn from a range of scholarly views and to contribute to new knowledge and inform policymaking in Southeast Asian societies. This volume is a collection of thoughtful scholarship that examines the challenges that have been made more acute by the COVID-19 pandemic among and between Southeast Asian populations. The chapters here consider how the global public health crisis and its policy responses have aggravated various forms of precarity that had taken root in pockets of Southeast Asian societies. While history will be the ultimate judge of the true social and cultural consequences of COVID-19 policy responses, *Populations and Precarity during the COVID-19 Pandemic: Southeast Asian Perspectives* is an urgent reminder that while the worst of the pandemic may be behind us, much more remains to be done to relieve the most vulnerable among our populations of a different kind of long COVID.

--Associate Professor Lim Lee Ching, Dean of S R Nathan School of Human Development, Singapore University of Social Sciences We have all witnessed the impact that the COVID-19 pandemic had on our daily lives. This was especially true in areas such as Southeast Asia where local and regional economies rely on the movement of workers, both skilled and unskilled. The compilation of chapters in this volume provides an interesting examination of the struggles faced by many in Southeast Asia during this difficult period. Readers will realize that what was merely an inconvenience for some people was life altering for others. I highly recommend reading this book to increase awareness of the hidden consequences of such global catastrophes and perhaps better prepare for the next global event. It is hoped that this collection will inspire actions to resolve some of the current issues faced by vulnerable populations.

--Professor Gary La Point, Professor of Practice in Supply Chain, Whitman School of Management at Syracuse University A fascinating book that provides an insightful analysis of the 'new normal' and the impacts of COVID-19 pandemic in key areas such as migration, housing, education, disaster management, and ageing in Southeast Asia. The book provides invaluable perspectives and knowledge for social policymakers and students in Southeast Asia and beyond.

--Dr Sorasich Swangsilp, Director, Social Policy & Development (SPD) Programme (BA International Programme), Faculty of Social Administration, Thammasat University *Populations and Precarity during the COVID-19 Pandemic* provides a timely addition to our understanding of how the pandemic disrupted key areas of everyday life in Southeast Asia, a multi-ethnic and complex region. Thematically diverse and empirically rich, this book is an interdisciplinary collaboration that deserves academic attention.

--Professor Jongryul Choi, Chair of the Department of Sociology, Keimyung University, South Korea

At the same time, the chapters carefully and powerfully examine ways to deconstruct and speak back to these misconceptions of Asian Americans. vietnamese american literature pdf: LatinAsian Cartographies Susan Thananopavarn, 2018-03-19 LatinAsian Cartographies examines how Latina/o and Asian American writers provide important counter-narratives to the stories of racial encroachment that have come to characterize twenty-first century dominant discourses on race. Susan Thananopavarn contends that the Asian American and Latina/o presence in the United States, although often considered marginal in discourses of American history and nationhood, is in fact crucial to understanding how national identity has been constructed historically and continues to be constructed in the present day. Thananopavarn creates a new "LatinAsian" view of the United States that emphasizes previously suppressed aspects of national history, including imperialism, domestic racism during World War II, Cold War operations in Latin America and Asia, and the politics of borders in an age of globalization. LatinAsian Cartographies ultimately reimagines national narratives in a way that transforms dominant ideas of what it means to be American.

Americans are currently reading and interpreting the Bible, this volume also serves a valuable role in both developing and disseminating what can be termed as Asian American biblical hermeneutics. The volume works from the important background that Asian Americans are the fastest growing ethnic/racial minority population in the USA, and that 42% of this group identifies as Christian. This provides a useful starting point from which to examine what may be distinctive about Asian American approaches to the Bible. Part 1 of the Handbook describes six major ethnic groups that make up 85% of Asian population (by country of origin: China, Philippines, Indian Subcontinent, Vietnam, Korea, Japan) and outlines the specific concerns each group has when its members read the Bible. Part 2 of the Handbook examines major critical methods in biblical interpretation and suggests adjustments that may be helpful for Asian Americans to make when they are interpreting the Bible. Finally, Part 3 provides 25 interpretations by Asian American biblical scholars on specific texts in the Bible, using what they consider to be Asian American hermeneutics. Taken together the Handbook interprets the Bible both with and for the Asian American communities.

vietnamese american literature pdf: Flashpoints for Asian American Studies Cathy Schlund-Vials, 2017-10-03 Emerging from mid-century social movements, Civil Rights Era formations, and anti-war protests, Asian American studies is now an established field of transnational inquiry, diasporic engagement, and rights activism. These histories and origin points analogously serve as initial moorings for Flashpoints for Asian American Studies, a collection that considers—almost fifty years after its student protest founding--the possibilities of and limitations

inherent in Asian American studies as historically entrenched, politically embedded, and institutionally situated interdisciplinary. Unequivocally, *Flashpoints for Asian American Studies* investigates the multivalent ways in which the field has at times and—more provocatively, has not—responded to various contemporary crises, particularly as they are manifest in prevailing racist, sexist, homophobic, and exclusionary politics at home, ever-expanding imperial and militarized practices abroad, and neoliberal practices in higher education.
