true grit pdf: Psychiatric Ethics in Late-Life Patients Meera Balasubramaniam, Aarti Gupta, Rajesh R. Tampi, 2019-06-27 The process of aging is frequently associated with changes in the physical and mental functioning of older adults, challenging their autonomy and rendering them vulnerable to exploitation. Certain illnesses that are more common in older adults can affect their capacity to function independently. These include the capacity to make medical decisions, live independently, manage finances, to name a few. Healthcare professionals, especially psychiatrists are often entrusted with the responsibility of assessing an older adult's capacity to perform one or more functions. This makes it imperative for them to be cognizant of these issues, understand the need for these evaluations, and be able to conduct them in a comprehensive manner. Another way of protecting an older person's rights and facilitating a life based on their own decisions even after they lose decision making capacity is Advanced Health Care Planning (AHCP). Health care professionals are required to initiate a discussion about AHCP with their patients and their families and review it periodically. Lastly, the older adults incarcerated in prisons is a group that is growing in numbers. They have unique needs at the intersection of the geriatric and forensic services, but are often marginalized by both services. The combination of poor quality of life and increasing costs makes the care of older adults in the criminal justice system makes this topic an important public health concern. There is a pressing need for better training of prison staff in issues of geriatric psychiatry. Assessment of criminal responsibility and competence to stand trial in aging offenders are other complex but under-studied issues. This proposed book will provide a comprehensive view of ethical, medicolegal, and forensic issues that will be useful in clinical practice. There will be three sub-sections, each focusing on ethical, medicolegal and forensic issues respectively. The first section will focus on ethical issues. Its first chapters will provide an overview of the how age and the process of aging influence decision-making and introduce unique ethical dimensions to clinical care. This will be followed by a discussion of the concepts of informed consent and capacity evaluation. The next chapters will focus on common scenarios that arise in the care of elderly patients and offer a practical approach to understanding and managing them. These will include assessments of the capacity to make medical decisions, the capacity to live independently, manage finances, drive a vehicle, have sexual relations etc. A chapter on ethical issues specific to dementia will outline issues related to diagnostic disclosure and genetic testing. Research ethics issues in geriatric psychiatry will also be outlined. The next section of the book will focus on surrogate decision making in an older adult who has been deemed to lack the capacity to serve one or more functions independently. The first chapters in this sub-section will focus on patient directed advance health care planning tools, namely, living will and power of attorney. This will be followed by an overview of default

surrogate making. Guardianship will subsequently be covered. A separate chapter will cover the issue of elder abuse and discuss an approach to assessing it. The last section of the book will cover forensic issues in geriatric psychiatry. The first chapter will discuss aging older adults in the criminal justice system from an epidemiological perspective. The growing numbers of incarcerated older adults, their illness burden, the challenges in the diagnosis and management of neurocognitive disorders in the prison setting will be elucidated. The following chapter will discuss competence to stand trial with reference to elderly offenders. This will be followed by a discussion of the concepts of medical reprieve, compassionate release as well as model programs and policies currently in the works for older incarcerated adults.

true grit pdf: The Older Prisoner Diete Humblet, 2021-01-23 This book critically explores the world of older prisoners to provide a more nuanced understanding of imprisonment at old age. Through an ethnographical study of male and female older prisoners in two Belgian prison settings, one in which older prisoners are integrated and one in which they are segregated, it informs debates and seeks to recognise ageist discourse, attitudes, practices in prison. The Older Prisoner seeks to situate the older prisoner from both a penological and gerontological perspective, organised around the following broad themes: the construction of the older prisoner, the physical prison world, the social prison world, surviving prison and giving meaning. The book allows readers to navigate between contrasting perspectives and voices rather than reinforcing traditional narratives and prevailing discourses on the older prisoner. In doing so, it hopes to open up a broader dialogue on ageing and punishment. It also offers insights into the concept of meaning in life as an analytical tool to study prisoners.

true grit pdf: Contemporary Western White John White, 2019-05-03 The September 11th attacks in 2001 and the subsequent 'War on Terror' have had a profound effect on American cinema, and the contemporary Western is no exception. In this book, John White explores how films such as Open Range, True Grit and Jane Got a Gun reinforce a conservative myth of America exceptionalism; endorsing the use of extreme force in dealing with enemies and highlighting the importance of defending the homeland. Placing their characters within a dark world of confusion and horror, these films reflect the United States' post-9/11 uncertainties, and the conflict between civilised values and the brutality employed to defend them.

true grit pdf: Learning how to Hope Sarah Marie Stitzlein, 2020 Democracy is struggling in America. Citizens increasingly feel cynical about an intractable political system, while hyper-partisanship has dramatically shrunk common ground and intensified the extremes. Out of this deepening sense of political despair, philosopher of education Sarah M. Stitzlein seeks to revive democracy by teaching citizens how to hope. Offering an informed call to citizen engagement, Stitzlein directly addresses presidential campaigns, including how to select candidates who support citizens in enacting and sustaining hope. Drawing on examples from American history and pragmatist philosophy, this book explains how hope can be cultivated in schools and sustained through action in our communities -- it describes what hope is, why it matters to democracy, and how to teach it. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations.

true grit pdf: Universities, the Citizen Scholar and the Future of Higher Education J. Arvanitakis, D. Hornsby, 2016-06-01 The future of higher education is in question as universities struggle to remain relevant to the present and future needs of society. The context in which learning occurs is rapidly changing and those engaged and interested in the place and position of university education need to figure out to adapt. This book embodies a vision for higher education where graduate attributes and proficiencies are at the core of the academic project, where degree programs move beyond disciplinary content and where students are encouraged to be Citizen Scholars. Through a series of cross-disciplinary and contextual cases, the contributors to this book articulate how this vision can be achieved in our pedagogical environments, future proofing higher education.

true grit pdf: Aging Behind Prison Walls Tina Maschi, Keith Morgen, 2020-12-01 Today, more than 200,000 men and women over age fifty are languishing in prisons around the United States. It is projected that by 2030, one-third of all incarcerated individuals will be older adults. An already overcrowded and underserved prison system is straining to manage the needs of incarcerated older adults with growing frailty and health concerns. Separated from their families and communities despite a low risk of recidivism, incarcerated older adults represent a major social-justice issue that reveals the intersectional factors at play in their imprisonment. How do the people aging in prison understand their life experiences? In *Aging Behind Prison Walls*, Tina Maschi and Keith Morgen offer a data-driven and compassionate analysis of the lives of incarcerated older people. They explore the transferable resiliencies and coping strategies used by incarcerated aging adults to make meaning of their lives before, during, and after imprisonment. The book draws on extensive quantitative and qualitative research as well as national datasets. It features rich narrative case studies that present stories of trauma, coping, and well-being. Based on the data, Maschi and Morgen present a solution-focused caring-justice framework in order to understand and transform the individual- and community-level structural factors that have led to and perpetuate the aging-in-prison crisis. They offer concrete proposals—at the community and national policy levels—to address the pressing issues of incarcerated elders.

true grit pdf: SOCIAL WORK IN JUVENILE AND CRIMINAL JUSTICE SYSTEMS (4th Ed.) David W. Springer, Albert R. Roberts, 2017-05-16 *Social Work in Juvenile and Criminal Justice Systems* sets the standard of care for mental health treatment and the delivery of social services to crime victims, juvenile and adult offenders, and their families. The chapters, all authored by experts in the field and all committed to the mission of social justice, are written with the clear understanding that we cannot study criminal justice in a vacuum. Therefore, a major focus of the book is on the renewed growing sense of the profession's obligation to social justice. Each chapter interconnects with the various components of juvenile and criminal justice. Another prominent aspect of the book is that it is strength-based. It views those involved in the criminal and juvenile justice systems as individuals rather than inmates or criminals, each with unique positive talents and abilities. The book is divided into four sections. The first section discusses forensic social work, including crime and delinquency theories, trends, and ethical issues. The second section prepares social workers for practice in correctional institutions and explores crisis intervention with victims of violence, reentry of adult offenders in society, and aging in prison. The third section covers assessment and intervention in child sexual abuse, mental health and substance abuse, interpersonal violence and prevention, child welfare and juvenile justice. The final section presents an overview on social work in the twenty-first century, which includes restorative justice and the justice system, new ways of delivering justice, domestic violence, neighborhood revitalization, race and ethnicity, and social work practice with LGBTQ offenders. This book will be the best single source on social work in criminal justice settings and will prove to be an invaluable resource for the many professionals who have responsibility for formulating and carrying out the mandates of the criminal justice system.

true grit pdf: Identifying, Describing, and Developing Teachers Who Are Gifted and Talented Van Sickle, Meta L., Swanson, Julie D., Bazler, Judith A., Lubniewski, Kathryn L., 2018-12-07 Much of the research about teachers focuses on "those who can't/don't/aren't good" in the classroom. However, teachers who are gifted and talented exist, but there has been little attention to date on the characteristics and practices of such teachers in the classroom. While few, the examples of research on positive teacher attributes include work on the "expert," "authentic," and "creative," as well as examples of research on eminent adults. Identifying, Describing, and Developing Teachers Who Are Gifted and Talented is an essential reference source that discusses behaviors and traits in teachers who are considered gifted and talented as well as case studies on the identification and preparation of teachers who fall into this category. Featuring research on topics such as creative innovation, emotional intelligence, and skill development, this book is ideally designed for educators, administrators, researchers, and academicians.

true grit pdf: Scripted Bodies Kenneth Saltman, 2016-07-28 From drugging kids into attention and reviving behaviorism to biometric measurements of teaching and learning Scripted Bodies exposes a brave new world of education in the age of repression. Scripted Bodies examines how corporeal control has expanded in education, how it impacts the mind and thinking, and the ways that new technologies are integral to the expansion of control. Scripted Bodies contends that this rise in repression must be understood in relation to the broader economic, political, and cultural forces that have produced an increasingly authoritarian society. This book details how these new forms of corporeal control shut down the possibility of public schools developing as places where thinking becomes the organizing principle needed to contribute to a more equal, just, and democratic society.

true grit pdf: Die Privatisierung des Militärs: Das Beispiel Blackwater Jochen Kosel, 2012-08 Die Gesamtwirtschaft eines Staates setzt sich zusammen aus dem öffentlichen und dem privaten Sektor. Allgemein kann man für den öffentlichen Sektor festhalten, dass der Staat für die Bürger bestimmte Dienstleistungen erbringt, die von den Bürgern durch die entrichteten Steuern finanziert werden. Im Gegensatz dazu bieten im privaten Sektor gewinnorientierte Privatunternehmen Güter und Dienstleistungen auf dem Markt an, die von den Verbrauchern erworben werden können. Das bedeutet, dass sich die beiden Sektoren in Bezug auf ihre Finanzierungsquellen, das Verhältnis zwischen Anbietern und Verbrauchern und den rechtlichen Status des Anbieters grundsätzlich voneinander unterscheiden. Seit den 1990er Jahren erobern privatwirtschaftliche, gewinnorientierte Unternehmen einen Bereich des öffentlichen Sektors, der bis dato ausschließlich dem Staat vorbehalten war - den Bereich des Militärs. Die Unternehmen, die sich in diesem Bereich etablieren, bezeichnet man als Private Military Companies, kurz PMCs. Die zunehmende Privatisierung des militärischen Bereichs verändert nicht nur das Akteurspektrum, sondern auch das Wesen von Kriegen. Der Einzug von Begriffen wie Privatisierung und Outsourcing im täglichen Sprachgebrauch von Verteidigungsministern suggeriert, dass Krieg nicht mehr als ultima ratio verstanden wird - als letztes Mittel nach Ausschöpfung aller anderen Mittel -, sondern als eine Dienstleistung, die von privatwirtschaftlichen Unternehmen im Auftrag von Staaten erbracht wird. Der rasante Aufstieg der PMC-Branche im Allgemeinen und des Unternehmens Blackwater im Besonderen, das aus einem der am schnellsten wachsenden Wirtschaftszweige noch herausragt, wirft eine Reihe von Fragen auf:

Was unterscheidet Söldner von PMCs? Wie kann man PMCs definieren, um sie in ihrer Gesamtheit zu erfassen? Welche Faktoren haben zum Aufstieg von PMCs beigetragen? Wie gelingt es Blackwater, aus der Fülle der PMCs eine exponierte Stellung einzunehmen?

true grit pdf: Genetic Resources as Natural Information Manuel Ruiz Muller, 2015-09-16 Demonstrating the shortcomings of current policy and legal approaches to access and benefit-sharing (ABS) in the Convention on Biological Diversity (CBD), this book recognizes that genetic resources are widely distributed across countries and that bilateral contracts undermine fairness and equity. The book offers a practical and feasible regulatory alternative to ensure the goal of fairness and equity is effectively and efficiently met. Through a legal analysis that also incorporates historic, economic and sociological perspectives, the book argues that genetic resources are not tangible resources but information. It shows that the existing preference for bilateralism and contracts reflects resistance on the part of many of the stakeholders involved in the CBD process to recognize them as such. ABS issues respond very well to the economics of information, yet as the author explains, these have been either sidelined or overlooked. At a time when the Nagoya Protocol on ABS has renewed interest in feasible policy options, the author provides a constructive and provocative critique. The institutional, policy and regulatory framework constitute bounded openness under which fairness and equity emerge.
